The Hollywood Renaissance Yannis Tzioumakis,Peter Krämer,2018-06-28 In December 1967 Time magazine put Bonnie and Clyde on its cover and proudly declared that Hollywood cinema was undergoing a renaissance For the next few years a wide range of formally and thematically challenging films were produced at the very centre of the American film industry often but by no means always combining success at the box office with huge critical acclaim both then and later This collection brings together acknowledged experts on American cinema to examine thirteen key films from the years 1966 to 1974 starting with Who s Afraid of Virginia Woolf a major studio release which was in effect exempted from Hollywood s Production Code and thus helped to liberate American filmmaking from self censorship Long standing taboos to do with sex violence race relations drugs politics religion and much else could now be broken often in conjunction with extensive stylistic experimentation Whereas most previous scholarship has examined these developments through the prism of auteurism with its tight focus on film directors and their oeuvres the contributors to this collection also carefully examine production histories and processes In doing so they pay particular attention to the economic underpinnings and collaborative nature of filmmaking the influence of European art cinema as well as of exploitation experimental and underground films and the connections between cinema and other media notably publishing music and theatre Several chapters show how the innovations of the Hollywood Renaissance relate to further changes in American cinema from the mid 1970s onwards

Never Done Erin Hill, 2016-10-05 Histories of women in Hollywood usually recount the contributions of female directors screenwriters designers actresses and other creative personnel whose names loom large in the credits Yet from its inception the American film industry relied on the labor of thousands more women workers whose vital contributions often went unrecognized Never Done introduces generations of women who worked behind the scenes in the film industry from the employees wives who hand colored the Edison Company's films frame by frame to the female immigrants who toiled in MGM's backrooms to produce beautifully beaded and embroidered costumes Challenging the dismissive characterization of these women as merely menial workers media historian Erin Hill shows how their labor was essential to the industry and required considerable technical and interpersonal skills Sketching a history of how

Hollywood came to define certain occupations as lower paid women's work or feminized labor Hill also reveals how enterprising women eventually gained a foothold in more prestigious divisions like casting and publicity Poring through rare archives and integrating the firsthand accounts of women employed in the film industry the book gives a voice to women whose work was indispensable yet largely invisible As it traces this long history of women in Hollywood *Never Done* reveals the persistence of sexist assumptions that even today leave women in the media industry underpraised and underpaid For more information <http://erinhill.squarespace.com>
