How Can Paramedics be Involved Efficiently in Medical Care at Emergency Hospital Units? Janos Talaber, 2019-02-12 Scientific Study from the year 2018 in the subject Medicine Hospital Environment Clinical Medicine grade 10 University of Hertfordshire Paramedic Science language English abstract This study is concerned with the legal possibilities of how paramedics could be employed and get involved into medical care at emergency hospital units with a specific focus on the situation in Hungary It is obvious that there is of lack medical doctors nurses and other high trained staff not only in hospital wards but also in emergency care in Hungary To overlap this lack and hiatus it was several times noted in Hungary that as for competency reasons the closest medical staff to be involved in emergency medical treatments is the paramedics The accurate scopes of Paramedics competency and other conditions vary differently in the World therefore there is not a consequent and primarily accepted competency However serving the streets and responding to dispatches is pretty much similar in all over the World therefore the main streams are almost totally related Throughout this study there will therefore be focus on the scopes and competencies as well as the education strategies of paramedic trainings in Canada the USA and within the European Union
