Regime and Education in Zimbabwe Bekithemba Dube, Albert Mufanechiya, 2024-06-10

This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy

Making Politics in Zimbabwe's Second Republic Gorden Moyo, Kirk Helliker, 2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe s regime The temptation amongst Zimbabwean scholars has been

to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa s Second Republic further analysing its political significance as well as risks and limitations While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt crisis as well as health and education Discussing the limitations of these different reform measures the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa s Second Republic The book appeals to students scholars and researchers of Zimbabwean and African studies political science and international relations as well as policymakers interested in a better understanding of political reform processes *Zimbabwe Medium Term Plan, 2011 - 2015* ,2011

Implementing Deeper Learning and 21st Century Education Reforms Fernando M. Reimers,2020-11-04 This open access book is a comparative analysis of recent large scale education reforms that broadened curriculum goals to better prepare students for the 21st century The book examines what

governments actually do when they broaden curriculum goals with attention to the details of implementation To this end the book examines system level reforms in six countries at various levels of development The study includes system level reforms in jurisdictions where students achieve high levels in international assessments of basic literacies such as Singapore and Ontario Canada as well as in nations where students achieve much lower levels such as Kenya Mexico Punjab Pakistan and Zimbabwe The chapters examine system level reforms that focus on strengthening the capacity to teach the basics as in Ontario and Pakistan as well as reforms that aim at building the capacity to teach a much broader set of competencies and skills such as Kenya Mexico Singapore and Zimbabwe The volume includes systems at very different levels of spending per student and reforms at various points in the cycle of policy implementation some just starting some struggling to survive a governmental transition and others that have been in place for an extended period of time From the comparative study of these reforms we aim to provide an understanding of how to build the capacity of education systems to teach 21st century skills at scale in diverse settings

Reformas educativas del siglo XXI para un aprendizaje más profundo Fernando M. Reimers, 2022-01-31 Existe un consenso amplio en el plano internacional sobre el doble desafío que la pandemia del Coronavirus dejar tras de sí la mejora necesaria de la calidad de la educación y las restricciones de recursos disponibles para financiarla El primero de ellos supone ampliar la perspectiva de la educación orientándola hacia aprendizajes más profundos o competencias para el siglo XXI El segundo plantea el cómo asegurar una buena utilización de los recursos educativos disponibles para implementar de un modo efectivo reformas ambiciosas en contextos de restricciones financieras La obra partiendo de un análisis internacional comparado presenta la experiencia de seis países diversos con capacidades institucionales y financieras muy diferentes lo que permite ampliar el horizonte de la comparación Para ello examina Sistemas educativos con niveles muy diferentes de gasto por estudiante Reformas sistémicas que han prestado una especial atención al fortalecimiento de la capacidad para enseñar los aspectos básicos del currículo como en Ontario Canadá y el Punjab Pakistán Reformas que han buscado desarrollar capacidades para enseñar un conjunto de competencias y destrezas mucho más amplio como en Kenia México Singapur y Zimbabwe Reformas emprendidas en momentos distintos del ciclo de implementación de las políticas en algunos casos apenas incipientes como Kenia y Zimbabwe en otros como México luchando por sobrevivir a una transición gubernamental y aún en otros como Ontario Punjab y Singapur donde esos ciclos existen desde hace tiempo A partir del estudio comparado de todo lo anterior se extraen algunas lecciones sobre la puesta en práctica de reformas educativas orientadas a enseñar las competencias del siglo XXI en entornos diversos A la vista de los diferentes análisis se advierte que la educación del siglo XXI sigue siendo un objetivo huidizo abrazado de forma retórica por reformas de los sistemas educativos en diversas fases de implementación pero que todavía no se refleja en la aplicación de estrategias capaces de estar a la altura de las expectativas generadas El libro pretende promover el diálogo social sobre cómo compensar los costes educativos que dejará tras de sí la pandemia y sobre cómo lograr que a su término hayamos sido capaces de construir

mejores sistemas educativos alrededor del mundo

Beyond the Enclave Godfrey Kanyenze, Timothy Kondo, 2011-07-26 Beyond the Enclave sets out to unravel the contradiction of a country Zimbabwe where a rich diverse resource base co exists with endemic poverty One reason lies in the colonial economy which was predicated on an ideology of white supremacy creating an enclave formal economy employing one fifth of the labour force Yet over three decades after independence the non formal segment has become even more entrenched This book assesses Zimbabwes economy through three main phases 1980 90 when a strong social policy framework proved difficult to sustain due to erratic growth and 1991 96 when structural adjustment demanded a market driven approach to development The third phase is characterized by crisis management leading to policy inconsistencies and reversals Not surprisingly such incoherence saw the economy descend into hyperinflation and paralysis in 2007 2008 leading to the signing of the Global Political Agreement in September 2008 In the absence of formal dollarization economic recovery after the adoption of the multi currency regime has remained fragile leaving an estimated 70 per cent of the population outside the banking system This has further entrenched uneven enclave growth as the economy remains locked in a low income poverty trap There is a need to facilitate transition towards formality to promote decent jobs Furthermore a strategic developmental role for the state in the economy is now widely recognized as vital for development Beyond the Enclave argues for a new approach to development in Zimbabwe based on pro poor and inclusive strategies which will contribute to the well being of all of its citizens and wise stewardship of its resources It offers

suggestions on policy formulation implementation monitoring and evaluation in all sectors designed to promote inclusive growth and humane development *Zimbabwe Millennium Development Goals* Zimbabwe, United Nations, 2004
