

What Was the Driving Force Behind European Imperialism in Africa?

For the 300 years between 1500 and 1800, European nations traded for slaves, gold, and ivory along the west coast of Africa, but they did not go deeply into the continent. In the 1800s this changed as European explorers pushed their way into the interiors of western and central Africa. By the 1880s Africa was under full assault as European nations competed with one another for control for the continent. This Mini-Q takes a look at this quest for colonies and asks what was the primary driving force behind it.

between the 15th and 19th centuries and led to the continent's trajectory of underdevelopment in the world system. The book interrogates the economic and legal structures that supported European intervention in Africa. It explores the trade and private property rights which were to shape the economic future of the continent, most notably the trade in human beings as legitimate private property by European powers. The book then looks at the techniques used to submerge African sovereignty under European sovereignty during the scramble for territorial control in the 19th century, concluding with the validation of occupation in international law following the 1884-85 Berlin Conference. The book argues that the doctrines of trade and property rights sanctioned by international law led to a trend of African dispossession that set the continent on a path to underdevelopment with long-reaching consequences. This book will be of interest to researchers and students across law, history, economics, international relations, and African studies.

The Nature of German Imperialism Bernhard

Gissibl, 2016-07-01 Today the East African state of Tanzania is renowned for wildlife preserves such as the Serengeti National Park, the Ngorongoro Conservation Area, and the Selous Game Reserve. Yet few know that most of these initiatives emerged from decades of German colonial rule. This book gives the first full account of Tanzanian wildlife conservation up until World War I, focusing upon elephant hunting and the ivory trade as vital factors in a shift from exploitation to preservation that increasingly excluded indigenous Africans. Analyzing the formative interactions between colonial governance and the natural world, *The Nature of German Imperialism* situates East African wildlife policies within the global emergence of conservationist sensibilities around 1900.

The Critical Phenomenology of Intergroup Life Evandro Camara, 2020-12-04

This book is dedicated to a critical analysis of race relations and inequality through the prism of Schutzian social phenomenology, which focuses on the world of intersubjectivity and the complex of meanings that orient the conduct of individuals and groups. The phenomenological approach provides a more intimate look at how the societal imposition of negative racial meanings on racialized persons crucially determines the construction of the minority subjectivity as essential otherness, thus becoming a pivotal support of race-based inequality.

The Great Powers, Imperialism and the German Problem 1865-1925 John Lowe, 2013-06-17 This is a lucid and well-structured text dealing with key issues in international affairs from the period of German unification to the aftermath of World War I. It provides excellent explanation and analysis of the central issues, clarifies a notoriously complex period of international history, updates traditional books in this field of 19th and 20th-century diplomatic international history, takes a thematic approach, leads students through the main events and reviews recent trends in historical debate and scholarship. Includes an annotated bibliography. Consideration of the German problem and the Balkan problem have taken on a new urgency and relevance with recent developments in Europe, and this book provides an excellent introduction to the subject.

African History: Western African history Robert O.

Collins, 1990 **Carl Peters and German Imperialism 1856-1918** Arne Perras, 2004-07-22 Carl Peters 1856-1918 ranked among Germany's most prominent imperialists in the Bismarckian and Wilhelmine periods. In the 1880s he emerged as a

leader of the colonial movement and became known as the founder of Deutsch Ostafrika a region many Germans regarded as the pearl of their overseas possessions In Nazi Germany he was revered as a precursor of Hitler and ascended retrospectively to new glory as a pioneer in the struggle for Lebensraum This scholarly biography examines Peters s nationalist agenda and sheds light on his colonial expeditions into East Africa It seeks to explain how this young academic who had written about Schopenhauer and metaphysics eventually became a skilful agitator for a German world empire

US Foreign Policy and the Horn of Africa Peter Woodward,2016-02-11 Examining US involvement in the Horn of Africa this volume addresses the relationship between the US and the Islamic movement in this region Peter Woodward explores the interests of the United States in the region through two cases Sudan and Somalia He also discusses the effects of the Eritrean Ethiopian war on US policy and posture in the region along with the effects of other regional wars The book looks at the relationship between US perceptions of Islamism and brings a unique perspective to the ongoing debate over US policy in the Islamic world It will be of interest to those working in or researching foreign policy as well as peace security and conflict issues

Domesticating Human Rights Fidèle Ingiyimbere,2017-05-26 This book develops a philosophical conception of human rights that responds satisfactorily to the challenges raised by cultural and political critics of human rights who contend that the contemporary human rights movement is promoting an imperialist ideology and that the humanitarian intervention for protecting human rights is a neo colonialism These claims affect the normativity and effectiveness of human rights that is why they have to be taken seriously At the same time the same philosophical account dismisses the imperialist crusaders who support the imperialistic use of human rights by the West to advance liberal culture Thus after elaborating and exposing these criticisms the book confronts them to the human rights theories of John Rawls and Jürgen Habermas in order to see whether they can be addressed

Unfortunately they are not Therefore having shown that these two philosophical accounts of human rights do not respond convincingly to those the postcolonial challenges the book provides an alternative conception that draws the understanding of human rights from local practices It is a multilayer conception which is not centered on state but rather integrates it in a larger web of actors involved in shaping the practice and meaning of human rights Confronted to the challenges this new conception offers a promising way for addressing them satisfactorily and it even sheds new light to the classical questions of universality of human rights as well as the tension between universalism and relativism Go Throughout the Whole World

Thomas Mooren,2022-01-04 In this volume the author former Director of missiology and for many years professor of missiology religious anthropology and interreligious dialogue at Saint Paul University Ottawa goes spiritually throughout the whole world in order to study the interplay between white supremacy and christianization of the peoples Where does this interplay happen and under which conditions slavery colonialism economical factors and so forth A great difference in doing mission becomes visible between Asia India China Japan and the rest of the world Currently Dr Thomas Mooren Ofmcap teaches in Papuanewguinea and the Philippines Money, Finance, and Empire, 1790-1960 R.F. Holland,A.N.

Porter,2012-11-12 Scholars have recently begun to pay renewed attention to the economics of empire focusing in particular on the requirements of metropolitan Britain s economy and on the activities of imperial businesses Within this broad field financial questions not least the subject of investment overseas or the export of capital have long had a prominent place and have been equally affected by the development of new approaches The consensus as to the volume and direction of Britain s overseas investments is being vigorously challenged Technological advances have encouraged on a greatly enlarged scale the compilation and analysis of information about British investments and shareholdings abroad The gradual easing of restrictions on business records has increased facilities for the study especially of imperial and colonial banking Work on the financial policies of central governments is revealing much of interest to students of twentieth century colonial rule and decolonization This collection of essays brings together a selection of the latest research on these and other themes and for comparative purposes includes examples of recent continental work *The Empire and its Critics, 1899-1939* Peter

Cain,2022-01-26 The eight books reprinted in this set played an important role in defining attitudes and expectations about imperialism on the British Left in the twentieth century They are vital in understanding the transition from the liberal anti imperialism of the nineteenth century to the more overtly socialist critiques of the twentieth **Black London** Marc

Matera,2015-05-05 This vibrant history of London in the twentieth century reveals the city as a key site in the development of black internationalism and anticolonialism Marc Matera shows the significant contributions of people of African descent to London s rich social and cultural history masterfully weaving together the stories of many famous historical figures and presenting their quests for personal professional and political recognition against the backdrop of a declining British Empire A groundbreaking work of intellectual history Black London will appeal to scholars and students in a variety of areas

including postcolonial history the history of the African diaspora urban studies cultural studies British studies world history black studies and feminist studies *The Statecraft of British Imperialism* Robert D. King, Robin W. Kilson, 1999 These stimulating essays reassess the meaning of British imperialism in the nineteenth and twentieth centuries They are written by leading authorities in the field and range in scope from the aftermath of the American revolution to the liquidation of the British empire from the Caribbean to the Pacific from Suez to Hong Kong **Africa in Black Liberation Activism** Tunde Adeleke, 2016-12-19 This book analyzes three of the most accomplished twentieth century black diaspora activists Malcolm X Stokely Carmichael and Walter Rodney All began their careers in the Diaspora and later turned toward Africa This became the foundation for developing and solidifying a global force that would advance the struggles of Africans and people of African descent in the Diaspora Adeleke explores this African centered discourse of resistance which informed the collective struggles of these activists The book illuminates shared attributes and differences presenting these men as unified by a struggle against and resistance to shared historical and cultural challenges Sustainable Development in Africa Okechukwu Ukaga, Osita George Afoaku, 2005 Using a variety of tools from various disciplines Sustainable Development in Africa examines factors limiting sustainable development in Africa Among the recommendations made to remedy the situation is the call for a more holistic approach to the problem resolving the urban crisis that is central to African economic recovery and to develop a new security system that transcends the narrow military focus security
