When We Believed In Magic:

Do You Believe In Magic? (A Wild Thing Book) Laura Krantz, 2024-10-08 Inspired by her popular Wild Thing podcast journalist Laura Krantz incorporates the scientific method and her journalistic skills to determine if magic might be real in *Do You Believe in Magic*. Magic spells and curses, hexes and potions, superstition and rituals. We've all heard stories of alchemists attempting to turn abundant lead into precious rare gold. Or of poor unfortunate souls asking potion masters to brew up unappetizing concoctions that will help them find love. And of course we're familiar with curses muttering magical words for the purposes of exacting revenge on an enemy or protecting a hidden treasure. Who wouldn't like the idea of special powers or control over the natural world? It seems pretty fun even if it's just the stuff of fantasy books and movies. But a lot of what we call magic has grounding in real practices. In fact, magic is at the root of many scientific fields from chemistry to botany to astronomy and has been an important part of human culture for thousands of years. *Do You Believe in Magic* takes readers through a world where magic and science collide. What do they have in common? Where do they differ? What role has magic played in our history and the history of science? Why is magic still significant even when it doesn't seem to line up with reality? And is it possible to be scientifically minded and still believe in magic? Readers are encouraged to weigh the facts and go beyond their gut assumptions to stretch their imaginations and think about why magic and science might be two sides of the same coin. Includes color illustrations, an at-home science magic experiment, glossary, bibliography, and index. A Wild Thing series. *The Search for Sasquatch*. Is There Anybody Out There? *Do You Believe in Magic*. [How We Believe](#) Michael Shermer, 2000-11 Recent polls report that 96% of Americans believe in God. Why is this? Why despite the rise of science, technology, and secular education are people turning to religion in greater numbers than ever before? Why do people believe in God at all? **EXPOSING Lies We Believe About God** James B. De Young, Th.D., 2018-12-05 For years there has been uncertainty regarding Paul Young's *The Shack*. Some have suspected heresy but have been unable to pin down exactly what Paul Young believed. James De Young, Th.D., who has known Paul Young for a couple decades, wrote *Burning Down the Shack* to expose Christians to the fact that Paul Young espoused universalism. Now the cat is out of the bag. In his newest book *Lies We Believe about God*, Young blatantly confesses adherence to universal reconciliation as well as twenty-seven other beliefs that are heretical. Here are some of Paul Young's unbiblical claims: God is not in control of everything; God submits to human beings; God is a Christian; God is a sexual being, equally male and female; People do not need to get saved; Sin and hell do not separate people from God; The cross was man's idea, not God's; People have a second chance to believe after death; Everyone is a child of God; Universal reconciliation has been accomplished for all people; The God of evangelical faith tortured his child Jesus and is the perpetrator of evil; Drawing upon his life-long teaching of the Bible and the original languages, James De Young appeals to the Bible to expose Paul Young as a heretic. In appendices, he also furnishes proof that Paul Young violates the Nicene Creed and the beliefs of the early church father Athanasius. Finally, we have a book written by one who is both

personally and academically qualified to expose the true nature of Young's writings De Young will empower you to Discover the heresy in Young's book Lies We Believe About God Expand your ability to answer the lies found in universal reconciliation Enhance your capacity to discern between the truth and falsehood Strengthen your confidence in the truth of the Bible

Reasons We Believe (Foreword by John MacArthur) Nathan Busenitz, 2008-07-22 Reasons We Believe will reinforce your personal faith and will provide you with a clear concise evangelistic tool to help you share that faith with others In an age of cynics and skeptics Christianity is constantly under attack Believers need resources that defend the veracity of their faith They are searching for clear concise and credible answers to both doubts of their own and objections from their unbelieving friends Nathan Busenitz provides such resources to believers Reasons We Believe confirms and strengthens the faith of believers by demonstrating the reliability of the twofold authority on which Christianity rests the Word of God and the person of Jesus Christ Reasons builds a biblical foundation for the authority of the Bible and then shows how extra biblical evidence corresponds with and thereby attests to what the Bible claims This study seeks to reinforce the faith of Christians while also providing them with a straightforward evangelistic tool for reaching non Christians **Believing in Magic**
