

Disintermediation In The First Google Era

In the first Google era (1998-2018), the "everything search engine" enabled the birth of vertical search engines, able to give a more specific experience on several verticals (like travel). Where Google could not cover the whole users' journey, those new digital intermediaries became multi-billion companies (and key customers buying paid traffic from Google).

Marketing Technology as a Service Laurie Young, Bev Burgess, 2010-05-24 Despite the fact that vast engineering networks are the foundations of modern society the services that technology companies provide over them have been a

relatively neglected area of study As a result marketing in some technology businesses has been depressingly tactical and inconsistent Marketers with little experience and even less professional training run around presenting PowerPoint decks to each other chasing after the latest fad and throwing erratic changing activities at the market each quarter Many work on the unchallenged assumption that markets are fast changing and that customers only want the lowest prices Yet this industry has liberated human imagination in the internet and convinced the world that they must have a PC and a mobile phone Now as a result of profound relentless global forces some of the leading firms and greatest minds in it are at last turning their attention to service With the advent of cloud computing and radical changes in the engineering of some utilities the marketing of services that are based on a technical infrastructure is about to become as important and sophisticated as in say consumer products This book explores their story and experience I really enjoyed the book From Products to Services by Mr Laurie Young Encouraged by it Haier accelerated its changeover from a traditional product driven to a more customer centric company This new book Marketing Technology as a Service is another major contribution to technology companies for the cultivation of service needs worldwide Mr Zhang Ruimin CEO and Chairman Haier Group Beijing Young and Burgess describe a shift in mindset and pragmatic techniques that are quite doable Rae Sedel MD Global Technology Practice Russell Reynolds Associates This book provides practical and insightful advice on how to use services to turn technology into value add solutions for real people Rudy Provoost CEO Philips Lighting Business leaders in India have been remarkably successful at offering technology based services like outsourcing across the world Currently worth 60 billion they intend to reach 300 billion by 2020 To succeed the Indian business community must offer new value propositions and adapt to emerging trends like cloud computing Burgess and Young have put together the first comprehensive and practical guide for business leaders to meet their challenges of exponential growth Dr Mukesh Aghi Chairman and CEO Steria India **CIO** ,2004-05-01

International Business Janet Morrison,2017-09-16 Clear comprehensive and engaging this core textbook is authored by an established and respected expert in the field and approaches its subject from a truly global perspective offering in depth insights into current challenges facing international businesses The text has been carefully designed to encourage critical reflection and is packed with case studies and innovative learning features to emphasise the links between theory and the real world The book takes a multidisciplinary multi perspective approach placing International Business in its political social and ethical context as well as its economic one This textbook is essential reading for undergraduate postgraduate and MBA students studying international business for the first time *Engaging the Gadfly* Casey T. Sigmon,2025-06-09 In 2020 most preachers and congregations were forced into online and hybrid preaching We had to react quickly For some this adventure opened creative forms of preaching stitches duets reels and VR For others it was a season of just getting by cell phones propped up on books laptops on dining room tables We did what we could to proclaim the good news in turbulent times Five years later Sigmon invites preachers and congregations to reflect on those experiences as they consider the future of

preaching She helps the reader engage the Gadfly whose buzzing signals a shift in how we understand relationships truth presence and place in this digital age Sociologists and historians argue that we are now on the brink of a shift in communication as transformative as the invention of the printing press No wonder ministry is so challenging right now Ultimately this digital age like previous ages of technological change presents problems and possibilities to the practice of preaching and so ecclesiologically the shape of the church What shapes will emerge Sigmon will empower preachers and congregations to answer that question for themselves through a new media homilecclesiology **The Art of**

Compassionate Business Bruno R. Cignacco, 2023-12-01 There are several well ingrained assumptions regarding the dynamics of work and business activities which can be refuted Some examples of these widespread assumptions in business and work environments are employees being viewed as commodities competitors perceived as threats companies resources seen as limited and customers perceived as scarce and difficult All this leads to the question Is there a way to perform business activities more humanely The second edition of this book challenges the reader to change the way they perform in business situations and become more focused on the human aspects of business activities The users of this knowledge and those affected by them will undergo a profound transformation in the way they perform business activities They will benefit from gradually testing and implementing the guidelines conveyed in this book both in the business environment and in the workplace When readers put these principles into practice positive ripple effects are bound to affect other stakeholders of the organisation they work for or own The author has refreshed all the concepts and examples introduced in the first edition which include aspects related to mission and vision passion business mindset organisational learning improvement of business conversations use of constructive criticism and betterment of relationships with the most relevant stakeholders customers suppliers intermediaries community employees etc The author also includes a discussion of creativity and the innovation process as well as other relevant aspects related to a healthy business environment and provides various real life examples of companies which have adopted a loving attitude towards their stakeholders which has become so important in the current business environment
