Campbell, 2003 This volume explores the ways that Charles Dickens appropriated and made central to his novels the dominant symbol of his age The author argues that Dickens contribution to the iconographic and narrative traditions was to fuse the classical image of the wheel fortune with the industrial one      **Early American Proverbs and Proverbial Phrases** Bartlett Jere Whiting, 1977 p B J Whiting savors proverbial expressions and has devoted much of his lifetime to studying and collecting them no one knows more about British and American proverbs than he The present volume based upon writings in British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor s Dictionary of American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting s authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what s the real thing and what is spurious      *New Dimensions/cube of Space* , Hidden in a secret book of cosmology written in the ancient Hebrew tongue long forgotten but not lost by mankind is a description of a mysterious cube formed from the twenty two letters of the Hebrew alphabet This cube of letters is constructed of a center three interior dimensions six faces and twelve edges These twenty two components form the cube and also reveal a map that clearly shows where we have come from where we are now and where we are going in our
