character analysis degree of difficulty rating and complete production and director's notes Grades 9-12 *60-SECOND SWEAT* PATRICK STRIET, 2016-12-27 The 60 Second Sweat combines hot fitness trends High Intensity Interval Training HIIT and Metabolic Resistance Training MRT into a single efficient and effective training program with each exercise requiring no more than 1 minute at a time There are literally thousands of fitness programs out there to choose from What makes the 60 Second Sweat different For the past 15 years Patrick Striet has run a fitness training facility in Cincinnati Ohio where he has worked with hundreds of every day men and women working moms college students senior citizens middle aged men and more plus a few elite athletes Through this experience he has identified the barriers most people face when it comes to exercising consistently lack of time lack of results injuries boredom and specifically designed the 60 Second Sweat to address them The 60 Second Sweat is Efficient Most mainstream fitness programs call for a 5 to 6 day per week commitment with workouts ranging up to an hour or more in duration What's more most programs focus on one component of fitness in each workout For example you might do cardiovascular exercises for 45 minutes on Monday Wednesday and Friday and then strength train for an hour on Tuesday Thursday and Saturday Who has time for that Not me and probably not you either With the 60 Second Sweat you'll work out between 20 to 40 minutes a day for 3 to 4 days a week and you will never be performing the same exercise or activity for more than 1 minute at a time Effective HIIT high intensity interval training in which you alternate between bouts of intense exercise and short rest periods has been a growing fitness trend for several years now and for good reason Research has shown that it's more effective than traditional steady state workouts for both building cardiovascular fitness and shedding fat However it neglects muscular fitness which is key for boosting metabolism So the 60 Second Sweat combines HIIT with MRT metabolic resistance training to build strength along with cardiovascular fitness in one comprehensive workout Safe Keeping in mind the typical orthopedic issues most real world adults face cranky knees aching backs stiff shoulders and sore necks the 60 Second Sweat gives equal weight to every muscle group and not just the showy mirror muscles emphasized by many fitness programs Exercises progress gradually in difficulty and intensity so that you start seeing results right away building from a beginner level to advanced in just 9 weeks Varied The 60 Second Sweat is a balanced and functional movement based plan requiring basic and fundamental human movement patterns performed with bare bones equipment During the 60 Second Sweat workouts you will never be performing the same exercise or activity for more than 1 minute so you will never get bored Every exercise set rep every minute will count for and towards something developing the best and fittest you Bottom line the days of inefficient archaic time consuming unsafe and impractical fitness workouts are over Based on the most up to date principles in modern exercise science the 60 Second Sweat is a program not just a workout It is not a short term fix but rather a roadmap to the fittest most confident you While the 60 Second Sweat workouts will certainly challenge you and leave you dripping in sweat that's not the end goal The purpose of the programs in this book is for you to attain phenomenal and sustainable fitness safely and realistically 1 minute at a time **Shane**
