It proposes that these processes are interconnected with film, television, print and social media. The book emphasises the notion of gastronomy as a dynamic concept in particular how it has recently become more widely used and understood throughout the world. The volume introduces core concepts and delves more deeply into current trends in gastronomy, the forces which shape them and their implications for tourism. The book is multidisciplinary and will appeal to researchers in the fields of gastronomy, hospitality, tourism and media studies.
