The New Demagogues Joshua M. Roose, 2020-11-29 Chapter 4 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9780429431197> Focused on the emergence of US President Donald Trump the United Kingdom's departure from the European Union and the recruitment of Islamic State foreign fighters from Western Muslim communities this book explores the ways in which the decay and corruption of key social institutions has created a vacuum of intellectual and moral guidance for working people and deprived them of hope and an upward social mobility long considered central to the social contract of Western liberal democracy Examining the exploitation of this vacuum of leadership and opportunity by new demagogues the author considers two important yet overlooked dimensions of this new populism the mobilization of both religion and masculinity By understanding religion as a dynamic social force that can be mobilized for purposes of social solidarity and by appreciating the sociological arguments that hyper masculinity is caused by social injury Roose considers how these key social factors have been particularly important in contributing to the emergence of the new demagogues and their followers Roose identifies the challenges that this poses for Western liberal

democracy and argues that states must look beyond identity politics and exclusively rights based claims and instead consider classical conceptions of citizenship

ISIS's Ideological Project (Examining ISIS's perception of religious texts through rhetorical discourse analysis) Dr. Sabah Harahsheh,2023-12-04 This book deconstructs ISIS s narrative in order to demonstrate how ISIS appropriates the past interprets the present and visualises the future for Arab Muslims This project depends on the rhetorical analysis by taking all speeches written and delivered by Abu Muhammad al Adnani ISIS s media spokesman from 2011 until 2016 as a case study ISIS s rhetoric shows that the group has been frozen in time and space it relies on opposite dualities in managing the affairs of life and puts the laws of God against the laws of man as a belief to establish the Caliphate To do that it borrows heavily but selectively from the Isl mic laws based on the teachings of the Qur n and Sunnah and imposes the past on the present to reach the utopia it promises to establish The analysis aims to highlight the congruences if any between the view of some people and the vision of ISIS in terms of the audience s interpretations of such extremist ideology regarding the other Shar a Caliphate and Jihad The analysis acknowledges the intricate and complex network that connects extremist ideas and ideologies with existing mainstream ideas such as the anti Shi ite sentiment The analysis demonstrates the need for developing a participatory

modified version of it be used to explain how the internet is exploited to spread fake news and the resulting threat to the United States I assert that a well crafted narrative whether true or false can be spread rapidly online due to the accessibility and interconnectedness of the internet ecosystem I then articulate how these narratives can be further accelerated and disseminated when propagandists take advantage of existing processes that improve the customization ease of access and availability of information online I do this by modifying the information laundering model and then using the new model to examine the interconnectedness of search engines blogs social networking platforms and media academic outlets and how these connections can be exploited to launder false or purposefully misleading information into public discourse Finally I demonstrate how this process allows adversarial nations criminals and malicious actors to increase public discord undermine democracy and threaten Americans physical and cognitive security Contains the following studies 1 Fake News Conspiracy Theories and Lies An Information Laundering Model for Homeland Security 2 THE COMMAND OF THE TREND SOCIAL MEDIA AS A WEAPON IN THE INFORMATION AGE 3 PUTIN S PROPAGANDA WAR IS HE WINNING 4 Cyber Terrorism and Cyber Crime There Is a Difference 5 CYBERDETERRANCE IN 2035 REDEFINING THE FRAMEWORK FOR SUCCESS 6 Countering Russian Active Measures Mortals, Deities and Divine Symbols: Rethinking Ancient Images from the Levant to Mesopotamia Benjamin Sass, Laura Battini, 2025-05-29 Dedicated to Tallay Ornan a scholar distinguished in ancient Western Asian iconographic studies It is divided into her major themes New Discoveries and Approaches The Human World The Divine World This discusses iconological and textual problems in a chronological span from the third to first millennia BCE Militarization and the Global Rise of Paramilitary Culture Brad West, Thomas Crosbie, 2021-10-12 This edited book demonstrates a new multidimensional comprehension of the relationship between war the military and civil society by exploring the global rise of paramilitary culture Moving beyond binary understandings that inform the militarization of culture thesis and examining various national and cultural contexts the collection outlines ways in which a process of paramilitarization is shaping the world through the promotion of new warrior archetypes It is argued that while the paramilitary hero is associated with military themes their character is in tension with the central principals of modern military organization something that often challenges the state s perceived monopoly on violence As such paramilitization has profound implications for institutional military identity the influence of paramilitary organizations and broadly how organised violence is popularly understood *Calladus* Stuart Hickton, 2011
