Robert Cummings Neville

Spiritual Exercises Based On A Purely Human Spirituality:

Spiritual Exercises Based on a Purely Human Spirituality Vincent Virom C. Coppola, 2014-12-24 about the book The aim of these Spiritual Exercises is for the person making this journey to achieve the height of consciousness within each of us as human beings accomplishing such via a purely human spirituality and thereafter applying that to life It is a powerful endeavor with the exercises providing a person with a concrete preparation for the serious undertaking of how to act in the face of existence about the author His vita shows that he was trained in philosophy theology literature and film and has three advanced degrees two in philosophy an MA and PHD as well as an MFA in film and an AB in classical literature He teaches all of the above subjects and is a member of the Writers Guild of America and BMI

The Esoteric in Religious and Spiritual Traditions Patrick Laude, 2025-06-28 This book offers a comparative examination of the esoteric dimension across diverse religions including Buddhism Christianity Hinduism and Islam It seeks to answer the question of whether the concept of the esoteric can be applied across traditions and explores intersections convergences and differences in its use and presence therein The book provides new avenues for research by moving beyond the study of Western esotericism and examining how the category of the esoteric can be applied in the contexts of Abrahamic faiths and Asian traditions The book is organized into six centers of reflection including the esoteric dialectics of hiding and revealing the claim of esoteric traditions to restore wholeness and provide a comprehensive understanding of reality the character of immediacy and directness the intrinsic esoteric distinction between two truths and the non dualistic leanings of esoteric schools in terms of the unity of reality and the subjective immanence of an all embracing Divine Selfhood Overall the book provides a comprehensive phenomenology of the esoteric in religions It will be of interest to researchers and students of theology and religious studies

The Oxford History of Modern German Theology, Volume 1: 1781-1848 Grant Kaplan, Kevin M. Vander Schel, 2023 *Oxford History of Modern German Theology Vol I 1781 1848* offers a multi author overview of the development of modern German theology from 1781 to 1848 Across 36 chapters Kaplan and Vander Schel underline important movements in German theology during this period and highlight unresolved questions which have shaped subsequent discussion

The Early Philosophy of Daya Krishna Ramesh Chandra Pradhan, 2021-05-11 This book deals with the philosophy of Daya Krishna an Indian philosopher of the twentieth century It discusses the central issues in Daya Krishna s early philosophy as a synthesis of the Indian and Western philosophical methods It presents problems of the past and the present in a holistic frame of creative philosophizing It provides a glimpse into the issues human beings face in all vital areas of human civilization It discusses the nature of philosophy and the philosophical method in Daya Krishna s syncretic philosophy Issues such as self and freedom and ethics and religion are explored in the chapters It is of interest to those who are engaged with Indian philosophy and Indian philosophers of the twentieth century and especially to those whose interest lies in understanding the cultural East and its philosophical responses to the cultural West

Spirituality Philip

Sheldrake,2012-11-29 It has been suggested that spirituality has become a word that can define an era Why Because paradoxically alongside a decline in traditional religious affiliations the growing interest in spirituality and the use of the word in a variety of contexts is a striking aspect of contemporary western cultures Indeed spirituality is sometimes contrasted attractively with religion although this is problematic and implies that religion is essentially dogma moralism institutions buildings and hierarchies The notion of spirituality expresses the fact that many people are driven by goals that concern more than material satisfaction Broadly it refers to the deepest values and sense of meaning by which people seek to live Sometimes these values are conventionally religious Sometimes they are associated with what is understood as the sacred in a broader sense that is of ultimate rather than merely instrumental importance This Very Short Introduction written by one of the most eminent scholars and writers on spirituality explores the historical foundations of the thought and considers how it came to have the significance it is developing today ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *The Forgotten Jesuit of Catholic Modernism*

Anthony M. Maher,2017-12-01 This book illustrates how George Tyrrell s theological challenge to those who would take the church out of history was never effectively refuted either at the time or since and that the issues Tyrrell raised are still relevant and alive in the church today In highlighting Tyrrell s liberation of theology from dogmatism the current work describes why he was vilified by the Roman hierarchy expelled from the Jesuits and eventually excommunicated Tyrrell s Ignatian inspired hope filled theology should not be forgotten not least because it sheds further light on another courageous and prophetic Jesuit Pope Francis In revisiting Tyrrell s Ignatian theology this book celebrates the promise that Vatican II presents to the future church namely a universal call to holiness as embraced by Pope Francis **The Darkening Spirit**

David Tacey,2013-06-26 The twenty first century could well be Jung s century just as the twentieth century was Freud s Jung predicted the demise of secular humanism and claimed we would search for alternatives to science atheism and reason We would experience a new and even unfashionable appetite for the sacred Educated people however would not return to unreconstructed religions because these do not express the life of the spirit as discerned by modern consciousness The sacred has developed a darker hue and worshipping symbols of light and goodness no longer satisfies the longings of the soul The new sacred cannot be contained by the formulas of the past but nor can we live without a sense of the sacred We stand in a difficult place between traditional religions we have outgrown and a pervasive materialism we can no longer embrace These changes in our culture have come sooner than Jung might have imagined In his time Jung struck many as eccentric or unscientific But his works speak to our time since we have experienced the full gamut of Jungian transformations the unsettling of Judeo Christian culture the rise of the feminine the onslaught of the dark side the critique of modernism and

positivism and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation A new life is needed beyond the ego but we do not yet know what it will look like The outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future What the future holds is uncertain but Jung s prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians futurists sociologists and the general reader

Engaging Philosophies of Religion Gereon Kopf,Purushottama Bilimoria,Nathan R. B. Loewen,2025-05-01 How can philosophy of religion become more diverse in content and method How can we take a multiplicity of stories into account and teach a truly inclusive philosophy of religion It is now openly acknowledged that if we do not change the underlying framework of the way we do philosophy of religion we will always create subalterns Here is an invitation to rethink Philosophy of Religion Engaging with texts and thinkers from multiple traditions this book offers 18 distinct approaches to doing Philosophy of Religion and presents an opportunity to change Philosophy of Religion at a fundamental level Drawing on religions and philosophies from across history and around the world each chapter outlines a framework for approaching religion from a different standpoint monotheism in Christianity Qi in Daoism embodiment in neuroscience naturalism in the atheism debates and non territorialism in 19th century debates on cartography Contributors identify the many philosophical systems that guide metaphysical and moral truths and adhere to the principle that traditions are not monolithic but diverse They recognise that categories such as indigenous religions are political rather than descriptive in nature Innovative and forward looking this collection constructs a new method and terminology that promotes active interaction It is essential reading for students and teachers looking for a new way of doing Philosophy of Religion *Understanding Watchman Nee* Dongsheng John Wu,2012-04-01 This book situates Nee s view within the rich heritage of the Protestant Catholic and Eastern Orthodox spiritual traditions and thus renders Nee s thought more intelligible to Christians of both evangelical and more liberal persuasions In this book Dongsheng John Wu examines Watchman Nee s thought on the spiritual life focusing on the relationship between spiritual formation and spiritual knowledge Different ways of acquiring spiritual understanding are explored including the respective roles of divine illumination intellectual studies and life circumstances Understanding Watchman Nee begins by synthesizing strategic aspects of Nee s teachings as well as formative events and sources in the development of Nee s own spirituality and theology It then utilizes the critical work of contemporary theologian Mark McIntosh to bring Nee s voice into dialogue with some important figures in the history of Christian spirituality Such interactions reveal that Nee s crucial theological convictions exhibit strong parallels with related themes found in the church s spiritual or mystical treasures **The Arc of Spirituality** Robert P. Vande Kappelle,2021-10-04 The Arc of Spirituality invites readers on a journey through Western history a journey that begins with the pioneering concepts of ancient Israelites who understood spirituality communally and covenantally Continuing biblically with wisdom and apocalyptic conceptions The

Arc of Spirituality examines Western Christian spirituality as it developed historically through twelve phases culminating in the modern period with ethical ecumenical pluralist and ecological expressions and most recently with postmodern secular alternatives Having described his own journey in previous volumes in this culminating book Vande Kappelle builds on earlier writings such as Response to the Other The Second Journey and The Church Alumni Association to tell the story of the Western world's unfolding love affair with God The narrative while continuously inspiring necessarily takes us through dark alleys and down deep rabbit holes in spirituality's never ending quest to know and experience the transcendence around us and within The goal of spirituality is always God and while God makes the journey interesting it is never easy for there are no clear steps to follow or learn While spirituality is more caught than taught at some point we discover it is more about unlearning than learning enriched more by subtraction than by addition The Arc of Spirituality is useful for individual or group study Each chapter concludes with questions for discussion or reflection **Religion in Reason** Tarek R.

Dika, Martin Shuster, 2022-11-30 This book presents critical engagements with the work of Hent de Vries widely regarded as one of the most important living philosophers of religion Contributions by a distinguished group of scholars discuss the role played by religion in philosophy the emergence and possibilities of the category of religion and the relation between religion and violence secularism and sovereignty Together they provide a synoptic view of how de Vries's work has prompted a reconceptualization of how religion should be studied especially in relation to theology politics and new media The volume will be of particular interest to scholars of religious studies theology and philosophy *Encyclopedia of Religion and Nature*

Bron Taylor, 2008-06-10 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com earn this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses Religion and World

Civilizations Andrew Holt, 2023-06-30 An indispensable resource for readers investigating how religion has influenced societies and cultures this three volume encyclopedia assesses and synthesizes the many ways in which religious faith has shaped societies from the ancient world to today Each volume of the set focuses on a different era of world history ranging through the ancient medieval and modern worlds Every volume is filled with essays that focus on religious themes from different geographical regions For example volume one includes essays considering religion in ancient Rome while volume three features essays focused on religion in modern Africa This accessible layout makes it easy for readers to learn more about the ways that religion and society have intersected over the centuries as well as specific religious trends events and milestones in a particular era and place in world history Taken as a whole this ambitious and wide ranging work gathers more than 500 essays from more than 150 scholars who share their expertise and knowledge about religious faiths tenets

people places and events that have influenced the development of civilization over the course of recorded human history

The End of Liberal Theology Peter Toon, 2010-10-01 Modern theology is a maze of conflicting beliefs In fact the shape of contemporary theology has changed so much in this century and especially since the 1960s that it s hard to make sense of it all Of not only what the various belief systems mean but how we came to be where we are within those systems In *The End of Liberal Theology* respected theological lecturer and author Peter Toon introduces evangelicals to modern forms of doctrine and theology both Protestant and Roman Catholic He does so by discussing the basics of orthodoxy by speaking to the various points of accommodation that have resulted in new forms of theology and by dissecting liberalism and its effect on evangelicalism This book is thus a family tree of modern theology showing how the various contemporary forms and those that preceded them are related to each other With its comprehensive analysis *The End of Liberal Theology* is destined to be a yardstick by which critical evaluations of current doctrines both old and new liberal and conservative will be made

Miracles: An Exercise in Comparative Philosophy of Religion Karen R. Zwier, David L. Weddle, Timothy D. Knepper, 2022-11-03 This volume provides a comparative philosophical investigation into a particular concept from a variety of angles in this case the concept of miracle The text covers deeply philosophical questions around the miracle with a multiplicity of answers Each chapter brings its own focus to this multifaceted effort The volume rejects the primarily western focus that typically dominates philosophy of religion and is filled with particular examples of miracle narratives community responses and polemical scenarios across widely varying religious contexts and historical periods Some of these examples defy religious categorization and some papers challenge the applicability of the concept miracle which is of western and monotheistic origin By examining miracles thru a wide comparative context this text presents a range of descriptive content and analysis with attention to the audience to the subjective experiences being communicated and to the flavor of the narratives that come to surround miracles This book appeals to students and researchers working in philosophy of religion and science as well those in comparative religion It represents in written form some of the perspectives and dialogue achieved in The Comparison Project s 2017 2019 lecture series on miracles The Comparison Project is an enterprise in comparing a variety of religious voices allowing them to stand in dialogue *The Wisdom of the Cross in a Pluralistic World - Volume 1* A.A. V.V, 2023-06-05 From 21 to 24 September 2021 the IV International Theological Congress of the Passionists took place in Rome at the Pontifical Lateran University on the theme *The Wisdom of the Cross in a Pluralistic World* It took place in the context of the Jubilee Celebrations for the Third Centenary of the Foundation of the Passionist Congregation and aims to deepen the topicality of the Cross in the context of the many contemporary areopagi During the four days more than 100 speakers scholars and specialists from many academic and cultural circles with an international reach from Roman universities as well as from many nations of the various continents took turns The rich scientific cultural and spiritual experience of the Congress is collected in three volumes over 1 100 pages the first of which has also been translated from

Italian into four languages English French Spanish and Portuguese

The Oxford Dictionary of the Christian Church
Frank Leslie Cross, Elizabeth A. Livingstone, 2005 Uniquely authoritative and wide ranging in its scope The Oxford Dictionary of the Christian Church is the indispensable one volume reference work on all aspects of the Christian Church It contains over 6 000 cross referenced A Z entries and offers unrivalled coverage of all aspects of this vast and often complex subject including theology churches and denominations patristic scholarship the bible the church calendar and its organization popes archbishops saints and mystics In this revision innumerable small changes have been made to take into account shifts in scholarly opinion recent developments such as the Church of England's new prayer book Common Worship RC canonizations ecumenical advances and mergers and where possible statistics A number of existing articles have been rewritten to reflect new evidence or understanding for example the Holy Sepulchre entry and there are a few new articles Perhaps most significantly a great number of the bibliographies have been updated Established since its first appearance in 1957 as an essential resource for ordinands clergy and members of religious orders ODCC is an invaluable tool for academics teachers and students of church history and theology as well as for the general reader

Religion Robert Cummings
Neville, 2015-01-08 Religion is the third and final volume in Robert Cummings Neville's systematic development of a new philosophical theology Unfolding through his earlier volumes *Ultimates and Existence* and now in *Religion* philosophical theology considers first order questions generally treated by religious traditions through philosophical methods while reflecting Neville's long engagement with philosophy theology and Eastern and Western religious traditions In this capstone to the trilogy Neville provides a theory of religion and presents a sacred worldview to guide religious participation His philosophical theory of value enlightens religions approaches to ethics spirituality and religious institutional living and collaboration With a detailed examination of plausibility conditions for sacred worldviews the book concludes with an exploration of religionless religion for which institutions of religion are of penultimate value Through the development of philosophical theology Neville has built a unique multidisciplinary comparative nonconfessional theological system one that addresses concerns and provides tools for scientific and humanistic scholars of religion postmodern thinkers intellectuals from both secular and religious backgrounds and those interested in the global state of religion today

Fraser's Magazine, 1873

What Is God? Thomas B. Sheridan, 2014-12-24 An eminent psychologist and engineer presents a provocative analysis of the concept of God through the lens of scientific inquiry This is a study of the concept of God not from the perspective of any religious tradition but as a pervasive social phenomenon that has prevailed through the ages An expert in engineering and applied psychology author Thomas B Sheridan offers unique perspective on the subject In *What Is God* he asks whether the concept of God can be modeled in denotative language much as modeling in science medicine and modern professions in contrast to connotative language e.g. myth metaphor art and music Sheridan adopts the assumption of model based reality as currently prevalent in physics and some branches of philosophy That criterion means an entity can be called

real for public discourse purposes only to the extent that a credible model can be made of what the entity is or how it works as opposed to the private reality of thoughts perceptions or dreams What follows is a truly provocative and enlightening through experiment with far reaching implications It is rare to see the ultimate question of God as prime mover examined as a problem open to rigorous scientific inquiry Thomas Sheridan has now done it with admirable clarity Edward O Wilson Pulitzer Prize winning author of The Meaning of Human Existence
