

Meaning of life - Happiness

7 pages | 1607 words

By Occasionally, there comes a time in everyone's life when they ask themselves if they have a purpose. This question is not easy to answer, but can only be answered by the person themselves. I once asked myself this very question. My purpose in life is simply to live. My answer to this question may be wrong, may look simple, and you may even laugh at it, but it means much more than it seems. The term "to live" has many meanings to me. Love, happiness, charity, and justice are just a few meanings I feel are parallel to this term. Love is a constant reminder of why I would want to have a purpose in life.

When a person loves with their heart, the feeling they have is like no other. Anyone can love with his or her mind or body, but love of the heart and soul is hard to come by. I have loved with my mind many times before, but its not the same. I believe I have been struck with love, because it hit me like a freight train. The swift perfume and luscious looks of a girl are usually only temporary and I forget about it after the essence is gone. Although I believe I found the perfect combination of perfume, looks, and personality. Her name is Jodi Block. She is the the coolest person I know.

She likes me for who I really am and doesn't laugh at me for mistakes I make, or ever criticizes me for anything I do. She is always there with a compliment or telling me how good of a job I did on something. She is always there to listen to me when I have get something off my chest. I don't know what I would do with out her. At the current moment, the only people I love with my heart are Jodi, my mother and father, and my two siblings Jordan and Erin. I don't like to admit it, but its the truth. Like any son or daughter, I would be devastated if anything ever happened to them before their time.

They are my main reason for wanting to succeed. The world has come to know that being happy is better than being sad. I believe the reason for this can never have an exact answer, but happiness is good and sadness is bad. Almost everyone agrees with this statement. The dilemma we must face ourselves with is what makes us happy and sad. There is no universal constant that makes everyone happy or everyone sad. The factors are for everyone. For myself, going hunting, fishing, driving, and being with Jodi are fun and make me happy. These factors associated with myself are for the most part positive activities.

Surrounding myself with positive reflections comes by nature. Many people these days are materially well off, but are unhappy. We surround ourselves with clever toys, movies, and fashionable clothing, but in reality we are as mortal as any other is. Like most, I feel infringed upon...
