Minority Student Retention Alan Seidman, 2019-05-23 Student retention continues to be a vexing problem for all colleges and universities In spite of the money spent on creating programs and services to help retain students until they achieve their academic and personal goals and graduate the figures have not improved over time This is particularly true for minority students who have a greater attrition rate than majority students Demographic information shows that the minority population in the United States is growing at a faster rate than the majority It is imperative that educational institutions find ways to help improve retention rates for all students but particularly minority students Retention rates should not differ appreciably among different racial ethnic groups The Journal of College Student Retention Research Theory and Practice is the only scholarly peer reviewed journal devoted solely to college student retention It has published many articles on minority student retention and this topic continues to garner much attention This book is a compilation of the very best of these articles selected on the basis of reviews by a cadre of experts in the education field The articles discuss African American Latino Latina Asian and Asian Pacific Native American and biracial students and institutional commitments to retaining a diverse student population For those interested in this vital area the collection will teach and inspire them to achieve greater heights and pay additional attention to retaining minority students in our colleges and universities
