examples and framework use to support hands on applied learning experience

Book Description This comprehensive guide begins by introducing the core principles of Node.js covering installation environment setup and modular programming. Readers then build foundational skills by creating their first applications and exploring essential web technologies like HTTP and popular frameworks such as Express and Nest. The journey continues into advanced topics like template engines, database integration and authentication techniques equipping readers to build full featured web applications. As readers progress the book delves into building RESTful and GraphQL APIs, real time applications with WebSockets and writing type safe Node.js code using TypeScript. Later chapters explore command line tools, asynchronous programming with Promises and RxJS streams and file handling. Comprehensive sections on package management, quality assurance, testing and security provide practical insights to produce robust, maintainable software. The final chapters focus on deploying scalable applications, performance optimization, microservices architecture and introduce the emerging Deno runtime. Throughout the book, detailed examples and step by step explanations guide readers from fundamental concepts to advanced techniques, making this an essential resource for developers seeking mastery of server side JavaScript development with Node.js.

What you will learn

- Build scalable server side applications using Node.js frameworks
- Implement asynchronous programming with Promises and Async/Await
- Design secure authentication using Passport and JWT tokens
- Develop RESTful and GraphQL APIs for modern web services
- Create real time apps leveraging WebSockets and Socket.io
- Optimize Node.js performance and deploy scalable microservices

Who this book is for Ideal for intermediate developers with basic JavaScript knowledge looking to deepen their server side skills with Node.js. Familiarity with JavaScript ES6 is recommended. Readers should have fundamental programming experience and a basic understanding of web technologies. No prior Node.js experience is required.
