Wyss explores both the ways this missionary culture attempted to shape and define Native literacy and the Native response to their efforts She examines the tropes of readerly Indians passive and grateful recipients of an English cultural model and writerly Indians those fluent in the colonial culture but also committed to Native community as a political and cultural concern to develop a theory of literacy and literate practice that complicates and enriches the study of Native self expression Wyss's literary readings of archival sources published works and correspondence incorporate methods from gender studies the history of the book indigenous intellectual history and transatlantic American studies *Thirty-eight Latin Stories* Anne Harmar Groton, James M.
