Fade In Kyle Mills,2025-07-29 1 New York Times bestselling author Kyle Mills delivers a knockout punch with Fade In a blistering new thriller that will give fans of his Mitch Rapp novels a new favorite hero When ex navy SEAL Salam al Fayed Fade to his friends steps in front of a sniper s bullet he assumes all his problems are solved Having already been declared clinically dead twice in his career he s hoping the third time will be the charm Instead he wakes in a hospital having gone from being one of the deadliest operatives in US history to a man incapable of even standing without assistance Alone and wanted by authorities he s destined to spend the rest of his life lying in a prison infirmary So when a shadowy organization offers him a new identity and next generation medical care he has no choice but to agree Nothing s free though After a grueling rehabilitation he s drafted into an elite paramilitary unit But who s in charge When a dire threat explodes out of China his question is quickly answered A select group of the world s wealthiest and most powerful people has decided that governments are no longer capable of controlling the chaos erupting around the globe It s a power vacuum that poses a mortal danger to all humanity and one they intend to fill With panic rising the leaders of both democracies and dictatorships prove equally willing to destroy anything and anyone to save themselves Forced into action before he s fully ready Fade finds himself at the sharp end of a mission to stop a menace unlike any faced before If he fails the consequences will be unimaginable But what if he succeeds No one elected the people he s working for And God sure as hell didn t ordain them Has he signed on to save the human race or to help quietly enslave it Fade In tackles the complex threats posed by the modern era and introduces a character destined to take his place among legends like Jason Bourne Jack Reacher and Gabriel Allon *Automotive News* ,2007 **The Neuroscience of You** Chantel Prat,2022-08-02 From University of Washington professor Chantel Prat comes The Neuroscience of You a rollicking adventure into the human brain that reveals the surprising truth about neuroscience shifting our focus from what s average to an understanding of how every brain is different exactly why our quirks are important and what this means for each of us With style and wit Chantel Prat takes us on

a tour of the meaningful ways that our brains are dissimilar from one another Using real world examples along with take them yourself tests and quizzes she shows you how to identify the strengths and weakness of your own brain while learning what might be going on in the brains of those who are unlike you With sections like Focus Navigate and Connect The Neuroscience of You helps us see how brains that are engineered differently ultimately take diverse paths when it comes time to prioritize information use what they ve learned from experience relate to other people and so much more While other scientists focus on how the brain works on average Prat argues that our obsession with commonalities has slowed our progress toward understanding the very things that make each of us unique and interesting Her field leading research employing cutting edge technology reveals the truth Complicated as it may be no two brains are alike And individual differences in brain functioning are as pervasive as they are fundamental to defining what normal looks like Adages such as I m not wired that way intuitively point to the fact that the brains we re piloting educating and parenting are wonderfully distinct explaining a whole host of phenomena from how easily a person might learn a second language in adulthood to whether someone feels curious or threatened when faced with new information This book invites the reader to understand themselves and others by zooming in so close that we all look gray and squishy
