

Getting started

Add and register a handset

Each newly purchased handset (**CS6209**) must be registered to the telephone base (**CS6219**, **CS6228** or **CS6229**) before use. When first purchased, each expansion handset shows **NOT REGISTERED**.

To make registration easier, read all of the instructions on this page before you begin. If the handset screen does not show **LOW BATTERY** or **HANDSET X**, you will need to charge the handset for at least five minutes before registering to the telephone base.

To register a handset:

1. Place the unregistered handset in the telephone base or charger. If **PRESS FIND HS 4 SEC ON BASE** does not appear on the handset screen after a few seconds, remove the handset and place it in the telephone base or charger again.
2. On the telephone base, press and hold **FIND HANDSET** for about four seconds (until the red **IN USE** light on the telephone base turns on) and then release the button. The handset shows **PLEASE WAIT...** and it takes about 10 seconds to complete the registration. The handset shows **HANDSET X REGISTERED** (X represents the handset number assigned) and you hear a beep when the registration completes.

When the registration is complete, the newly registered handset is assigned the next available handset registration number. For instance, if you already have **HANDSET 1** and **HANDSET 2**, the next registered handset is **HANDSET 3**.

note If the registration fails, the handset shows **NOT REGISTERED**. To reset the handset, remove the handset from the telephone base or charger and place it back in. Try the registration process again.

You cannot register a handset if any other system handset is in use. Only one handset can be registered at a time.
