It is divided into seven representative sections. The first six sections each contain a selection of readings from a particular approach to popular culture: culture and civilisation, tradition, culturalism, structuralism, and post-structuralism, Marxism, feminism, and postmodernism, providing a comprehensive overview and examples of the main theoretical perspectives. The final section contains readings from recent debates within the study of popular culture. **The State and Women in the Economy** Jean Larson Pyle, 1990-01-01. This book examines the effect of state policies on women's roles in the economy. At the most concrete level, it investigates the relative lack of response of women's labor force activity rates to export-led development in the Republic of Ireland. At a broader level, it provides critical insights into current labor market debates regarding the causes of women's subordination and the efficacy of state policies designed to alleviate them. The book shows how the state, in addition to and interactively with the workplace and household, can maintain gender inequality. In so doing, Pyle demonstrates the usefulness of a revitalized and broader structural approach to feminist analysis.

*Theoretical Perspectives for Direct Social Work Practice* Peter Lehmann PhD, LCSW, 2007-10-22. Praise for the first edition: Finally a social work practice text that makes a difference. The major focus of this second edition is the same: to provide an overview of theories, models, and therapies for direct social work practice, including systems theory, attachment theory, cognitive-behavioral theory, narrative therapy, solution-focused therapy, the crisis intervention model, and many more. However, this popular textbook goes beyond a mere survey of such theories. It also provides a framework for integrating the use of each theory with central social work principles and values, as well as with the artistic elements of practice. This second edition has been fully updated and revised to include a new chapter on Relational Theory and newly rewritten chapters by new authors on Cognitive Behavioral Theory, Existential Theory, and Wraparound Services. New critique of the Empirically Supported Treatment (EST) movement. Updated information on the movement toward eclecticism in counseling and psychotherapy. A refined conceptualization of the editors' generalist/eclectic approach.
