Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Financial Inclusion and Digital Transformation Regulatory Practices in Selected SADC Countries Howard Chitimira, Tapiwa Victor Warikandwa, 2023-03-28 This book investigates the regulation and promotion of financial inclusion and provides a comparative analysis of the regulation, promotion and enforcement of the relevant laws in the SADC in particular South Africa, Namibia, Botswana and Zimbabwe, as well as the challenges of financial inclusion. In turn, it evaluates financial inclusion in the context of specific challenges faced by unbanked and underbanked customers who are easy targets for cyber criminals because they tend to have lower levels of digital literacy. The book presents novel discussions that identify the challenges and flaws associated with the enforcement of financial inclusion laws and related measures intended to promote financial inclusion in the SADC region. This is primarily done in order to reveal the current strengths and weaknesses of financial inclusion laws in relation to certain aspects of the companies' securities and financial markets in the region. For example, there is no common financial inclusion instrument law that is effectively and uniformly applied throughout the SADC. This has impeded the enforcement authorities' efforts to effectively combat financial exclusion across the region. The book is likely the most comprehensive study to date on the regulation and promotion of financial inclusion in the SADC region and fills a major gap in SADC and African legal jurisprudence. As such, it offers a valuable asset for policymakers, attorneys, bankers, securities share holders and other market participants who deal with financial inclusion, as well as undergraduate and graduate students interested in the topic.

Financial Inclusion Regulatory Practices in SADC Howard Chitimira, Tapiwa Warikandwa, 2023-05-25 Against a background of calls to prioritise the improvement of financial inclusion in Africa, this book provides an analysis of current financial inclusion measures in Southern Africa. Evaluating the existing strengths and weaknesses of financial inclusion in Africa, it identifies opportunities to improve inclusive financial services and aid poverty reduction in the region. With a focus on South Africa, Namibia, Botswana and Zimbabwe as case studies for assessing current financial inclusion in the context of particular challenges faced by unbanked and underbanked customers who are easy targets for cybercriminals due to low levels of digital literacy, it looks into the regulation and promotion of financial inclusion in Southern Africa. The book explores financial inclusion in the context of digital transformation in the 21st century, examining the regulation and promotion of financial inclusion in the context of digital transformation as well as the challenges related to financial inclusion. Suggesting improvements to aspects of company law

securities and financial markets in the Southern African Development Community region the book offers a comprehensive study on the regulation and promotion of financial inclusion in the Southern African Development Community region It will be essential reading for students and academics researching financial inclusion international economic law and development

Water and Soil in Holy Matrimony? Munyaradzi Mabeza, Christopher, 2017-02-10 This book is a biography based on a qualitative ethnographic study of adaptation to climate by Mr Zephaniah Phiri Maseko an award winning smallholder farmer from Zvishavane rural Zimbabwe Ethnographic data provides insight and lessons of Mr Phiri Maseko and other farmers practices for rethinking existing strategies for adaptation to climate change The concept of adaptation is probed in relationship to the closely related concepts of vulnerability resilience and innovation This study also explores the concept of conviviality and argues that Mr Phiri Maseko s adaptation to climate hinges on mediating barriers between local and exogenous knowledge systems The book argues that Mr Phiri Maseko offered tangible adaptive climate strategies through his innovations that marry water and soil so that it won t elope and run off but raise a family on his plot His agricultural practices are anchored on the Shona concept of hurudza an exceptionally productive farmer This book explores the concept and practices of uhurudza to suggest that the latter day hurudza commercial farmer as embodied by Mr Phiri Maseko offers an important set of resources for the development of climate adaptation strategies in the region This study of smallholder farmers adoption of innovations to climate highlights the complex interplay of multiple factors that act as barriers to uptake Such interplay of multiple stressors increases the vulnerability of smallholders The study concludes by arguing that in as much as the skewed colonial land policy impoverished the smallholder farmers Mr Phiri Maseko nonetheless redefined himself as a latter day hurudza and thus breaks free from the poverty cycle by conjuring ingenious ways of reducing vulnerability to climate The book does not suggest that Mr Phiri Maseko s innovations offer a silver bullet solution to the insecure rural livelihoods of smallholder farmers nevertheless they are a source of hope in an environment of uncertainty His steely tenacity in the face of a multi stressor environment is to be treasured
