What Is The Feltron Annual Report:

Critical Visualization Peter A. Hall, Patricio Dávila, 2022-12-01 Information may be beautiful but our decisions about the data we choose to represent and how we represent it are never neutral This insightful history traces how data visualization accompanied modern technologies of war colonialism and the management of social issues of poverty health and crime The discussion is based around examples of visualization from the ancient Andean information technology of the quipu to contemporary projects that show the fate of our rubbish and take a participatory approach to visualizing cities This analysis places visualization in its theoretical and cultural contexts and provides a critical framework for understanding the history of information design with new directions for contemporary practice

The Best American Infographics 2016 Gareth Cook,Robert Krulwich,2016-10-04 When it comes to infographics the best work in this field grabs those eyes keeps them glued and the grip is sensual and often immediate A good graphic says See what I see and either you do or you don t The best ones pull you right in and won t let you go From the introduction by Robert Krulwich The year s most awesome RedOrbit infographics reveal aspects of our world in often startling ways from a haunting graphic mapping the journey of 15 790 slave ships over 315 years to a yearlong data drawing project on postcards that records and cements a trans Atlantic friendship The Best American Infographics 2016 covers the realms of social issues health sports arts and culture and politics including crisp visual data on the likely Democratic Republican leanings of an array of professions proving that your urologist is far more likely to be a Republican than your pediatrician Here once again are the most innovative print and electronic infographics the full spectrum of the genre from authoritative to playful Scientific American ROBERT KRULWICH is the cohost of Radiolab and a science correspondent for NPR He writes draws and cartoons at Curiously Krulwich where he

synthesizes scientific concepts into colorful one of a kind blog posts He has won several Emmy awards for his work on television and has been called the most inventive network reporter in television by TV Guide

Numbered Lives Jacqueline Wernimont, 2019-01-01 A feminist media history of quantification uncovering the stories behind the tools and technologies we use to count measure and weigh our lives and realities Anglo American culture has used media to measure and quantify lives for centuries Historical journal entries map the details of everyday life while death registers put numbers to life's endings Today we count our daily steps with fitness trackers and quantify births and deaths with digitized data How are these present day methods for measuring ourselves similar to those used in the past In this book Jacqueline Wernimont presents a new media history of western quantification uncovering the stories behind the tools and technologies we use to count measure and weigh our lives and realities **Numbered Lives** is the first book of its kind a feminist media history that maps connections not only between past and present day quantum media but between media tracking and long standing systemic inequalities Wernimont explores the history of the pedometer mortality statistics and the census in England and the United States to illuminate the entanglement of Anglo American quantification with religious imperial and patriarchal paradigms In Anglo American culture Wernimont argues counting life and counting death are sides of the same coin one that has always been used to render statistics of life and death more valuable to corporate and state organizations **Numbered Lives** enumerates our shared media history helping us understand our digital culture and inheritance

Management and Visualisation Gordon Fletcher, 2022-12-27 As organisations of all sizes become increasingly digitalised a core management challenge remains unresolved The ability to successfully and sustainably connect the stated vision of an organisation with its strategic plans and in turn with the reported reality of day to day operations is largely an elusive ambition despite the many stated advantages provided by contemporary technologies In this book the case is made for visual management as a method of communications planning learning and reporting that connects the organisation in a single meaningful and seamless way Throughout this book visual management is theorised around the position that all forms of management documentation are an artefact of human construction and of the organisation itself that reflect learned patterns of activity The book places visual management as a more intuitive and seamless method of coordinating learning and communicating across an organisation than more traditional formats of presenting management documents Consciously assembling the artefacts of an organisation in order to manage it introduces a layer of criticality that encourages reflection and consistency that is often absent from current management practice The benefits that a visual approach brings to organisational management are an increasing necessity as machine learning robotics and process automation remove traditional roles from organisations and necessitate new views on how individuals now fit into a data informed business The book contributes to the academic debate regarding resource based and knowledge based views of the organisation by advocating a different more holistic viewpoint and will thus appeal to academics and researchers in this area It would also benefit students across business disciplines

whilst the practical models and tools offered will benefit directors and managers looking to implement their own visual organisational language
