Shikasta Doris Lessing, 2010-11-17 The first volume in the Canopus in Argos Archives series is presented as a compilation of documents reports letters speeches and journal entries and purports to be a general study of the planet Shikasta clearly the planet Earth to be used by history students of the higher planet Canopus and to be stored in the Canopian archives For eons galactic empires have struggled against one another and Shikasta is one of the main battlegrounds Johar an emissary from Canopus and the primary contributor to the archives visits Shikasta over the millennia from the time of the giants and the biblical great flood up to the present With every visit he tries to distract Shikastans from the evil influences of the planet Shammat but notes with dismay the ever growing chaos and destruction of Shikasta as its people hurl themselves towards World War III and annihilation Shikasta Doris Lessing, 1979 A variety of narratives including the report of Johor George Sherban the Emissary sent by the Powers controlling our part of the universe reveal what the planet Shikasta and its inhabitants have in desperation endured **Shikasta** Doris May Lessing, 1979 A variety of narratives including the report of Johor George Sherban the Emissary sent by the Powers controlling our part of the universe reveal what the planet Shikasta and its inhabitants have in desperation endured **Re** Doris Lessing, *Re: Colonised Planet five, Shikasta* Doris Lessing, 1979 **Shikasta; Re: Colonised Planet 5; Canopus in Argos: Archives; Personal, Psychological, Historical Documents Relating to Visit by Johor (George Sherban), Emissary (Grade 9), 87TH of the Period of the Last Days** Doris Lessing, 1979 **Doris Lessing** Harold Bloom, 2003 Essays of critical interpretation portray views of Doris Lessing's work including *The Golden Notebook* *Marriages and The Grass is Singing* *Genetics and the Literary Imagination* Clare Hanson, 2020 Studying works by Doris Lessing Ian McEwan A S Byatt Kazuo Ishiguro and Jackie Kay this book explores the impact on literature of the gene centric model of human nature that entered mainstream culture in the wake of the discovery of the structure of DNA **The Poetics of Science Fiction** Peter Stockwell, 2014-06-11 The Poetics of Science Fiction uniquely uses the science of linguistics to explore the literary universe of science fiction Developing arguments about specific texts and movements throughout the twentieth century the book is a readable discussion of this most popular of genres It also uses the extreme conditions offered by science fiction to develop new insights into the language of the literary context The discussion ranges from a detailed investigation of new words and metaphors to the exploration of new worlds from pulp science fiction to the genre's literary masterpieces its special effects and poetic expression Speculations and extrapolations throughout the book engage the reader in thought experiments and discussion points with selected further reading making it a useful source book for classroom and seminar Between East and West Muge Galin, 1997-07-31 Considers how Lessing's exposure to a particular aspect of tasawwuf the classical Sufi Way has shaped her work Impresses upon the reader the degree to which Lessing is seriously offering her space fiction utopias as plausible and even necessary alternatives to our present Western ways of life Virtue Revisited in the Novels of Doris Lessing Seda ARIKAN, 2024-09-06 The ethical

approaches to literature have come into prominence in the twentieth century calling for a turn to ethics in the studies of humanities in general and literary studies in particular By leading the ethical turn in literature many theorists proposed a moral oriented approach to literature which is still a significant part of literary criticism The ethical turn in literature has changed the spirit of literary criticism in the direction of virtue and value based approaches In this respect this study scrutinises Doris Lessing s novels in light of virtue ethics in general and virtue politics care ethics and Sufi virtue ethics in particular Lessing s connection to virtue ethics which is implicitly or explicitly reflected in her novels is examined by giving the panorama of ethical movements whose common point is virtues This study asserts that Lessing implements an ethical concern in her novels which is based on her own understanding of virtue ethics

The Past That Might Have Been, the Future That May Come Lauren J. Lacey, 2013-12-19 This book explores how contemporary fantastic fiction by women writers responds to the past and imagines the future The first two chapters look at revisionist rewritings of fairy tales and historical texts the third and fourth focus on future oriented narratives including dystopias and space fiction Writers considered include Margaret Atwood Octavia E Butler Angela Carter Ursula K Le Guin Doris Lessing and Jeanette Winterson among others The author argues that an analysis of how past and future are understood in women s fantastic fictions brings to light an ethics of becoming in the texts a way of interrupting revising and remaking problematic power structures that are tied to identity markers like class gender and race The book reveals how fantastic fiction can be read as narratives of disruption that enable the creation of an ethics of becoming

Home Matters R. Rubenstein, 2001-02-23 Despite its typically regressive associations with homesickness the longing associated with nostalgia may also function progressively as a vehicle for imaginatively fixing the past in two senses securing and mending or repairing Considering fiction by two British and six American women writers of different generations and ethnicities this study explores tensions between home and exile insider and outsider longing and belonging loss and recovery Rubenstein argues that nostalgia functions narratively as a strategy for interrogating not only notions of home homesickness and homeland but also cultural historical dislocation aging and moral responsibility These narratives re frame a significant locus of concern in contemporary female experience personal and or cultural displacement and longing for home are ultimately transmuted imaginatively at least by a restorative vision that enables healing and emotional repair History at the End of the World Mark Levene, Rob Johnson, Penny Roberts, 2010 The authors of this collection of essays propose that climate change means serious peril The approaches begin from archaeology literature religion psychology sociology philosophy of science engineering and sustainable development as well as straight history Our argument however is not about the science per se It is about us our deep and more recent history and how we arrived at this calamitous impasse With contributions from academic activists and independent researchers History at the End of the World challenges advocates of business as usual to think again But in its wide ranging assessment of how we transcend the current crisis it also proposes that the human past could be our most powerful resource in the struggle for survival **Doris Lessing and Sufi**

Equilibrium S. Fahim, 1994-07-12 The purpose of this study is to examine the rationale of Doris Lessing's development from Classical Realism to mysticism and forms of science fiction and to consider the unifying motifs that appear throughout her novels in her consistent search for Sufi Equilibrium The four novels selected in this study represent significant stages in Lessing's work Chapter one focuses on The Grass is Singing which represents the author's early traditionally realistic writing to show how far the preoccupations of Lessing's later novels find expression in this early work Chapter two studies The Golden Notebook which marks a turning point in formal structure in Lessing's canon and is selected as evidence of her interest in Sufism at that early stage Chapter three concentrates on the study of The Memoirs of a Survivor which has elicited a comparatively limited amount of criticism but which proves to be a major achievement when brought into line with Sufi methods of writing Chapter four considers Lessing's science fiction series Canopus in Argos tracing sources from Oriental literature a key which unlocks many areas of obscurity
