**Masculinities under Neoliberalism** Andrea Cornwall, Frank G. Kariotis, Nancy Lindisfarne, 2016-05-15 Neoliberalism has had a radical impact on the lived gendered experiences of people around the world But while the gendered dimensions of neoliberalism have already received significant scholarly attention the existing literature has given little consideration to men s identities and experiences Building on the work of Cornwall and Lindisfarne s landmark text *Dislocating Masculinity* this collection provides a fresh perspective on gender dynamics under neoliberalism Bringing together a series of short readable case studies drawn from new ethnographic fieldwork its subjects range from the experiences of working class men in Putin s Russia to colonial masculinities in Southern Rhodesia and from young British Muslim men to amateur footballers in Jamaica

*Infrastructures for Peace in Sub-Saharan Africa* Mediel Hove, Geoff Harris, 2019-06-14 Cultures of violence are characteristic of many countries in sub Saharan Africa and attempts to move towards cultures of peace have often proved difficult and ineffectual And yet the wide variations in levels of violence within and between countries show that it is not inevitable rather it is the result of choices made at individual community and societal levels This book examines the potential of peace infrastructures as vehicles to strengthen and spread progress towards cultures of peace Peace infrastructures vary hugely in sophistication and level The examples examined in this book range from tiny structures which help resolve conflicts between individuals and within community organisations peace committees which serve local communities peace education and peace club programmes in schools mediation mechanisms to prevent election violence and to ministries of peace to coordinate government and non government efforts in peacemaking and peacebuilding The overall finding is that the development of peace infrastructures at all levels has great potential to build cultures of peace 1 It is the only book available which documents the experience and potential of nonviolence in post independence sub Saharan Africa 2 It makes a persuasive case for the development of various peace infrastructures in order to make peace sustainable 3 It explains how strategic planning can be utilised both to bring about change and to institutionalise it Introduction to Gender Studies in

Eastern and Southern Africa James Etim, 2016-07-28 Africa has witnessed massive changes in the last fifty years from independence through structural adjustment rule by military juntas in several countries and to a period now where the focus is on how best to prioritize their needs based on resources national goals and human potential There is general agreement that human capital is important in economic growth and development There is always the need to ensure that resources and human capital are used appropriately to advance development Gender disparities whether in treatment access to resources resource utilization and the law may in themselves retard or slow down development Resources and human potential in all societies include how best to ensure there is no gender disparity and to fully tap the resources inherent in women for personal social and national development Beginning with the women s suffrage movement there has been the push to encourage gender equality worldwide The Fourth World Conference on Women in Beijing in 1995 embodies the commitment

of the international community to implement policies that will enhance the political social economic educational empowerment of women This book highlights the issues affecting women in Eastern and Southern Africa what role does custom and patriarchy play in gender disparities in education access to health problems in the workplace and family relationships How have women writers in the last twenty years presented the issues of patriarchy women s rights globalism and women s holistic development What are recent developments that have helped improve the situation for some women These are some of the issues that are covered in this book The thesis of this book is that there have been policies and strategies developed that have worked to empower women However vestiges of sexism gender disparities in several fields still remain and traditions customs and patriarchy have aided in still keeping women down div div **State Capacity,**

**Economic Control, and Authoritarian Elections** Merete Seeberg, 2018-03-09 Although the phenomenon of authoritarian elections has been a focal point for the literature on authoritarian institutions for more than a decade our understanding of the effect of authoritarian elections is still limited Combining evidence from cross national studies with studies on selected cases relying on recent field work this book suggests a solution to the paradox of authoritarian elections Rather than focusing on authoritarian elections as a uniform phenomenon it focuses on the differing conditions under which authoritarian elections occur It demonstrates that the capacities available to authoritarian rulers shape the effect of elections and high levels of state capacity and control over the economy increase the probability that authoritarian multi party elections will stabilize the regime Where these capacities are limited the regime is more likely to succumb in the face of elections The findings imply that although multi party competition and state strength may be important prerequisites for democracy they can under some circumstances obstruct democratization by preventing the demise of dictatorships This text will be of key interest to scholars students and practitioners of democratization and to those who study autocracy and electoral authoritarianism as well as comparative politics more broadly **The Return of Food** Tawodzera, Godfrey, Crush,

Jonathan, 2016-06-14 The nadir of Zimbabwe s political and economic crisis in 2008 coincided with the implementation of a baseline household food security survey in Harare by AFSUN This survey found that households in low income urban areas in Zimbabwe s capital were far worse off in terms of all the food insecurity and poverty indicators than households in the other 10 Southern African cities surveyed by AFSUN The central question addressed in this report is whether food security in Zimbabwe s urban centres has improved AFSUN conducted a follow up survey in 2012 that allows for direct longitudinal comparisons of continuity and change The status of household food security in low income neighbourhoods in Harare was improved in 2012 relative to 2008 and yet persistently high rates of severe food insecurity demonstrate that the daily need to access adequate food continued to be a major challenge The key lesson for policymakers is that even in the context of overall economic improvement food insecurity remains endemic among the poorest segments of the urban population Households are already accustomed to drawing on resources outside of the formal economy and improvements in employment income

have not reversed that trend These alternative livelihood strategies should therefore be considered as a normal part of urban life and supported with state resources that can improve access to food for the most marginalized groups     Sustainable Development in Africa Walter Leal Filho,Rudi Pretorius,Luiza Olim de Sousa,2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies     *Leading and Managing Open and Distance e-Learning (ODEL) Institutions in Africa* Cuthbert Majoni,2022-10-18 *Leading and Managing Open and Distance E Learning ODeL Institutions in Africa* focuses on e learning especially in developing countries in Africa The outbreak of COVID 19 has forced most educational institutions including conventional institutions in higher education to embrace e learning as a tool to ensure that education is not paralysed but continues to thrive However the major challenge has been shifting focus from the conventional face to face mode to the e learning mode This calls for a change of mindset and a review of practices to ensure success in implementing e learning This book has 12 chapters that explore the leadership theories and approaches that influence administrative practices in ODeL institutions as well as student support within library and information services the complexities of student affairs the inclusion of students with special needs the contemporary issues of innovation and industrialisation and effective marketing techniques for the survival and growth of tertiary institutions It is hoped that the recipients of this book can acquire the theoretical and practical knowledge relevant to the successful implementation of e learning     Rural Transformations Holly Barcus,Roy Jones,Serge Schmitz,2022-03-30 This book focuses on the transformation of rural places peoples and land endemic to the contemporary manifestations of globalization Migration global economic restructuring and climate change are rapidly transforming rural places across the globe Yet global attention characteristically focuses on urban social and economic issues neglecting the continued roles of rural people and places Organized around the three core themes of demographic change rural urban partnerships and innovations and landscape

change the case studies included in this volume represent both the Global North and Global South and underscore the complexity and multi scalar nature of these contemporary challenges in rural development planning and sustainability This book would be valuable supplementary reading for both students and professionals in the fields of rural land management and rural planning imwe imba - the other room Munashe Wadzanai, Anne Schlechters, Thomas F. Andersson, 2022-11-01 Munashe is a bright adolescent girl living in Zimbabwe She feels a pressure to leave Zimbabwe and to follow most of her peers to a university or to work in the West However she is not convinced that this is what she really wants Via Thomas an experienced European scientist and manager initiating a technical Start up Hub at her boarding school Munashe comes in contact with Anne Imwe imba the other room is a novel covering the last 2 high school years of Munashe and Anne in letters between the young women as well as from Thomas to Simon his now retired personal and business coach Through the letters Anne and Simon discover unknown and fascinating aspects of the southern African society Especially since Thomas includes stories from Nelson Munashe s grandfather and small holder farmer Based on the stories and hearing about Munashe s activities in more technical projects Anne develops a critical attitude towards both the current Western school system and the effectiveness of traditional Western development or aid projects On the other side Munashe learns that Europe is not the land of milk and honey for everybody Munashe and Anne assisted by Thomas review the so called development work activities in emerging markets and propose a promising approach to economically uplift more rural areas In part 2 the Start up Hub activities are proven to be sustainable and Munashe asks where do we want to go A design is made for a more ideal global society and the issues faced implementing their ideas are discussed The letters in this novel cover a wide spectrum of topics personal struggles and contemplations educational and business practices science and art geopolitics and historical backgrounds change management as well as social developments Each letter is written in an accessible language and underlined with references to allow the reader to explore more Most of all imwe imba wants to create awareness Awareness for the wonderful real life in Africa Awareness that Africa is prosperity Awareness that our younger generation is perfectly able to initiate change That a single person can initiate change That complaining or being upset about various unacceptable global happenings or actions is not enough That a further polarisation and blaming the others doesn t help That we have to do things That we should not fear change but embrace the changes that are needed to come to the necessary improvements

**Sustainable and Dynamic Graduate Employability** Mona Khare, 2023-09-22 This volume presents a theoretical and strategic discussion on the linkages between sustainable graduate employability skill building and economic growth With case studies from India South Africa Zimbabwe Taiwan England Germany the United States United Arab Emirates Australia and Asian countries it looks at the skills training and education landscape around the continents examines the state of employment and offers case specific recommendations The book analyses the role of higher education and vocational education policies and strategies in integrating skill training in education in order to achieve quality education and

sustainable employment for all An important critique of skills training education policy and employment planning the volume will be an essential read for scholars and researchers of sustainable development development studies public policy political economy labour studies and education It will also be useful for policymakers

**Political and Military Sociology** Neovi M. Karakatsanis, Jonathan Swarts, 2015-11-09 This volume encompasses a wide range of empirical research on a variety of topics that are related by their focus on the importance of attitudes culture and perceptions The significance of public attitudes the impact of cultural norms and the perceptions of military officers and civilians are all analyzed in the seven articles in this latest edition of Political and Military Sociology The first essay asserts that military memoirs should be taken seriously as objects of scholarly analysis Using the Minorities at Risk Dataset the second article examines the effects of globalization on ethnic conflict in 106 countries from 1985 to 2002 The next focuses on Canadian attitudes toward military expenditures following the September 11th terrorist attacks The fourth examines the attitudes of Texans toward recent US wars the draft and military service generally The fifth essay explores the role of the media in promoting democracy and democratic attitudes in southern Africa Using survey data the following article addresses the extent to which higher education promotes more tolerant attitudes among Israeli Jews toward Israeli Arabs The volume concludes with a study of US warrant officers that shows how the rank has evolved over time

**Agricultural Development and Food Security in Developing Nations** Ganpat, Wayne G., Dyer, Ronald, Isaac, Wendy-Ann P., 2016-10-19 The development of sustainable agricultural systems is an imperative aspect of any country but particularly in the context of developing countries Lack of progress in these initiatives can have negative effects on the nation as a whole Agricultural Development and Food Security in Developing Nations is a pivotal reference source for the latest scholarly material on promoting advancements in agricultural systems and food security in developing economies Highlighting impacts on citizens as well as on political and social environments of a country this book is ideally designed for students professionals policy makers researchers and practitioners interested in recent developments in the areas of agriculture

Corruption, Ethics, and Governance in South Africa Modimowabarwa Kanyane, 2024-05-20 This book assesses landmark empirical studies state capture concerns corruption and fraud in South Africa s public sector and thereby reflect on issues of accountability and ethics as cornerstones of governance Bringing together some of the best minds about corruption ethics and governance from a multidisciplinary perspective the book pushes critical thinking to interrogate interventions that could stamp out and stop the rot of corruption in society The book investigates the behaviours of officials and politicians engaging in acts of corruption and considers how state institutions have been captured and corrupted by these people Considering South Africa s historical and regional context the book also considers the role of watchdogs auditors and public opinion In suggesting mechanisms for combating and preventing corruption the book ultimately advocates for long lasting preventive interventions instead of current short lived and costly approaches to combating corruption Combining original case studies empirical work and some comparisons in Zimbabwe and

Botswana with South Africa this book will be of interest to students researchers and policymakers working on corruption ethics and governance from the context of public administration and law *Grid-locked African Economic Sovereignty* Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions **Disaster Risks and Hazards** Rosemary Kasimba, Innocent Chirisa, 2025-07-18 This book discusses disaster risks and hazards as well as measures to increase people's resilience The 21st Century has experienced a number of disasters that resulted in hampering socio economic development the loss of lives and property hence they are a threat to sustainable development Disaster risk management efforts and practices have failed to arrest the underlying drivers of increased global risk No country is immune to disaster risk thus resilience has become a critical component of disaster management It provides an opportunity to confront the social ecological foundations of disasters However it has been vaguely conceptualised and lacks a concrete approach to operationalization Some developing countries are gradually coming to realise that preparedness hazard mapping prediction risk and vulnerability assessment and planning are critical for increasing resilience and reducing losses following disasters A paradigm shift is required from reactionary to proactive measures in disaster management as the latter focuses more on increasing the resilience of the community Zimbabwe's disaster management policy of 1979 is in the process of review following Cyclone Idai in March 2019 and the Corona Virus 19 COVID 19 Furthermore the consequences of climate change disaster are being felt with across the world particularly developing countries whose preparatory measures for such disasters are inadequate Disasters have become inevitable and no country is every country is vulnerable to them In the event of these disasters the vulnerable people are at risk and are affected more as majority of them are not able to cope In developed countries measures are in place to assist the vulnerable in the event that a disaster strikes However Zimbabwe being a developing country is not able to deal with unpredictable disasters due to lack of resources hence the need for it to adopt

mitigatory and transformative measures to reduce the impact of any form of disasters      **Keeping the Republic** Christine Barbour, Gerald C. Wright, 2016-11-19 This refreshed and dynamic Eighth Edition of Keeping the Republic revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what and how they should get it The exploding possibilities of the digital age make this task all the more urgent and complex Christine Barbour and Gerald Wright the authors of this bestseller continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic      **Journalism, Democracy, and Human Rights in Zimbabwe** Bruce Mutsvairo, Cleophas T. Muneri, 2019-11-29 Journalism Democracy and Human Rights in Zimbabwe provides an empirical analysis of Zimbabwe's ongoing state of affairs Bruce Mutsvairo and Cleophas T Muneri examine the intersection between journalism democracy and human rights to historicize and critique past successes and failures that have played out in Zimbabwe's past as well as interrogate future challenges that await the nation's quest for democratization The authors examine what role citizen journalists human rights activists professional journalists and social media dissents could potentially play toward ending the country's current adversity Scholars of journalism media studies communication African studies and political science will find this book particularly useful      **Cyclones in Southern Africa** Godwell Nhamo, David Chikodzi, 2021-09-28 Tropical cyclones in Southern Africa also known as hurricanes or typhoons in other regions of the world is a hot subject for academic research This focus has been magnified by the need to consider tropical cyclones in the context of other global development agendas that includes the 2030 Agenda for Sustainable Development and its inseparable 17 Sustainable Development Goals SDGs the Paris Agreement the Sendai Framework for Disaster Risk Reduction and Habitat III's New Urban Agenda The ambitious SDGs challenge global and community leaders to make sure development addresses the nexus among poverty inequality and employment creation as well as care for the earth and its natural resources and biodiversity The SDGs further present an agenda to eradicate hunger bring quality education and sustain water and sanitation The infrastructure development human settlements sustainable consumption and production climate change biodiversity and the ocean blue economy agendas are also pitched Lastly the 2030 Agenda for Sustainable Development encourages partnerships on delivering various programmes and projects at all spatial levels However as tropical cyclones continue to make multiple landfalls and ravage Southern Africa and other parts of the world the achievement of the 2030 Agenda for Sustainable Development is threatened To this end this book addresses this gap by documenting the implications of tropical cyclones drawing examples and case studies from recent tropical cyclones such as cyclone Idai and cyclone Kenneth that resulted in catastrophic impacts in 2019 The book comes as part of a series with three volumes The other volumes include Cyclones in Southern Africa Vol 1 Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in

Zimbabwe and Cyclones in Southern Africa Vol 2 Foundational and Fundamental Topics Given the foregoing the book is suitable as a read for several professionals and disciplines such as tourism and hospitality studies economics sustainable development development studies environmental sciences arts geography life sciences politics planning and public health

*Handbook of Research on Connecting Research Methods for Information Science Research* Ngulube, Patrick, 2019-12-13  
In today's globalized world viable and reliable research is fundamental for the development of information Innovative methods of research have begun to shed light on notable issues and concerns that affect the advancement of knowledge within information science Building on previous literature and exploring these new research techniques are necessary to understand the future of information and knowledge The Handbook of Research on Connecting Research Methods for Information Science Research is a collection of innovative research on the methods and application of study methods within library and information science While highlighting topics including data management philosophical foundations and quantitative methodology this book is ideally designed for librarians information science professionals policymakers advanced level students researchers and academicians seeking current research on transformative methods of research within information science     **Tourism, Change and the Global South** Jarkko Saarinen, Jayne M. Rogerson, 2021-06-16  
This significant volume is the first to focus on both the changing nature of tourism and the capacity of tourism to effect change especially in the Global South Geographically this changing nature of tourism is based on the transforming relationships between demand supply and location While this is nothing new in tourism recent decades have intensified the changing characteristics of global tourism From another perspective tourism represents a change and nowadays many localities and regions aim to use tourism as a tool for positive change i.e. development However this has turned out to be a challenging task in practice especially in the Global South context where the relationship between tourism growth and local development has often been controversial This book looks at a host of critical concepts in one volume such as growth and development adaptation and resilience sustainability and responsibility governance and planning and heritage and destination management strategies By understanding the drivers of change this book sheds new insight into the promise and role of sustainability and responsibility in tourism development This book will be of great interest to all upper level students academics and researchers in the fields of Tourism Geography and Cultural and Heritage studies
