Trypillia Mega-Sites and European Prehistory Johannes Müller, Knut Rassmann, Mykhailo Videiko, 2016-01-22 In European prehistory population agglomerations of more than 10 000 inhabitants per site are a seldom phenomenon A big surprise to the archaeological community was the discovery of Trypillia mega sites of more than 250 hectares and with remains of more than 2000 houses by a multidisciplinary approach of Soviet and Ukrainian archaeology including aerial photography geophysical prospection and excavations nearly 50 years ago The extraordinary development took place at the border of the North Pontic Forest Steppe and Steppe zone ca 4100-3400 BCE Since then many questions arose which are of main relevance Why how and under which environmental conditions did Trypillia mega sites develop How long did they last Were social and/or ecological reasons responsible for this social experiment Are Trypillia and the similar

sized settlement of Uruk two different concepts of social behaviour Paradigm change in fieldwork and excavation strategies enabled research teams during the last decade to analyse the mega sites in their spatial and social complexity High precision geophysics target excavations and a new design of systematic field strategies deliver empirical data representative for the large sites Archaeological research contributed immensely to aspects of anthropogenic induced steppe development and subsistence concepts that did not reach the carrying capacities Probabilistic models based on 14C dates made the contemporaneity of the mega site house structures most probable In consequence Trypillia mega sites are an independent European phenomenon that contrasts both concepts of urbanism and social stratification that is seen with similar demographic figures in Mesopotamia The new Trypillia research can be read as the methodological progress in European archaeology

Knowledge and Practice in Business and Organisations Kevin Orr, Sandra Nutley, Shona Russell, Rod Bain, Bonnie Hacking, Clare Moran, 2016-03-22 Knowledge and Practice in Business and Organisations contributes to scholarly understanding of knowledge and practice mapping the conceptual terrain providing a critical review of debates in the field and setting out key theoretical perspectives Knowledge and practice are explored in a range of organisational and policy settings through six context specific discussions The collection helps shape the field identify areas for future research inquiry and suggest implications for practitioners The range of sites of inquiry represented in the book e g craft working accounting public sector organisations creative industries health care and so on make the book distinctive enabling the reader to connect debates and ideas from across a range of sectors

and disciplines The book charts different currents of debate which have hitherto tended to remain unconnected In one accessible volume this book provides an excellent introduction to a set of concepts that have animated scholarly conversations across a range of disciplines and provides cases and examples of practices which come from beyond any one particular sector Aimed at researchers and academics in the field this book is valuable source helping define and progress the scholarly debate

The Oxford Handbook of Administrative Justice Marc Hertogh, Richard Kirkham, Robert Thomas, Joe Tomlinson, 2022 The core animating feature of administrative justice scholarship is the desire to understand how justice is achieved through the delivery of public services and the actions inactions and decision making of administrative bodies The study of administrative justice also encompasses the redress systems by which people can challenge administrative bodies to seek the correction of injustices For a long time now scholars have been interested in administrative justice but without necessarily framing their work as such Rather than existing under the rubric of administrative justice much of the research undertaken has existed within sub categories of disciplines such as law sociology public policy politics and public administration Consequently although aspects of the topic have attracted rich contributions across such disciplines administrative justice has rarely been studied or taught in a manner that integrates these areas of research more systematically This Handbook signals a major change of approach Drawing together a group of world leading scholars of administrative justice from a range of disciplines The Oxford Handbook of Administrative Justice shows how administrative justice is a vibrant complex and contested field that is best understood as an area of inquiry in its own right rather than through traditional disciplinary silos

Birmingham Beer Carla Jean Whitley, 2015-07-27 Less than fifteen years after the birth of Birmingham its brewing history began and soon saloons dotted nearly every corner Prohibition however decimated the brewing scene for eighty five years Although national Prohibition began in 1920 Jefferson County voted to go dry in 1907 Alabama beer saw a brief resurgence after the Brewpub Act of 1992 as craft beer s popularity grew nationwide But the brewpubs and breweries that emerged struggled against the state s restrictive laws which included such stipulations as locating brewpubs in historic districts and limiting beer bottle sizes to sixteen ounces By the time grass roots lobbying organization Free the Hops formed in 2004 to fight those restrictive laws every Birmingham brewery had closed Join author Carla Jean Whitley as she uncovers the struggle to make local beer a Birmingham staple

Indigenous knowledge systems and climate change management in Africa Ajayi, O.C. (ed), Mafongoya, P.L. (ed), 2017-11-15 Climate change presents a profound challenge to food security and sustainable development in Africa Its negative impacts are likely to be greatest in the African region which is already food insecure In the face of global climate change and its emerging challenges and unknowns it is essential that decision makers base policies on the best available knowledge In recent years the knowledge of local and indigenous people often referred to as indigenous knowledge IK has been increasingly recognised as an important source of climate knowledge and adaptation strategies
