The World and the Word Dr. Herbert L. perspective of the paradigm of liberal inclusiveness as formulated by Alexis de Tocqueville and Louis Hartz. Hartz argues that the liberal paradigm worked for American Jews but that France's illiberal impulses hindered its Jewish population in acquiring full civic rights. He also explores the relevance of the Tocqueville-Hartz theory for other marginalized groups, particularly blacks and women in France and America. However, the experience of these groups suggests that the theory has its limits. A central issue of this penetrating study is whether a state with democratic liberal pretensions (America) can better protect the rights of marginalized enclaves than can a state with authoritarian tendencies (France). The Tocqueville-Hartz thesis has become a major issue in political science, and this book marks the first time it has been tested in a historical study. *The Jews and the Nation* returns a unifying theory to a discipline fragmented by microtopical scholarship. Ebony, 2006-09. EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American focused magazine. **Whitaker's Books in Print**, 1998. *The Routledge Companion to Labor and Media*, Richard Maxwell, 2015-07-16. Labor resides at the center of all media and communication production from the workers who create the information technologies that form the dynamic core of the global capitalist system and the designers who create media content to the salvage workers who dismantle the industry's high-tech trash. *The Routledge Companion to Labor and Media* is the first book to bring together representative research from the diverse body of scholarly work surrounding this often fragmentary field and seeks to provide a comprehensive resource for the study and teaching of media and labor. Essays examine work on the mostly unglamorous side of media and cultural production: technology, manufacture, and every occupation in between. Specifically, this book features wide-ranging international case studies spanning the major global hubs of media labor, interdisciplinary approaches for thinking about and analyzing class and labor in information communication technology (ICT), consumer electronics (CE), and media cultural production, an overview of global political economic conditions affecting media workers, reports on chemical environments and their effect on the health of media workers and consumers, activist scholarship on media and labor, and inspiring stories of resistance and solidarity. **Ebony**, 2005-09. EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American focused magazine. **Black Enterprise**, 2000-06.
