Garrigus, 2006-06-24 Please note this is a Palgrave to Order title PTO Stock of this book requires shipment from an overseas supplier It will be delivered to you within 12 weeks This book details how France's most profitable plantation colony became Haiti Latin America's first independent nation through an uprising by slaves and the largest and wealthiest free population of people of African descent in the New World Garrigus explains the origins of this free colored class exposes the ways its members supported and challenged slavery and examines how they shaped a new American identity The Meaning Of Freedom Frank McGlynn, Seymour Drescher, 1992-05-15 In this interdisciplinary study scholars consider the aftermath of slavery focusing on Caribbean societies and the southern United States What was the nature and impact of slave emancipation Did the change in legal status conceal underlying continuities in American plantation societies Was there a common postemancipation pattern of economic development How did emancipation affect the politics and culture of race and class This comparative study addresses precisely these types of questions as it makes a significant contribution to a new a growing field *De la litterature des Nègres* Henri Grégoire, 1808

THE FRENCH COLONIAL QUESTION 1789-1791 MITCHELL BENNETT GARRETT PH.D., 1916 **The Death of the French Atlantic** Alan Forrest, 2020 War revolution and anti slavery were the three major forces which led to the dramatic decline of France's Atlantic empire with the loss of her richest Caribbean colony Saint Domingue Alan Forrest draws a rich portrait of France's Atlantic communities in this tumultuous period and the uneasy legacy of the French slave trade

European and Non-European Societies, 1450-1800 Robert Forster, 2019-07-15 First published in 1997 this volume looks at the process of European expansion which brought into contact societies and cultures across the world which had been initially alien to one another Conflict was one aspect of this interaction but accommodation mutual adaptation and institutional and behavioural synthesis were also present though often biased in favour of European norms The intent of this book is to avoid treating colonization dominance and exploitation as the only focuses of attention The second volume focuses on the Americas and uses the topics of religion class gender and race as its points of entry The French Colonial Question, 1789-1791 Mitchell Bennett Garrett, 1916 **General History of the Caribbean** Higman, B.W., UNESCO, 1905-06-21 This volume looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings The chapters discussing methodology are followed by studies of particular themes of historiography The second half of the volume describes the writing of history in the individual territories taking into account changes in society economy and political structure The final section is a full and detailed bibliography serving not only as a guide to the volume but also as an invaluable reference for the General History of the Caribbean as a whole **Awakening the Ashes** Marlene L. Daut, 2023-10-17 The Haitian Revolution was a powerful blow against

colonialism and slavery and as its thinkers and fighters blazed the path to universal freedom they forced anticolonial antislavery and antiracist ideals into modern political grammar The first state in the Americas to permanently abolish slavery outlaw color prejudice and forbid colonialism Haitians established their nation in a hostile Atlantic World Slavery was ubiquitous throughout the rest of the Americas and foreign nations and empires repeatedly attacked Haitian sovereignty Yet Haitian writers and politicians successfully defended their independence while planting the ideological roots of egalitarian statehood In *Awakening the Ashes* Marlene L Daut situates famous and lesser known eighteenth and nineteenth century Haitian revolutionaries pamphleteers and political thinkers within the global history of ideas showing how their systems of knowledge and interpretation took center stage in the Age of Revolutions While modern understandings of freedom and equality are often linked to the French Declaration of the Rights of Man or the US Declaration of Independence Daut argues that the more immediate reference should be to what she calls the 1804 Principle that no human being should ever again be colonized or enslaved an idea promulgated by the Haitians who against all odds upended French empire

Discourses of Tolerance & Intolerance in the European Enlightenment Hans Erich Bödeker, Clorinda Donato, Peter Reill, 2008-12-22 The principle of tolerance is one of the most enduring legacies of the Enlightenment However scholarly works on the topic to date have been primarily limited to traditional studies based on a historical progressive view or to the critiques of contemporary writers such as Adorno Horkheimer Foucault and MacIntyre who believed that the core beliefs of the Enlightenment including tolerance could actually be used as vehicles of repression and control rather than as agents promoting individual and group freedom This collection of original essays by a distinguished international group of contributors looks at the subject in a new light and from a number of angles focusing on the concept of tolerance at the point where the individual or group converges or clashes with the state The volume opens with introductory essays that provide essential background to the major shift in thinking in regard to tolerance that occurred during the eighteenth century while considering the general problem of writing a history of tolerance The remaining essays organized around two central themes trace the expansion of the discourses of tolerance and intolerance The first group treats tolerance and intolerance in relation to the spheres of religious and political thought and practice The second examines the extension of broad issues of tolerance and intolerance in the realms of race gender deviancy and criminality While offering an in depth consideration of these complex issues in the context of the Enlightenment the volume sheds light on many similar challenges facing contemporary society
