Taken together, these rich considerations of Ishiguro's work attest to his stature as a writer who continues to fascinate cultural and textual critics from around the world. **Kazuo Ishiguro** Sebastian Groes, Barry Lewis, Sean Matthews, 2011-09-11. Kazuo Ishiguro is one of the finest contemporary authors who possesses that increasingly rare distinction of being a writer who is both popular with the general reading public and well respected within the academic community. *Kazuo Ishiguro: New Critical Visions of the Novels* presents eighteen fresh perspectives on the author's work that will appeal to those who read him for pleasure or for purposes of study. The *Cambridge Companion to Kazuo Ishiguro* offers an accessible introduction to key aspects of the novelist's remarkable body of work. The volume addresses Ishiguro's engagement with fundamental questions of humanity and personal responsibility, with aesthetic value and political valency, with the vicissitudes of memory and historical documentation, and with questions of family, home, and homelessness. Focused through the personal experiences of some of the most memorable characters in contemporary fiction, Ishiguro's writing speaks to the major communitarian questions of our time: questions of nationalism and colonialism, race and ethnicity, migration, war, and cultural memory, and social justice. The chapters attend to Ishiguro's highly readable novels while also ranging across his other creative output. Gathering together established and emerging scholars from the UK, Europe, the USA, and East Asia, the volume offers a survey of key works and themes while also moving critical discussion forward in new and challenging ways. [Moving Images, Mobile Viewers](#) Renate Brosch, 2011. Vision and movement seem to have shifted center stage in modes of experience in the last century, as a result of their joint effect. Slow, contemplative gazes at static images seem to be increasingly displaced by distracted, vernacular ways of seeing. Looking out of the window of a speeding car, receiving photographs of Earth from outer space, watching the flickering images of the TV screen scrolling through a text, zooming in on a location in Google Earth, or sending images via mobile phones or webcams: all these are unique visual experiences that were impossible before various

inventions in the 20th century originated completely new kinds of movement The double meaning of moving images is meant to signal the specificity of motion to these images and at the same time to express the emotional power of those visual images which are able to transcend the constant stream of images in contemporary perception Series Kultur und Technik Schriftenreihe des Internationalen Zentrums für Kultur und Technikforschung der Universität Stuttgart Vol 20 **Kazuo Ishiguro** Wai-chew Sim, 2009-10-16 Kazuo Ishiguro's writing has rapidly gained global recognition since his first publication in 1981 This guidebook offers a biographical survey of Ishiguro's literary career an introduction to his novels plays and short stories as well as an accessible overview of the contexts and many interpretations of his work Part of the Routledge Guides to Literature series this volume cross references thoroughly between sections and presents useful suggestions for further reading

Sino-Japanese Transculturation Richard King, Cody Poulton, Katsuhiko Endo, 2012 This is a multi author work which examines the cultural dimensions of the relations between East Asia's two great powers China and Japan in a period of change and turmoil from the late nineteenth century to the end of the Second World War This period saw Japanese invasion of China the occupation of China's North east Manchuria and Taiwan and war between the two nations from 1937 1945 the scars of that war are still evident in relations between the two countries today In their quest for modernity the rulers and leading thinkers of China and Japan defined themselves in contradistinction to the other influenced both by traditional bonds of classical culture and by the influx of new Western ideas that flowed through Japan to China The experiences of intellectual and cultural awakening in the two countries were inextricably linked as our studies of poetry fiction philosophy theatre and popular culture demonstrate The chapters explore this process of transculturation the sharing and exchange of

ideas and artistic expression not only in Japan and China but in the larger region which Joshua Fogel has called the Sinosphere an area including Korea and parts of Southeast Asia with a shared heritage of Confucian statecraft and values underpinned by the classical Chinese language The authors of the chapters who include established senior academics and younger scholars and employ a range of disciplines and methodologies were selected by the editors for their expertise in particular aspects of this rich and complex cultural relationship As for the editors Richard King and Cody Poulton are scholars and translators of Chinese literature and Japanese theatre respectively each taking a historical and comparative perspective to the study of their subject Katsuhiko Endo is an intellectual historian dealing with both Japan and China

Revisiting Loss Wojciech Drąg, 2014-07-03 Loss is the core experience which determines the identity of Kazuo Ishiguro's narrators and shapes their subsequent lives Whether a traumatic ordeal an act of social degradation a failed relationship or a loss of home the painful event serves as a sharp dividing line between the earlier meaningful past and the period afterwards which is infused with a sense of lack dissatisfaction and nostalgia Ishiguro's narrators have been unable to confine their loss to the past and remain preoccupied by its legacy which ranges from suppressed guilt to a keen sense of failure or disappointment Their immersion in the past finds expression in the narratives which they weave in order to articulate justify or merely understand their experiences Their reconstructions of the past are interpreted as exercises in misremembering and self-deception which enable them to sustain their illusions and save them from despair *Revisiting Loss* is the first book-length study of memory encompassing Ishiguro's entire novelistic output It adopts a highly interdisciplinary approach combining a selection of philosophical Jacques Derrida Paul Ricoeur and Jean Starobinski and psychological perspectives Sigmund Freud Frederic Bartlett Jacques Lacan and Daniel L. Schacter The book offers a thoroughly researched critical survey drawing on all published critical monographs and collections of academic articles on Ishiguro's work

Finney, 2006-10-10 This book focuses on representative novels by eleven key English novelists who have broken from the realist novel of the post Second World War period They have reacted to the Thatcherite revolution that thrust Britain into the modern world of multi national capitalism by giving unusual fictional shape to the impact of global events and culture

The Image of the English Gentleman in Twentieth-Century Literature Christine Berberich, 2016-03-03 Studies of the English gentleman have tended to focus mainly on the nineteenth century encouraging the implicit assumption that this influential literary trope has less resonance for twentieth century literature and culture Christine Berberich challenges this notion by showing that the English gentleman has proven to be a remarkably adaptable and relevant ideal that continues to influence not only literature but other forms of representation including the media and advertising industries Focusing on Siegfried Sassoon Anthony Powell Evelyn Waugh and Kazuo Ishiguro whose presentations of the gentlemanly ideal are analysed in their specific cultural historical and sociological contexts Berberich pays particular attention to the role of nostalgia and its relationship to Englishness Though Englishness and by extension the English gentleman continue to be linked to depictions of England as the green and pleasant land of imagined bygone days Berberich counterbalances this perception by showing that the figure of the English gentleman is the medium through which these authors and many of their contemporaries critique the shifting mores of contemporary society Twentieth century depictions of the gentleman thus have much to tell us about rapidly changing conceptions of national class and gender identity
