

NOTE

- In diesel-powered vehicles, poor-quality diesel fuel can cause deposits form in the injection, resulting in black smoke and rough idling.

If these problems occur, you are advised to add a cleaning additive to the diesel fuel when you refuel the vehicle.

The additive will break up and remove the deposits, thereby returning the engine to a normal condition.

Be sure to use a MITSUBISHI MOTORS GENUINE DIESEL FUEL SYSTEM CLEANER. Using an automatic additive could make the engine malfunction. For details, please consult your MITSUBISHI DEPOSITS Authorized Service Point.

E10 type petrol

The petrol engines are compatible with E10 type petrol (containing 10 % ethanol) conforming to European standards EN 228.

CAUTION

- Do not use more than 10 % concentration of ethanol (given alcohol by volume). Use of more than 10 % concentration may lead to damage to your vehicle fuel system, engine, engine mounts and exhaust system.

Filling the fuel tank**WARNING**

- When handling fuel, comply with the safety regulations displayed for garages and filling stations.
- Before removing the fuel tank filler tube cap, be sure to get rid of your body's static electricity by touching a metal part of the car or fuel pump. Any static electricity on your body could create a spark that ignites fuel vapour.
- Fasten the whole refueling process. Opening the fuel tank filler door, removing the fuel tank filler tube cap, etc. by yourself. Do not let any other person come near the fuel tank filler. If you allowed a person to help you and that person was carrying static electricity, fuel vapour could be ignited.
- Do not move away from the fuel tank filler door until refueling is finished. If you moved away and did something else (for example, changing your windscreen part) through the refueling process, you could pick up a fresh charge of static electricity.
- If the fuel tank filler tube cap must be replaced, use only a MITSUBISHI MOTORS genuine part.

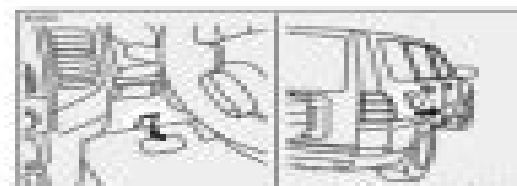

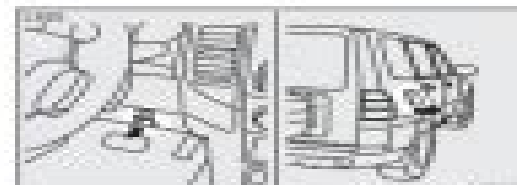

Fuel tank capacity

1-door models: 60 litres

1-door models: 58 litres

Refueling

- Before filling with fuel, stop the engine.
- The fuel tank filler is located on the rear right side of your vehicle. Open the fuel tank filler door with the release lever located below the instrument panel.
