Controlled Natural Language B. Davis,C.M. Keet,A. Wyner,2018-09-12 Controlled natural languages CNLs are based on natural language and apply restrictions on vocabulary grammar and or semantics They fall broadly into 3 groups Some are designed to improve communication for non native speakers of the respective natural language in others the restrictions are to facilitate the use of computers to analyze texts for example to improve computer aided translation and a third group of CNLs are designed to enable reliable automated reasoning and formal knowledge representation from seemingly natural texts This book presents the 11 papers selected from 14 submitted and delivered at the sixth in the series of workshops on Controlled Natural Language CNL 2018 held in Maynooth Ireland in August 2018 The papers cover a full spectrum of controlled natural languages ranging from human oriented to machine processable controlled languages and from more theoretical results to interfaces reasoning engines and the real life application of CNLs The book will be of interest to all those working with controlled natural language whatever their approach **Applied Drama/Theatre as Social Intervention in Conflict and Post-Conflict Contexts** Hazel Barnes,Marié-Heleen Coetzee,2014-06-26 This book explores the use of drama or theatre texts about as approaches to or methodologies for interventions in conflict and post conflict contexts It maps the role of drama theatre in the centre and in the aftermath of overt and direct conflict traces how the relationship between drama theatre and conflict is shaping the socio cultural political and aesthetic landscapes of these contexts and engages with drama theatre as methodologies to address or forge new relationships around conflict As such it deals with the transformative abilities of drama theatre in contexts where conflict or violence is overt or covert in its effects expressions and modes of social control in a range of geographical constituencies It includes chapters predominantly from South Africa but also from rural Nigeria and New Zealand reflecting work on conflict in prisons tertiary and secondary education cities villages and families It also contains two new original play scripts both resulting in acclaimed performances Hush on family violence in New Zealand and The Line on xenophobia in South Africa **Linguistics** ,1997 **Logic, Language, and Computation** Helle Hvid Hansen,Sarah E. Murray,Mehrnoosh Sadrzadeh,Henk Zeevat,2017-02-21 This book constitutes the refereed proceedings of the 11th International Tbilisi Symposium on Logic Language and Computation TbiLLC 2015 held in Tbilisi Georgia in September 2015 The 18 papers in this book were selected from the invited submissions of full revised versions of the 37 short papers presented at the conference and one invited talk Each paper has passed through a rigorous peer review process before being accepted for publication The biennial conference series and the proceedings are representative of the aims of the organizing institutes to promote the integrated study of logic information and language The scientific program consisted of tutorials invited lectures contributed talks and two workshops

Afrikaans Linguistics WAM Carstens,Nerina Bosman,2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics Afrikaans Linguistics Contemporary Perspectives marks a seminal contribution to the field

This volume for the first time presents accessible insights into diverse linguistics subdisciplines inviting international scholars to familiarise themselves with Afrikaans language studies Throughout much of the late 19th and 20th centuries Afrikaans scholars predominantly communicated in Afrikaans resulting in a significant gap in the dissemination of knowledge about the language The chapters in this book written by prominent South Africans as well as international scholars working in the field of Afrikaans serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century The primary focus remains on illuminating 21st century research trajectories offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics *The Composition of Meaning* Alice ter Meulen,Werner Abraham,2004-10-31 In the modular design of generative theory the syntax semantics interface has accounted all along for meanings at the level of Logical Form The syntax pragmatics interface on the other hand is the result of what one may call the pragmatic turn in the linguistic theory where content is partitioned into given and new information In other words the structural division of the clause has been subjected to criteria of information or discourse structure Both interfaces require a structurally descriptive inventory whose specific shapes can be motivated on theory internal grounds only The present collection of original articles develops the concept of these interfaces further The papers in the first section focus on the syntax semantics interface those in the second section on the syntax pragmatics interface **Word Order Change in Acquisition and Language Contact** Bettelou Los,Pieter de Haan,2017-12-14 The case studies in this volume offer new insights into word order change As is now becoming increasingly clear word order variation rarely attracts social values in the way that phonological variants do Instead speakers tend to attach discourse or information structural functions to any word order variation they encounter in their input either in the process of first language acquisition or in situations of language or dialect contact In second language acquisition fine tuning information structural constraints appears to be the last hurdle that has to be overcome by advanced learners The papers in this volume focus on word order phenomena in the history of English as well as in related languages like Norwegian and Dutch based creoles and in Romance **York Papers in Linguistics** ,1989 **Assessing Academic Literacy in a Multilingual Society** Albert Weideman,John Read,Theo du Plessis,2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a

wider international audience   **Triggers** Anne Breitbarth,Henk van Riemsdijk,2008-08-22 The concept of trigger is a core concept of Chomsky s Minimalist Program The idea that certain types of movement are triggered by some property of the target position is at least as old as the notion that the movement of noun phrases to the subject position is triggered by their need to receive nominative case In more recent versions of syntactic theory triggering mechanisms are thought to regulate all of movement Furthermore a quite narrow range of triggering mechanisms is permitted As is to be expected such a restrictive approach meets a variety of difficulties Specifically the question is whether all triggering elements required to cover displacement of all kinds in natural language can be independently motivated Further how can a trigger theory which crucially relies on the idea that all movement is obligatory deal with apparently optional movement processes Are features an adequate means to express the triggering function in all cases More radically are all movement phenomena really the result of the checking of trigger features And what about apparent triggering factors that are external to syntax such as prosody can they be captured in a rigid trigger theory In other words could certain aspects of triggered movement be due to interface conditions Such is the range of questions addressed by the fourteen contributions to this book They cover a considerable range of languages including Afrikaans Breton Bulgarian Dutch English French German Gungbe Hungarian Italian Japanese Kiswahili Romanian These papers present materials both empirical and theoretical that will not fail to have considerable impact on the further development of the concept of trigger in syntactic theory   **ITNG 2024: 21st International Conference on Information Technology-New Generations** Shahram Latifi,2024-07-08 This volume represents the 21st International Conference on Information Technology New Generations ITNG 2024 ITNG is an annual event focusing on state of the art technologies pertaining to digital information and communications The applications of advanced information technology to such domains as astronomy biology education geosciences security and health care are the among topics of relevance to ITNG Visionary ideas theoretical and experimental results as well as prototypes designs and tools that help the information readily flow to the user are of special interest Machine Learning Robotics High Performance Computing and Innovative Methods of Computing are examples of related topics The conference features keynote speakers a best student award poster award service award a technical open panel and workshops exhibits from industry government and academia This publication is unique as it captures modern trends in IT with a balance of theoretical and experimental work Most other work focus either on theoretical or experimental but not both Accordingly we do not know of any competitive literature   Political Identity and Social Change Jamie Frueh,2012-02-01 Political Identity and Social Change builds upon the constructivist theory of political identity to explore the social changes that accompanied the end of apartheid in South Africa To gain a better understanding of how structures of identity changed along with the rest of South Africa s institutions Frueh analyzes three social and political conflicts the Soweto uprisings of 1976 the reformist constitutional debates of 1983 1984 and post apartheid crime Analyzing these conflicts demonstrates how identity labels function as structures of social discourse

how social activity is organized through these structures and how both the labels and their power have changed during the course of South Africa s transition In this way the book contributes not only to the study of South African society but also provides lessons about the relationship between identity and social change **Theory and description in African Linguistics** Emily Clem , Peter Jenks , Hannah Sande ,2019 The papers in this volume were presented at the 47th Annual Conference on African Linguistics at UC Berkeley in 2016 The papers offer new descriptions of African languages and propose novel theoretical analyses of them The contributions span topics in phonetics phonology syntax semantics and pragmatics and reflect the typological and genetic diversity of languages in Africa Four papers in the volume examine Areal Features and Linguistic Reconstruction in Africa and were presented at a special workshop on this topic held alongside the general session of ACAL *Ports & Cities of the World* W. H. Morton Cameron,1926 **Papers** Kroeber Anthropological Society,1962 *Innovations in E-learning, Instruction Technology, Assessment and Engineering Education* Magued Iskander,2007-09-04 This book includes a set of rigorously reviewed world class manuscripts addressing and detailing state of the art research projects in the areas of Engineering Education Instructional Technology Assessment and E learning The book presents selected papers form the conference proceedings of the International Conference on Engineering Education Instructional Technology Assessment and E learning EIAE 2006 All aspects of the conference were managed on line

Remnant Movement Günther Grewendorf,2015-04-24 This book addresses two crucial problems associated with the phenomenon of Remnant Movement First what evidence can be brought to bear in favor of or opposing Remnant Movement analyses of linguistic phenomena Secondly what does the presence or absence of Remnant Movement in the syntax tell us about constraints imposed by Universal Grammar on syntactic operations Pathways in Theology Piet Naud,,2015-05-01 This volume exhibits the engaging and challenging work of public and ecumenical theologian Piet Naud The collection of 26 essays written over three decades constitutes an important contribution to public theology by critically and creatively evaluating diverse pathways through the landscape of Ecumenical African and Reformed theologies **Resources in Education** ,1998 *Youth and Popular Culture in Africa* Paul Ugor,2021 The edited collection focuses on the links between young people and African popular culture It explores popular culture produced and consumed by young people in contemporary Africa And by culture we mean all kinds of texts or representations visual oral written performative fictional social and virtual created by African youth mostly about their lives and their immediate societies and for themselves but also consumed by the larger public and shared locally and globally We proceed from the premise that cultural texts not only function as social facts as Karin Barber argues but that they double as commentaries upon and interpretations of social facts They are part of social reality but they also take up an attitude to social reality 2007 04 So the work focuses specifically on what African youth produce as popular culture under what conditions or contexts they produce such work how they produce those texts why they produce them the aesthetic dimensions of these texts as cultural artifacts and why these textual

practices matter as social facts as interpretive acts and as cultural symbols of the general cultural activism of young people in a rapidly changing world a world where the global cultural economy is the prime terrain for the relentless struggles over the meanings that come to shape political economic and social systems
