*Defending Frenemies* Jeffrey W. Taliaferro, 2019-08-16 *Defending Frenemies* examines the nonproliferation strategies that United States pursued toward vulnerable and often obstreperous allies in three volatile regions of the globe the Middle East South Asia and East Asia from the early 1960s to the early 1990s Jeffrey W Taliaferro shows that superpower competition and regional power dynamics as filtered through US domestic politics shaped the types of strategies US policymakers adopted toward the nuclear proliferation by Israel Pakistan South Korea and Taiwan during the Cold War The

overriding goals of successive US administrations were to contain the growth of the Soviet Union's influence in the Middle East and South Asia as well as to enlist China as an ally of convenience against the Soviets in East Asia. **Emanuel Celler** Wayne Dawkins, 2020-10-16 Congressman Emanuel Celler 1888-1981 was a New York City congressman who served in the United States House of Representatives from 1923 to 1973. Celler's almost fifty-year career was highlighted by his long fight to eliminate national origin quotas as a basis for immigration restrictions and his battles for civil rights legislation. In *Emanuel Celler: Immigration and Civil Rights Champion*, author Wayne Dawkins introduces new readers to a figure integral to our contemporary political system. Celler's own immigrant background framed his lifelong opposition to immigration restrictions and his corresponding support for reducing barriers for immigrant entry into the United States. After decades of struggle, he proposed and steered through the House the Hart-Celler Act of 1965, which eliminated national origins as a consideration for immigration, profoundly shaping modern America. Celler was also a consistent advocate for civil rights. As chairman of the House Judiciary Committee from 1949 to 1973, except for a break from 1953 to 1955, Celler was involved in drafting and passing the Civil Rights Act of 1964, the Voting Rights Act of 1965, and the Civil Rights Act of 1968. During his career, he was also deeply involved in landmark antitrust legislation, the establishment of US ties with the state of Israel, and the Gun Control Act of 1968, and was the author of three constitutional amendments, including the 25th that established presidential succession. Dawkins profiles a complex politician who shaped the central tenets of Democratic Party liberalism for much of the twentieth century and whose work remains central to the nation and our political debates today. From author Wayne Dawkins, Emanuel Celler 1888-1981 could be the most significant US legislator of the twentieth century. He cosponsored three Constitutional amendments: the twenty-third voting rights for District of Columbia residents, the twenty-fourth poll taxes banned, and the twenty-fifth clear succession established if the president is removed from office. And as a longtime chairman of the House Judiciary Committee, he reluctantly cosponsored a fourth, the twenty-sixth amendment, 18-year-old voting rights. He is also linked to three hundred laws, notably the Civil Rights Acts of 1957, 1960, 1964, and 1968, the Voting Rights Act of 1965, and his masterpiece, the Hart-Celler Immigration Reform Act of 1965. Over the past decade, Celler, who served fifty years in Congress, has been a supporting cast member in at least a dozen books about immigration or civil rights. He was frequently cited in *One Mighty and Irresistible Tide* (2020) and noted in two key moments of *The Guarded Gate* (2019). And he was cited generously in *Goliath* (2019), a book about Celler's other passion, antitrust and monopoly busting. But this fall, he will at last be the focus of a full-length biography, *Emanuel Celler: Immigration and Civil Rights Champion*. And I believe it will become the go-to book for anyone wanting to know more about this history.

It draws upon a distinguished array of writers and scholars: historians, political scientists, journalists, novelists, biographers, and English literature specialists to guide the reader through a fascinating labyrinth of British culture, history, and politics. Together they provide a unique insight into the pivotal themes: political, literary, and cultural, which have shaped British state and society. The subjects covered include a new analysis of Jack the Ripper by Richard Davenport Hines; a new appraisal of Harold Nicholson and Royal Biography by Jane Ridley; and a new account of Evelyn Waugh in North America by Martin Stannard. In literature, Patrick French writes on V. S. Naipul; in history, Andrew Lownie offers new perspectives on Guy Burgess; and in politics, Kenneth O. Morgan considers what will become of Britain after Brexit. Collectively, the chapters combine a rich mix of original ideas, historical and literary allusion, personality, and anecdote to provide an intellectual adventure into the mainsprings of modern British and international society.

*The Privileged Poor* Anthony Abraham Jack, 2019-03-01 Getting in is only half the battle. The struggles of less privileged students continue long after they've arrived on campus. **Student Speech Policy Readability in Public Schools** Erica Salkin, Logan Shenkel, 2016-10-31 This book explores the issue of student speech in public schools from a student usability perspective. Student speech is both a challenge and an opportunity in public schools. When school boards and districts craft policy, they do so with US Supreme Court precedents, state laws, and community expectations in mind. The result is complex ideas presented in complex speech. What do student handbooks say about free speech, if anything at all? How are these rights defined, and how is the language interpreted? Salkin and Shenkel explore these questions by analyzing a sample of public high school student handbooks from across the country. Drawing from the results, the project proposes real-world suggestions for schools seeking to create student expression handbook language that is easily accessible to the audience it seeks to serve.
