Measure barefoot for open toe shoes or if you plan to be barefoot in our shoes.

Measure with the sock type that you plan to wear with our closed toe shoes.

Instructions:

1. Print this page at 100% scale.
2. Match the measurements of our scale (in red) to the centimeters of your ruler or measuring tape.
3. Fold or cut at the Heel Line. You should still be able to see the Heel Line.
4. Place the paper with the Heel Line against a wall.
5. Tape the paper down to the floor so it doesn't move.
6. Measure your foot to the size line. **The blue numbers are the sizes.** If it is between the sizes select the half size.

-For open toe shoes, if you need a tighter, narrower fit consider the size your toes are directly on or even slightly over. Or if you need a wider fit, select the next half or full size from where your toes are.

-For closed toe shoes, make sure you **DO NOT** select the size your toes are covering or are right at the edge of. You must be able to see the size line clearly and consider going up in size as needed for width.
