Stunt Pilot Analysis:

Performing Prose Chris Holcomb, M. Jimmie Killingsworth, 2010-05-06 In *Performing Prose* authors Chris Holcomb and M. Jimmie Killingsworth breathe new life into traditional concepts of style. Drawing on numerous examples from a wide range of authors and genres, Holcomb and Killingsworth demonstrate the use of style as a vehicle for performance, a way for writers to project themselves onto the page while managing their engagement with the reader. By addressing style and rhetoric not as an editorial afterthought but as a means of social interaction, they equip students with the vocabulary and tools to analyze the styles of others in fresh ways as well as create their own. Whereas most writing texts focus exclusively on analysis or techniques to improve writing, Holcomb and Killingsworth blend these two schools of thought to provide a singular process of thinking about writing. They discuss not only the benefits of conventional methods but also the use of deviation from tradition, the strategies authors use to vary their style, and the use of such vehicles as images, tropes, and schemes. The goal of the authors is to provide writers with stylistic footing, an understanding of the ways writers use style to orchestrate their relationships with readers, subject matter, and rhetorical situations. Packed with useful tips and insights, this comprehensive volume investigates every aspect of style and its use, to present an indispensable resource for both students and scholars. *Performing Prose* moves beyond customary studies to provide a refreshing and informative approach to the concepts and strategies of writing.

The Greatest Air Aces Stories Ever Told Robert Barr Smith, Laurence J. Yadon, 2017-04-03 In thirty-five chapters, *The Greatest Air Aces Stories Ever Told* covers many of the leading American and British Commonwealth fighter aces of WW I and II together with a few bomber crews whose gallantry made a substantial contribution to the end of WW II. Other nations had their aces, but this book concentrates on American and Commonwealth pilots. These aviators were chosen not only because of their scores and their great courage but also for other qualities which set them apart, like the WWII Royal Air Force Wing Commander who shot down more than 20 Germans while flying with two artificial legs. Here are a few of the aces: Note that the air forces of Europe and the United States did not always have today's names used here for simplicity's sake. Albert Ball, RAF, son of the Lord Mayor of Nottingham, winner of the Victoria Cross. He had 44 victories in WWI when he was killed at the age of 20, well known to his German foes who much admired him. Gabby Gabreski, USAF, Son of hard-working Polish immigrants. An ace in WWII with 28 kills and later in Korea with another six. He was an accomplished commander, finished a long career as a colonel. Mick Mannock, RAF, Tough and aggressive in spite of his fear of fire, he won not only the Victoria Cross but five other high awards for gallantry. Highest British scorer of WWI with 73 victories, he detested Germans and rejoiced with every kill. He was shot down by ground fire in the last year of the war. David McCampbell, USN, Scored 34 WWII kills to become the U.S. Navy's all-time ace. In 1944, set an all-time record with nine victories on a single mission. Winner of the Congressional Medal of Honor. Pickard, RAF, Led the RAF rooftop bomber raid on Amiens Prison in WWII, freeing many underground members, some of whom were facing death and who were promptly spirited away by French.

partisans Frank Luke USAF Deadly American famous for his busting of German observation balloons in WWI Shot up over German territory he managed to land safely but being Luke tried to fight it out with enemy infantrymen with only his pistol The book will also touch on the equipment these aces flew from the famous Fokkers and Sopwith Camels to the ungainly two seater FE2b which was driven by a pusher engine and looked like a bathtub with wings and a miniature oil derrick glued on the back Also included are our own Grumman carrier fighters the P 40s the P 38s as well as the P 51 Mustang probably the finest fighter of the war a happy marriage of an American airframe and a British engine The deadly graceful Spitfire has its place as do the Hurricane the biplane Gladiator and even the four engine Lancaster
