

On Friendship

Last night I was on the phone with my old college roommate. She recently broke up with her boyfriend and now, she told me, she ended her friendship with Scott, her best friend since fifth grade.

Knowing that Danielle can sometimes be hasty in her decisions to end friendships rather than confront a problem (we once had a similar situation), I asked her if she was sure she was doing the right thing and had actually discussed this with Scott. (I remember the one time, she felt confronting the problem meant unplugging my computer in the middle of a research project and storming out of the apartment.)

She assured me that she had, and that surprisingly enough, Scott agreed the friendship needed to be ended. It was hard, she said. She pushed her two closest friends away. But, she added, she felt good. She felt strong and ready to grow in a new direction.

While I was reflecting on this conversation, I thought about the friendships I have had in my life. Some were good, some bad. Some were mediocre. A few have lasted. However, most have fallen apart either due to lack of communication or lack of need. Sometimes, like the situation above, both parties understand the break. Sometimes, it is unfathomable.

I don't regret much in my life and one of the things I do not regret is saying goodbye to certain friendships. It is this aspect of friendship on which I will focus rather than the friends I still have or the friendships I wish I hadn't severed. These expired relationships often teach us just as much as the other types.

Friends should not demean, belittle, emotionally abuse you, and/or only give and not take. That is the reason several of my friendships have ended. There is also always the friend who takes a separate path or resents you for taking yours. But whatever the reason, friendships end. This is a good thing. Imagine all the emotional baggage, bad memories, and embarrassing people you would need to cart around with you forever.

I have learned from the friendships I have ended and they have all taught me important lessons. From Mandy, I have learned that people might be as supportive and loving as possible, but do it only for their own purposes. Melanie told me that she would rather be Mandy's friend. From John, I realized that some people only want friends when they need them and can control them. Catie taught me that some values and decisions can not be overlooked. Sometimes two people change so much that they can not remain friends.

I do get sad and nostalgic when I remember some of these friendships. There are times that I dearly miss my high school days with Mandy. There are times when I miss the sleepovers with Catie. There are also times when I wish that John and I could have separated responsibilities and feelings. However, when I get the email that begins "I know we haven't talked in two years, but or when I remember the reason the friendship was ended in the first place, I briefly consider rekindling the friendship and then, more often than not, I realize that these times in my life have ended for a reason.

I have, like Danielle will, grown and changed. I have become stronger and more compassionate in my treatment of others. These friends of the past have given me this gift. I am who I am today, because of the friends I no longer have.

Connecting Reading & Writing in Second Language Writing Instruction Alan Hirvela, 2004-08-20 Academic writing often requires students to incorporate material from outside sources like statistics ideas quotations paraphrases into their own written texts a particular obstacle for students who lack strong reading skills In *Connecting Reading and Writing in Second Language Instruction* Alan Hirvela contends that second language writing students should be considered as readers first and advocates the integration of reading and writing instruction with a survey of theory research and pedagogy in the subject area Although the integrated reading writing model has gained popularity in recent years many teachers have little more than an intuitive sense of the connections between these skills As part of the popular Michigan Series on Teaching Multilingual Writers *Connecting Reading and Writing in Second Language Instruction* will provide invaluable background knowledge on this issue to ESL teachers in training as well as teachers who are already practicing *Demystifying Academic Writing* Zhihui Fang, 2021-04-14 Informative insightful and accessible this book is designed to enhance the capacity of graduate and undergraduate students as well as early career scholars to write for academic purposes Fang describes key genres of academic writing common rhetorical moves associated with each genre essential skills needed to write the genres and linguistic resources and strategies that are functional and effective for performing these moves and skills Fang's functional linguistic approach to academic writing enables readers to do so much more than write grammatically well formed sentences It leverages writing as a process of designing meaning to position language choices as the central focus illuminating how language is a creative resource for presenting information developing argument embedding perspectives engaging audience and structuring text across genres and disciplines Covering reading responses book reviews literature reviews argumentative essays empirical research articles grant proposals and more this text is an all in one resource for building a successful career in academic writing and scholarly publishing Each chapter features crafts for effective communication authentic writing examples practical applications and reflective questions Fang complements these features with self assessment tools for writers and tips for empowering writers Assuming no technical knowledge this text is ideal for both non native and native English speakers and suitable for courses in academic writing rhetoric and composition and language literacy education *Securitization of Property Squatting in Europe* Mary Manjikian, 2013-05-29 Housing is no longer about having a place to live but about state pressures to conform norms and policies regarding citizenship and practices of surveillance and security Breaking new ground in the field of urban politics and international relations *Securitization of Property Squatting in Europe* examines and critiques legislative initiatives and examines governmental attempts to reframe urban property squatting as a crime and a threat to domestic security Using examples from France Netherlands Denmark and Great Britain Mary Manjikian argues that developments within the European Union including terrorist attacks in London and Madrid the rise of right wing extremist parties and the lifting of barriers to immigration and

travel within the EU have had effects on housing policy which has become the subject of state security policy in Europe's urban areas. In Denmark, squatting has often had an ideological anti-state character. In Paris, housing policy can be viewed as a type of identity politics with squatters as transnational actors who pose a transnational security threat. In Great Britain, the role of the press has created a drive to criminalize squatting. Events in the Netherlands present two competing notions of what housing is: a human right or an economic good produced by the free market. *Herald of Gospel Liberty*, 1908

An Autoethnographic Approach to Identity and Second Language Beril T. Arik, 2023-07-20 Using autoethnographic and narrative inquiry, this book investigates the identity and literacy development of an international graduate student in the United States of America. The findings illustrate that the identities and literacy practices in graduate school were multiple, heterogeneous, dialogic, situated, and dynamic. The findings indicate that the development of both identities and literacy practices in graduate school require a considerable amount of interaction with others through both people and texts, and that these interactions are the primary factor underlying disciplinary socialization. This enquiry formulates subjective evaluations about these interactions and how they fundamentally shape academic socialization. The study also underlines the significance and necessity of studying academic socialization from particular emic perspectives of individuals.

Log Data Acquisition and Quality Control Philippe P. Theys, 1999 While the first well logs recorded seventy years ago had no provision for data quality control, the development of increasingly sophisticated logging techniques has led to the introduction of a large number of tests to validate acquired data. Log quality can be assured by stringent control of depth, calibrations, signal

processing and operating procedures This work gives a thorough description of these features The meaningful interpretation of well logs depends on valid input An understanding of log acquisition and the performance of rigorous quality checks are the prerequisites for an accurate evaluation of a formation These elements also enable log users to make decisions based on calculated risks The book is primarily written for earth science specialists who use log data It also addresses the needs of logging engineers who seek a better understanding of the log acquisition process Exercises and their solutions are scattered in the book to complement practical chapters

Everyday Genres Mary Soliday, 2011-02-07 In *Everyday Genres Writing Assignments across the Disciplines* Mary Soliday calls on genre theory which proposes that writing cannot be separated from social situation to analyze the common assignments given to writing students in the college classroom and to investigate how new writers and expert readers respond to a variety of types of coursework in different fields This in depth study of writing pedagogy looks at many challenges facing both instructors and students in college composition classes and offers a thorough and refreshing exploration of writing experience ability and rhetorical situation

Soliday provides an overview of the contemporary theory and research in Writing across the Curriculum programs focusing specifically on the implementation of the Writing Fellows Program at the City College of New York Drawing on her direct observations of colleagues and students at the school she addresses the everyday challenges that novice writers face such as developing an appropriate stance in one's writing and the intricacies of choosing and developing content The volume then goes on to address some of the most pressing questions being asked by teachers of composition To what extent can writing be separated from its situation How can rhetorical expertise be shared across fields And to what degree is writing ability local rather than general Soliday argues that while writing is closely connected to situation general rhetorical principles can still be capably applied if those situations are known The key to improving writing instruction she maintains is to construct contexts that expose writers to the social actions that genres perform for readers Supplementing the author's case study are six appendixes complete with concrete examples and helpful teaching tools to establish effective classroom practices and exercises in Writing across the Curriculum programs Packed with useful information and insight Everyday Genres is an essential volume for both students and teachers seeking to expand their understanding of the nature of writing *Silvics of North America: Hardwoods* Russell M.
