The Warren Buffett Stock Portfolio Mary Buffett, David Clark, 2011 Warren Buffett's Stock Portfolio is the first book to take readers deep into Warren Buffett's investment portfolio. Each of Buffett's current stock investments is analyzed in detail with information as to why Buffett found these attractive businesses and how he determined that they are good long term investments. Each company will be analyzed using the criteria outlined in *Buffettology* and *Warren Buffett and the Interpretation of Financial Statements*. The reader can then apply these techniques to a variety of other stocks and see if they meet Buffett's criteria. Although information about Warren Buffett's stock portfolio is available on line, it is merely listings of the stocks Warren owns. No one else explains the criteria Warren uses to determine how and when to buy and sell. In addition, this book will include stocks that are too new to be on line. The authors will also look at a few top performing stocks that Warren has sold in the last ten years.

Why loss aversion: the tendency of most investors to overweight the pain of losing money is one of the biggest obstacles that investors must overcome. Why behaving rationally in the face of the ups and downs of the market has been the key to Buffett's investing success. The stock market has developed a reputation among the people of the world as a mystical entity. It has become a realm with the top closed in on Wall Street, with a circle of seemingly impenetrable suits, even though the reality is that anyone can become an investor. Although the average Joe might be at an immediate disadvantage in terms of safety, funds, and insider knowledge on the best deals and short-term fluctuations of a stock, there are most definitely options such as mutual funds like index funds that are easy to use and relatively safe in comparison to filling a portfolio with a narrow range of risky securities. Warren Buffett is known today as a massively successful entrepreneur and investor. However, all successful people had to make their way from the beginning. Warren Buffett included. It is often both inspiring and a key to understanding to look at a successful person's journey to success, and so in this book, I cover Warren Buffett's success story, the *Warren Buffett Way*, his portfolio, and stocks quotes and tips. I hope that with this book, you will not only learn to be a smart investor but become successful in more ways than one while gaining insight into the business world as a whole.
