Shona Paper 1:

The Art of Mbira Paul F. Berliner, 2020-01-31 Growing out of the collaborative research of an American ethnomusicologist and Zimbabwean musician Paul F. Berliner's *The Art of Mbira* documents the repertory for a keyboard instrument known generally as mbira. At the heart of this work lies the analysis of the improvisatory processes that propel mbira music's magnificent creativity. In this book, Berliner provides insight into the communities of study performance and worship that surround mbira. He chronicles how master player Cosmas Magaya and his associates have developed their repertory and practices over more than four decades, shaped by musical interaction, social and political dynamics in Zimbabwe, and the global economy of the music industry. At once a detailed exposition of the music's forms and practices, it is also an indispensable historical and cultural guide to mbira in a changing world. Together with Berliner and Magaya's compendium of mbira compositions, *Mbira's Restless Dance*, *The Art of Mbira* breaks new ground in the depth and specificity of its exploration of an African musical tradition and in the entwining of the authors' collaborative voices. It is a testament to the powerful relationship between music and social life and the rewards of lifelong musical study, performance, and friendship.

The Calendar University of South Africa, 1993 **The Professionalisation of African Medicine** Murray Last, G. L. Chavunduka, 2018-09-03 Originally published in 1986, this book draws upon a range of authors to reflect wide interest in systematising traditional medicine and to include material on significant instances of regulation or organisation. It was the first book to study the efforts of traditional healers and their newly formed professional associations and, as such, constitutes a pioneering collection of sources. Because of the changing position of traditional medicine, it may well also be a unique record before long of what is described here, which will largely have disappeared. *Rhodes and Rhodesia* Arthur Keppel-Jones, 1983-11-01 The British South Africa Company and the irregularity of its financial and political operations are dealt with in detail. Keppel-Jones also discusses the development in the midst of the indigenous population of an alien white society and state from their crude beginnings to their emergence in a form still recognizable today. The reader is led to conclude that by 1902 Southern Rhodesia was already set on the road that would lead to the upheavals of the second half of the twentieth century. The author examines the racial consciousness and prejudice of the white society and addresses an important question: why did the imperial government grant a royal charter to the BSA Company? The facts show conclusively that the imperial government had little interest in Central Africa or care for its fate except when foreign competition appeared. Keppel-Jones also reveals the important role played by black troops employed by the Company in suppressing the rebellions of 1896-7. For opposite reasons, neither blacks nor whites have been willing to recognize this; on the other hand, the habit of the men on the spot of making and carrying out decisions without regard to their superiors in London is a commonplace of imperial history. One of the main themes of the book is the tension between the unofficial imperialists straining at the leash and the Colonial Office struggling to hold them back. *Rhodes and Rhodesia* is based on extensive use of public records, mainly in the Public Record

The Place of Tears Ranka Primorac, 2006-06-30 THIS IS AN NJR NOT JACKET BLURB DO NOT USE IT THIS RAW FORM This new and original work is the only recent monographic treatment of the Zimbabwean novel and its political implications

An earlier one by Veit Wild 1992 has not been updated and other such as that by Zhuwarara 2001 are not easily available outside Zimbabwe. The author resided in Zimbabwe for almost a decade and has visited the country regularly in the last five years. She has published extensively on Zimbabwean literature and brings to her work a deep contextual richness as well as theoretical sophistication. Thoroughly up to date, the book examines all the published novels of the recently deceased Yvonne Vera as of April 2005 as well as major novels of five other internationally acclaimed Zimbabwean writers including Tsitsi Dangarembga and Chenjerai Hove. It does so against a political backdrop which goes right up to the March 2005 parliamentary elections. The book provides a modern and original historical account of post-independence Zimbabwean writing and its relationship to history and politics. The critical investigation focuses on fictional representations of space-time which links the book to the tragically topical Zimbabwean issue of land. Dr Primorac employs a form of literary and cultural theory reminiscent of Bakhtinian analysis but drawn at length from East European theoretical sources. She investigates what the novels have to say about the Zimbabwean condition and makes a sophisticated link between ideas about space-time and novelistic ideologies. More than that, drawing a parallel with the experience of Eastern Europe, she shows how the novel itself breaks out of the confines of the quasi-Marxist analysis which still holds sway in Zimbabwe. As such, the Zimbabwean novel is itself a source of hope in that troubled land. Ranka Primorac has degrees from the universities of Zagreb, Zimbabwe, and Nottingham Trent. She has taught Africa-related courses at several institutions of higher learning in Britain, including the University of Cambridge and New York University in London. She is interested in non-western writing and cultures, theoretical approaches to the novel, and the narrative production of space-time. Her co-edited volume *Versions of Zimbabwe: New Approaches to Literature and Culture* was published in 2005 by Weaver Press in Harare.

Names Fashioned by Gender Thenjiwe Meyiwa, Madoda Cekiso, 2023-12-01

Names are very powerful and significant, especially in the African context. Across societies, there is a universal albeit taken-for-granted fact that all human beings have names. *Names Fashioned by Gender* is a collection of essays on onomastics, a linguistics field of study focusing on the origin, form, history, and use of proper names. The study of naming potentially provides significant evidence about the role of gender in the assimilation and/or enculturation processes, as personal names evoke insight into the construction of gender and personhood in African societies. The book takes intellectual course from the idea that how names are viewed and used is heavily context-dependent and gendered. It demonstrates that personal names are narratives derived from different contexts within various cultures and circumstances, subsequently imposing different identities on name bearers. Through persuasive essays, this book elucidates that naming is an activity that needs to be conducted cautiously because names tend to determine the destiny and character of an individual.
