He held the post for 22 years from 1981 to 2003, making him Malaysia's longest-serving Prime Minister, and one of the longest-serving leaders in Asia.

Born on 20th December, 1925 in Alor Setar, Dr. Mahathir is the son of a teacher. He is the youngest of nine children of a school teacher and a housewife. His father, Mohamad Iskandar, was of Indian descent, being the son of a Muslim and a Malay mother, while Mahathir's own mother, Datin Wan Tempawan Wan Hanafi, was Malay. He is married to Tun Dr. Siti Hasmah binti Haji Mohamad Ali, they have seven children, four sons and three daughters. From an early age, Tun Mahathir had the importance of education **drummed** into him by his father, who was also a strict disciplinarian.

After his early education at the Maktab Sultan Abdul Hamid in Alor Setar, he enrolled at the King Edward VII College of Medicine in the University of Singapore. Armed with a MBBS degree in medicine, he set up his own clinic, the Maha Clinic in Alor Setar. As a doctor, Tun Mahathir came into close contact with people from variety of social **strata** and enjoyed a close **rapport** with them. He understood their problems. Thus, when he was thrust into the politic **limelight**, he strove to fulfil the needs of the people.

He was first **catapulted** into the world of politics when he became the Member of Parliament for Alor Setar in 1964. After holding a number of portfolios, including Minister of Education, Minister of Trade and Industry and Deputy Prime Minister, he finally became the Prime Minister on 16th July, 1981. The country **flourished** with Dr. Mahathir at the **helm** of the government. His contributions to the nation are so immense and **par** excellence. He has left his mark in every aspect – in politics, economy or education.

Realizing that government-owned enterprises are neither efficient nor profitable, he initiated the privation policy in 1983. This had immediate effect of cutting down bureaucratic **ineptitude** and operational cost while at the same time generating more revenue.

With collapse of the prices of agricultural commodities in the eighties, Tun Mahathir decided that it was time to shift the nation's focus to more profitable areas. Thus, he started the industrialization programme. Reputed as the country's top salesman, he showcased Malaysia to investors abroad in a bid to **woo** them. As a result of the heavy industrialization drive, major projects like national car project or PROTON and the steel company, PERWAJA, together with other mega project were launched one after another. Next, realizing that industrialization would require a good infrastructure, he set about improving it. The Mahathir era saw a successful completion

first four semesters of the study program and is usually given by different lecturers in different semesters. Experiences have shown that one of the constraints faced by both lecturers and students in the teaching learning process is the absence of the definitive teaching materials in the form of textbooks officially used in the program. As we all may know, the existence of designated textbooks is crucial to guarantee continuity of a program and proper gradation and selection of the teaching materials. This textbook of reading is compiled and composed to help both lecturers and students in the teaching learning process so as to avoid them picking up any materials which are available but which may not be properly selected and graded. It is hoped that the textbook will serve its purpose.

Language Planning in Primary Schools in Asia Richard Baldauf, Robert Kaplan, Knonko Kamwangamalu, Pauline Bryant, 2013-09-13. In foreign language education decisions must be taken on what languages to teach, who will teach them, in which schools, i.e. all, only urban, only rural, in which grades, the number of hours a week, and the cost involved. This book explores the answers to these questions across a number of Asian polities. It illustrates why some of the efforts undertaken are successful and why some are not, why despite significant investments of time and resources some students do not seem to acquire the languages being taught, and why some teachers responsible for instruction in the designated foreign languages have problems achieving fluency in the designated language or have other language teaching difficulties. It suggests some strategies various polities might attempt to achieve their stated language learning objectives. This book was originally published as a special issue of *Current Issues in Language Planning*.
