Jurkovic,Roy Farquharson,2011-03 Acute gynaecological problems are among the most common reasons for women of
reproductive age to seek medical help Emergency outpatient visits now outnumber elective clinical appointments in
gynaecology With a growing number of patients increasingly complex diagnostic algorithms and a wide range of management
options the participation and training of senior doctors in this field is vital to ensure women receive the best possible
treatment This book provides a thorough overview of acute gynaecology and early pregnancy and has been designed to
reflect the syllabus of the RCOG s Advanced Training Skills Module ATSM in Early pregnancy and emergency gynaecology It
covers the diagnosis and management of routine clinical problems such as miscarriage and tubal pregnancy as well as less
frequently seen presentations such as uncommon forms of ectopic pregnancy and trophoblastic disease The use of drugs in
early pregnancy and management organisational aspects of care are also addressed **Popular Photography** ,1994-11

a new book that reviews together for the first time some of the revolutionary changes in the methodologies and methods of
development inquiry that have occurred in the past forty years and reflects on their transformative potential for the future
This book breaks new ground by describing and analysing the evolution of a sequence of approaches Starting with the
dinosaurs of large scale multi subject questionnaire surveys and the biased visits and perceptions of rural development
tourism and urban based professionals there follows a look at the explosive proliferation of methodologies and methods of
recent years These include rapid rural appraisal RRA participatory rural appraisal PRA and dramatic developments in the
still largely unrecognized fields of participatory numbers and statistics and of participatory mapping and GIS Chambers
shows how these can empower local people and provide rigorous and valid substitutes for some more traditional methods of
inquiry Also presented is a repertoire for offsetting the biases of the urban trap which has become so serious for officials and

aid agency staff Importantly Chambers points out that we are now in a different space methodologically from a few years ago He makes the case that participatory methodologies evolved through creative and eclectic pluralism can be a transformative wave for the future as drivers of personal professional and institutional change This book is for all who are concerned with development regardless of profession discipline or organization who seek to be abreast of the revolutionary breakthroughs in approaches and methods of inquiry of recent years and what Chambers calls their unlimited potentials Published with IDS
