Selling the Great War Alan Axelrod, 2009-03-03 The riveting story of George Creel and the Committee on Public Information the first and only propaganda initiative sanctioned by the U S government When the people of the United States were reluctant to enter World War I maverick journalist George Creel created a committee at President Woodrow Wilson s request to sway the tide of public opinion The Committee on Public Information monopolized every medium and avenue of communication with the goal of creating a nation of enthusiastic warriors for democracy Forging a path that would later be studied and retread by such characters as Adolf Hitler the Committee revolutionized the techniques of governmental persuasion changing the course of history Selling the War is the story of George Creel and the epoch making agency he built and led It will tell how he came to build it and how he ran it using the emerging industries of mass advertising and public relations to convince isolationist Americans to go to war It was a force whose effects were felt throughout the twentieth century and continue to be felt perhaps even more strongly today In this compelling and original account Alan Axelrod offers a fascinating portrait of America on the cusp of becoming a world power and how its first and most extensive propaganda machine attained unprecedented results As Axelrod demonstrates in fascinating detail the remarkable George Creel was responsible for this turnabout through his Committee on Public Information which eschewed censorship but so thoroughly controlled war information that its work was to be admired by the likes of Hitler and Goebbels Walton Rawls author of Wake Up America World War I and the American Poster

[The Presidents vs. the Press](#) Harold Holzer, 2021-08-24 An award winning presidential historian offers an authoritative account of American presidents attacks on our freedom of the press including a new foreword chronicling the end of the Trump presidency The FAKE NEWS media Donald Trump has tweeted is not my enemy it is the enemy of the American People Has our free press ever faced as great a threat Perhaps not but the tension between presidents and journalists is as old as the republic itself Every president has been convinced of his own honesty and transparency every reporter who has covered the White House beat has believed with equal fervency that his or her journalistic rigor protects the country from danger Our first president George Washington was also the first to grouse about

his treatment in the newspapers although he kept his complaints private Subsequent chiefs like John Adams Abraham Lincoln Woodrow Wilson and Barack Obama were not so reticent going so far as to wield executive power to overturn press freedoms and even to prosecute journalists Theodore Roosevelt was the first president to actively manage the stable of reporters who followed him doling out information steering coverage and squashing stories that interfered with his agenda It was a strategy that galvanized TR s public support but the lesson was lost on Woodrow Wilson who never accepted reporters into his inner circle Franklin Roosevelt transformed media relations forever holding more than a thousand presidential press conferences and harnessing the new power of radio at times bypassing the press altogether John F Kennedy excelled on television and charmed reporters to hide his personal life while Richard Nixon was the first to cast the press as a public enemy From the days of newsprint and pamphlets to the rise of Facebook and Twitter each president has harnessed the media whether intentional or not to imprint his own character on the office In this remarkable new history acclaimed scholar Harold Holzer examines the dual rise of the American presidency and the media that shaped it From Washington to Trump he chronicles the disputes and distrust between these core institutions that define the United States of America revealing that the essence of their confrontation is built into the fabric of the nation **Dispatches from the War Room** Stanley B.

Fear, Power, and Politics Mary Cardaras,2013-05-16 The Iraq War of March 19 2003 was an implausible war at the outset We now understand that it could have been averted and never should have been waged How and why did it begin Who was responsible This book offers a new perspective on the Iraq War and explains the dynamic relationships between the George W Bush administration the United States Congress and the national news media It is based on the multiple streams model of political change by John Kingdon which says that if a unique combination of political policy and problem streams collide under the right circumstances they can create a window of opportunity for a shift in policy It was the terrorist attacks of September 11 2001 which set the stage for the emergence of three dynamic streams in the country Fear power and a contentious political climate converged to produce not only a dramatic new foreign policy but also a war with Iraq a country which had not provoked or threatened the United States Fear power and a tense political climate also influenced institutional behavior and exposed the failures of 1 The executive branch in the administration of George W Bush 2 The United States Congress and 3 the national news media All are designed and are differently responsible to protect the interests of the American people Errors in judgment have happened throughout history with other administrations with other Congresses and with the news media However with regard to the Iraq War it was a matter of degree and extent especially for the President of the United States Both the Congress and the news media were also experiencing colossal institutional changes which influenced and hindered their performances However all were culpable in helping to create the Iraq war which today

stands as one of the longest military conflicts in United States history

The Post-Heroic Presidency Michael A. Genovese, Todd L. Belt, 2016-06-13 This book examines how presidents from Nixon to Obama have faced the challenges of global leadership in a dramatically changing world one with more limited resources and an increasing number of threatening challengers The immediate post World War II era was undeniably a period of American power and influence Even during the Cold War the United States was the leader of the West exerting wide ranging power internationally But beginning with the Vietnam War America began experiencing a series of setbacks and challenges to its power The Post Heroic Presidency Leveraged Leadership in an Age of Limits examines how U S presidents have attempted to reverse or contend with this new era of limited power in which presidential leadership is hamstrung due to an increasingly globalized and interdependent world one where power is more diffuse and the system of checks and balances bind a president in an age of hyper partisanship The book examines presidents of the 20th and 21st centuries explaining how the first U S president to confront this new age was Richard Nixon who along with Henry Kissinger developed a sophisticated approach to deal with the recalibration of American power It documents how other recent presidents have either tried to make peace with limited power Jimmy Carter reverse the decline Ronald Reagan ignore the implications of limits George W Bush or find ways to lead that were less ambitious more prudent and less unilateral George H W Bush Bill Clinton and Barack Obama In the cases of Clinton and Obama this shift to using soft power persuasion and multilateralism earned them criticism that they are weak thereby undermining their efforts to lead both at home and abroad

A Dubya in the Headlights Joseph Hayden, 2009-01-01 *A Dubya in the Headlights* examines all eight years of the Bush presidency with a critical but non partisan eye towards its communication policies While Hayden highlights dilemmas from both terms he provides an especially important perspective on media coverage of events since Hurricane Katrina In addition to surveying traditional news outlets this timely volume also includes an analysis of entertainment and alternative media

To Serve the President Bradley H. Patterson, 2009-12-23 Nobody knows more about the duties the difficulties and the strategies of staffing and working in the White House than Brad Patterson In *To Serve the President* Patterson combines insider access decades of Washington experience and an inimitable style to open a window onto closely guarded Oval Office turf The fascinating and entertaining result is the most complete look ever at the White House and the people that make it work Patterson describes

what he considers to be the whole White House staff a larger and more inclusive picture than the one painted by most analysts In addition to nearly one hundred policy offices he draws the curtain back from less visible components such as the Executive Residence staff Air Force One and Marine One the First Lady s staff Camp David and many others 135 separate offices in all pulling together under often stressful and intense conditions This authoritative and readable account lays out the organizational structure of the full White House and fills it out the outline with details both large and small Who are these people What exactly do they do And what role do they play in running the nation Another exciting feature of To Serve the President is Patterson s revelation of the total size and total cost of the contemporary White House information that simply is not available anywhere else This is not a kiss and tell tale or an incendiary expos Brad Patterson is an accomplished public administrator with an intimate knowledge of how the White House really works and he brings to this book a refreshingly positive view of government and public service not currently in vogue The U S government is not a monolith or a machine or a shadowy cabal above all it is people human beings doing the best they can under challenging conditions to produce a better life for their fellow citizens While there are bad apples in every bunch the vast majority

A History of Disinformation in the U.S. Joseph R. Hayden, 2024-06-07 This volume recounts notable episodes of distortion throughout American media history It examines several of the lurid hoaxes and conspiracy theories that have inspired press coverage as well as some of the political lies promoted by partisan gladiators whether of the eighteenth century or today The book moves beyond the sensational stories to show the enduring and systemic nature of media manipulation that occurs on far more consequential issues It exposes persistent and deeply destructive falsehoods that have been told about women people of color immigrants the LGBTQ community unions commercial products highlighting how longstanding bipartisan myths have effectively marginalized certain groups of Americans Alongside these cases the author carefully dissects the changing nature of institutions technologies and practices of journalism in America Attention is given to the evolution of newspapers in the eighteenth and nineteenth centuries the role of broadcasting in the twentieth and the impact of the internet and social media at the dawn of the twenty first This book will appeal to readers interested in American history journalism communication studies political science and sociology

Bush Jean Edward Smith, 2017-07-18 A biography of George W Bush showing how he ignored his advisors to make key decisions himself most in invading Iraq and how these decisions were often driven by the President s deep religious faith

George W. Bush, War Criminal? Michael Haas, 2008-12-30 George W Bush War Criminal identifies and documents 269 specific war crimes under US and international law for which President Bush senior officials and staff in his administration and military officers under his command are liable to be prosecuted Haas divides the 269 war crimes of the Bush administration into four classes 6 war crimes committed in launching a war of aggression 36 war crimes committed in the conduct of war 175 war crimes committed in the treatment of prisoners and 52 war crimes committed in postwar occupations For each of the 269 war crimes of the Bush administration Professor Haas gives chapter and verse in

precise but non technical language including the specific acts deemed to be war crimes the names of the officials deemed to be war criminals and the exact language of the international or domestic laws violated by those officials The author proceeds to consider the various US international and foreign tribunals in which the war crimes of Bush administration defendants may be tried under applicable bodies of law He evaluates the real world practicability of bringing cases against Bush and Bush officials in each of the possible venues Finally he weighs the legal political and humanitarian pros and cons of actually bringing Bush and Bush officials to trial for war crimes

Lament for America Earl H. Fry, 2010-05-01 Lament for America explores the major challenges to the status of the United States as a world superpower In delving into the fundamental question of whether or not a relative decline is inevitable the author recognizes that the changes faced over the next few decades will be more rapid and transformational than at any other period in American history Lament for America offers concrete recommendations for renewal in areas such as defense policy health care education and the environment and serves as a useful guide to understanding how decisions will shape both the U S and global landscapes

Dangerous Convictions Thomas Hodge Allen, 2013-02-07 The rhetoric of the 2012 presidential campaign exposed the deeply rooted sources of political polarization in American One side celebrated individualism and divided the public into makers and takers the other preached better together as the path forward Both focused their efforts on the base not the middle In Dangerous Convictions former Democratic Congressman Tom Allen argues that what's really wrong with Congress is the widening hardening conflict in worldviews that leaves the two parties unable to understand how the other thinks about what people should do on their own and what we should do together Members of Congress don't just disagree they think the other side makes no sense Why are conservatives preoccupied with cutting taxes uninterested in expanding health care coverage and in denial about climate change What will it take for Congress to recover a capacity for pragmatic compromise on these issues Allen writes that we should treat self reliance the quintessential American virtue and community our characteristic instinct to cooperate as essential balancing components of American culture and politics instead of setting them at war with each other Combining his personal insights from 12 years in Congress with recent studies of how human beings form their political and religious views Allen explains why we must escape the grip of our competing worldviews to enable Congress to work productively on our 21st century challenges

Perspectives on the Legacy of George W. Bush Michael Orlov Grossman, Ronald Eric Matthews Jr., 2008-12-18 Opinions of the Presidency of George W Bush and his perceived legacy seem to exist only at the extremes From the contentious outcome of the 2000 election to the attacks on September 11 to the ongoing War in Iraq and Afghanistan to the efforts to transform major domestic policies and culminating with the financial crisis of 2008 it is little wonder that the name George W Bush tends not to evoke lukewarm opinion During his time in office Bush obtained the highest approval ratings of any sitting president but also the lowest Scholars and other observers of the Bush Presidency have been similarly divided Across the board the presidency of George W Bush raises questions that invite challenges to

political scientists scholarly questions of significant general interest The authors in this volume begin the process of addressing some of these questions with essays that cover an array of issues related to his presidency and the legacy it leaves This collection of essays presented at the Mount Union College Symposium on the Legacy of George W Bush seeks to provide some balance offering some initial assessments of the consequences of this controversial president and his eventful tenure in office

What They Wished For Lawrence J. McAndrews, 2014-05-15 Roman Catholics constitute the most populous religious denomination in the United States comprising one in four Americans With the election of John F Kennedy as president in 1960 they attained a political prominence to match their rapidly ascending socioeconomic and cultural profile From Vietnam to Iraq the civil rights movement to federal funding for faith based initiatives and from birth control to abortion Catholics have won at least as often as they have lost What They Wished For by Lawrence J McAndrews traces the role of American Catholics in presidential policies and politics from 1960 until 2004 Though divided by race class gender and party Catholics have influenced issues of war and peace social justice and life and death among modern presidents in a profound way starting with the election of President Kennedy and expanding their influence through the intervening years with subsequent presidents McAndrews shows that American Catholics led by their bishops and in some cases their pope have been remarkably successful in shaping the political dialogue and at helping to effect policy outcomes inside and outside of Washington Indeed although they opened this era by helping to elect one of their own Catholic voters have gained so much influence and have become so secure in their socioeconomic status and so confident in their political standing that they closed the era by rejecting one of their own voting for George W Bush over John Kerry in 2004

American War Machine Peter Dale Scott, 2010-11-16 This provocative thoroughly researched book explores the covert aspects of U S foreign policy Prominent political analyst Peter Dale Scott marshals compelling evidence to expose the extensive growth of sanctioned but illicit violence in politics and state affairs especially when related to America s long standing involvement with the global drug traffic Beginning with Thailand in the 1950s Americans have become inured to the CIA s alliances with drug traffickers and their bankers to install and sustain right wing governments The pattern has repeated itself in Laos Vietnam Italy Mexico Thailand Nigeria Venezuela Colombia Peru Chile Panama Honduras Turkey Pakistan and now Afghanistan to name only those countries dealt with in this book Scott shows that the relationship of U S intelligence operators and agencies to the global drug traffic and to other international criminal networks deserves greater attention in the debate over the U S presence in Afghanistan To date America s government and policies have done more to foster than to curtail the drug trade The so called war on terror and in particular the war in Afghanistan constitutes only the latest chapter in this disturbing story

Barack Obama and Twenty-First-Century Politics Horace G. Campbell, 2010-08-06 Barack Obama has been called a transformative and transcendental political figure this book shows us just how significant the movement behind him was in reshaping the politics of the United States Horace Campbell examines the networks that made the 2009 electoral victory

possible and discusses the importance of self organization and self emancipation in politics Developing a theory of politics that starts with the humanist principles of Ubuntu and draws in ecological spiritual anti racist and anti sexist principles Campbell suggests we move away from old forms of vanguardism reconceptualising political organisation and recognising that new social forces are at play

Take the Power Back Robert Brandon Cox,2010-03-19 After serving as a United States Marine during the invasion of Iraq in 2003 Robert Brandon Cox realized his perspective had changed on how American freedom is interpreted around the world Now years after his service yet still devoted to his lifelong promise to uphold and defend Americas freedom Cox is breaking his silence From the unique viewpoint of one who was there Take the Power Back delivers an honest forthright look at Americas involvement in Iraq from March 2003 to the present occupation Cox dissects major aspects of Americas recent history including Americas drug war the Bush family empire and American political propaganda and ties together the loose threads of history to form a more complete picture of our current role in Iraq Cox reveals how our dependence on oil has fueled both foreign and domestic policy and explores the U S governments systematic exploitation of power throughout the years In addition he offers ideas and solutions for the diplomatic problems plaguing our nation and parts the curtain behind Obamas presidency Well researched and deeply informative Take the Power Back is a stirring call to action one that will resonate within the heart of every American
