companies that have taken very different paths toward integrated thinking Both stories provide new insights into the transition to integrated reporting as envisaged by the International Integrated Reporting Council IIRC and how integrated reporting is reshaping our views on transparency However the top down approach adopted in studies of integrated reporting in practice has left many questions unanswered Is it effective How does it evolve into established practice Is it just another management fad This bottom up critique answers all these questions and one more Could integrated reporting become the corporate reporting norm We shall see Given its depth of coverage the book appeals to IIRC academic community participants in integrated reporting networks and others interested in integrated reporting
