Zimbabwe Prison Services Organisation:

Zimbabwe H. Besada, 2011-01-03 Formerly one of Africa's most promising economies Zimbabwe has begun a process of economic reconstruction after decades of political turmoil and economic mismanagement. The advent of a national unity government in February 2009 launched a new but still tentative era of political stability. The government has a daunting political and economic agenda. Top priorities include restoring the rule of law, demonstrating fiscal responsibility and putting in place macroeconomic and structural reforms to win the confidence of domestic and international investors. An optimistic time frame for its socio-economic recovery is now estimated to be at least ten years. *Zimbabwe Picking Up the Pieces* chronicles the steps that led to the downturn of the Zimbabwean state and economy before assessing what can be done to resuscitate a once thriving society. Leading experts from and on the region explore the country's options on key governance issues from strengthening institutions to addressing food security to promoting private sector development to mobilizing donor country assistance. This collection offers a unique glimpse into a fragile state and the severe costs Zimbabweans have and will have to endure if there is to be any hope of recovery. *Human Rights in African Prisons* Jeremy Sarkin, 2008. Prisons are always a key focus of those interested in human rights and the rule of law. *Human Rights in African Prisons* looks at the challenges African governments face in dealing with these issues. Written by some of the most eminent researchers from and on Africa including the former chairperson of the African Commission on Human and Peoples Rights. This collection provides a current analysis of the situation in African prisons and examines how regional and international legal instruments have dealt with human rights concerns such as overcrowding, healthcare, pretrial detention and the treatment of women and children. *Human Rights in African Prisons* reveals that there are reforms under way across nations in Africa and makes recommendations for strengthening and building on them. **Malawi's Prisons**, 1996 **Facets of Power**, 2023-01-10. The diamond fields of Chiadzwa among the world's largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006. Against the backdrop of a turbulent political economy, control of Chiadzwa's diamonds was hotly contested. By 2007 a new case of blood diamonds had emerged in which the country's security forces engaged with informal miners and black market dealers in the exploitation of rough diamonds violently disrupting local communities and looting a key national resource. The formalisation of diamond mining in 2010 introduced new forms of large-scale theft, displacement and rights abuses. *Facets of Power* is the first comprehensive account of the emergence, meaning and profound impact of Chiadzwa's diamonds. Drawing on new fieldwork and published sources, the contributors present a graphic and accessibly written narrative of corruption and greed as well as resistance by those who have suffered at the hands of the mineral's secretive and violent beneficiaries. If the lessons of resistance have been mostly disheartening ones, they also point towards more effective strategies for managing public resources and mounting democratic challenges to elites whose power is sustained by preying on them. *Digital Activism in Zimbabwe* Tenford.

Chitanana,2024-10-21 This book investigates the role of the internet and social media in political processes in non western and non democratic contexts Using Zimbabwe as a case study the book demonstrates how activists and ordinary people deploy social media particularly Facebook to subvert an enduring hegemonic state However the book also highlights how authoritarian regimes are in turn learning and adapting to the information age challenging the impact of digital activism Studies of digital activism in the Global South are often centred around democracy but this book paints a more complex picture examining the role and effect of digital activism in challenging state hegemony in authoritarian contexts The book notes that while communication technologies help mediate activism they are also simultaneously constrained by pre existing and emergent challenges tied to the social and political context and the inherent limitations of those technologies The book investigates the tactics used by digital activists the contextual factors and restrictive political environment they operate in including the role of pro government activists and ultimately the impact of digital activism given these constraints From the case of Zimbabwe the book builds out a broader theoretical analysis of the evolution of third world protest in the digital age examining the limitations of activists actions and the ideological deficit in online activism to ferment a virulent counter hegemony

Do 'Zimbabweans' Exist? Sabelo J. Ndlovu-Gatsheni,2009 This book examines the triumphs and tribulations of the Zimbabwean national project providing a radical and critical analysis of the fossilisation of Zimbabwean nationalism against the wider context of African nationalism in general The book departs radically from the common praise texts in seriously engaging with the darker aspects of nationalism including its failure to create the nation as people and to install democracy and a culture of human rights The author examines how the various people inhabiting the lands between the Limpopo and Zambezi Rivers entered history and how violence became a central aspect of the national project of organising Zimbabweans into a collectivity in pursuit of a political end
