Florida's Test-Based Promotion Policy. How Does Retention Affect Students' Academic Performance? Philipp Leppert, 2015-11-12 Seminar paper from the year 2014 in the subject Pedagogy School System Educational and School Politics grade 1.0 University of Kassel language English abstract This paper aims to provide an overview of the outcomes of the test based promotion policy for the federal state Florida introduced in 2002 The first chapter will deal with specific features of Florida's test based promotion policy followed by the research design that was used by Schwerdt and West 2013 to evaluate the program Afterwards estimation results and the treatment effect are discussed including results of Chicago's test based promotion policy to compare the findings of different studies Making College Work Harry J. Holzer, Sandy Baum, 2017-08-15 Practical solutions for improving higher education opportunities for disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive any college credential while others earn degrees or certificates with little labor market value Large numbers of these students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged students stem both from issues on the individual side such as weak academic preparation and financial pressures and from institutional failures Low income students disproportionately attend schools that are underfunded and have weak performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial aid or academic supports target individual students Other solutions such as stronger linkages between coursework and the labor market and more structured paths through the curriculum are aimed at institutional reforms All students and particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard choices and face difficult tradeoffs in the process While no single policy is guaranteed to greatly improve college and career outcomes implementing a number of evidence based policies and programs together has the potential to improve these outcomes substantially *Official Florida Statutes* Florida, 2012 The Power of Story Joan Wink Ph.D., 2017-11-07 Through this book readers will discover that stories can move the human heart and head in ways that research cannot Stories bring together readers writers librarians teachers students and families in the libraries of today and will continue to do so tomorrow Written for all those lovers of literacy this book links libraries and literacies through the power of stories The book is not filled with data in the form of pie charts graphs and tables Rather the truth of the research is grounded in authentic stories that reflect not only the interpretation of data but also the transformative nature of literacies and libraries The author's primary goal is that readers will come to value and use storytelling in their own professional and personal lives to explain and expand on complex concepts and to make information more accessible for all The book begins by presenting anecdotes and the author's personal

story to lay the foundation for what literacies are and what literacy is not An activity Spiral of Literacy allows readers to reflect on their own literacies Chapters that follow each begin with a story that sets the theoretical foundation Each chapter concludes with an action section that demonstrates how to turn theory to practice whether you are in a library a classroom or at home A final chapter envisions what libraries might look like in 10 years through interviews with librarians teachers and others interested in literacy

Advances in Multilevel Modeling for Educational Research Jeffrey R. Harring, Laura M. Stapleton, S. Natasha Beretvas, 2015-12-01 The significance that practitioners are placing on the use of multilevel models is undeniable as researchers want to both accurately partition variance stemming from complex sampling designs and understand relations within and between variables describing the hierarchical levels of these nested data structures Simply scan the applied literature and one can see evidence of this trend by noticing the number of articles adopting multilevel models as their primary modeling framework Helping to drive the popularity of their use governmental funding agencies continue to advocate the use of multilevel models as part of a comprehensive analytic strategy for conducting rigorous and relevant research to improve our nation's education system *Advances in Multilevel Modeling for Educational Research Addressing Practical Issues Found in Real World Applications* is a resource intended for advanced graduate students faculty and or researchers interested in multilevel data analysis especially in education social and behavioral sciences The chapters are written by prominent methodological researchers across diverse research domains such as educational statistics quantitative psychology and psychometrics Each chapter exposes the reader to some of the latest methodological innovations refinements and state of the art developments and perspectives in the analysis of multilevel data including current best practices of standard techniques We believe this volume will be particularly appealing to researchers in domains including but not limited to educational policy and administration educational psychology including school psychology and special education and clinical psychology In fact we believe this volume will be a desirable resource for any research area that uses hierarchically nested data The book will likely be attractive to applied and methodological researchers in several professional organizations such as the American Educational Research Association AERA the American Psychological Association APA the American Psychological Society APS the Society for Research on Educational Effectiveness SREE and other related organizations
