Lewis, 2012-09-25 This book is a self help book for men but women will probably read it too Women are so smart they want to know whatever they can about themselves But this piece is written in a simple and easy format No big words It is my hope that this book helps a man to better be able to know what his woman wants By him knowing what his woman wants he can provide it for her or at least understand why she wants it **What Women**

Want Kimberly Ervin Alexander, James P. Bowers, 2018-09-27 Pentecostal women ministers have been silenced in official conversations about their place in church leadership What do women ministers believe about family life Have they been influenced by liberal feminism Do they really want to be equal ministry leaders with men What Women Want answers these questions in a first ever empirical study that paints a portrait of what it s like to be a Pentecostal woman minister **What**

Women Want Geoff Dench, 2017-09-29 Over the last few decades families in many highly developed nations such as Great Britain have been held together by grandparents Yet as single motherhood spreads into this generation extended families without men or work are becoming more common The proportion of single mothers with daughters who are also state dependent single mothers is growing The British underclass has arrived Women who can see this happening around them and understand its roots are the ones most able to revive traditional values but policymakers are looking the other way This fuels alienation from mainstream political parties What Women Want argues that sociology and social policy in Britain have failed to recognize how women s orientation to paid work and a career remains different from men s Most women now have paid jobs but the happiest are those working only part time with plenty of time to enjoy motherhood and being a homemaker A revised sexual division of labor has emerged and the author argues that denial of this in Britain may be contributing to the breakdown of family life A working male partner is a major factor in making women happy The least content are single mothers dependent on state welfare who know that the state expects them to repay its support by becoming full time workers when their children reach a certain age Many single mothers may be victims of policies prioritizing work for women Single motherhood has grown alongside male male breadwinners This is a new edition of a book previously distributed only in the United Kingdom

What Women Want Deborah L. Rhode, 2014-08-01 What Women Want is a trenchant examination of the struggle for women s equality and a prescription for what to focus on next in order to ensure maximum success Feminism today is a movement that lacks leadership unity and definition and it has gotten stuck in a boom and bust cycle when it comes to public opinion and action Despite significant progress over the last fifty years equality is still a distant goal in the political social and economic spheres Only by identifying the barriers both internal and external that remain Deborah Rhode argues can we begin to identify solutions A rigorously researched and well written answer to the glut of gender related books that have come onto the market recently What Women Want comprehensively analyzes the challenges the feminist movement faces today Combining sharp academic analysis and interviews with notable figures such as Sheryl Sandberg Rhode focuses

on five main topics employment issues such as pay discrimination work life balance and the government's pitiful response the assault on women's reproductive rights and the limits it places on their economic mobility sexual harassment and violence and the detrimental effect that the unfashionable label feminist can have especially in attracting young women to the movement Despite these formidable obstacles the goals and principles of feminism are widely accepted by the American mainstream and Rhonda herself a pathbreaker in the fields of law and education offers effective strategies for redefining and advancing the feminist agenda thereby creating a movement that truly recognizes and is responsive to what all women want
