an optimal balance of scholarship and teachability never losing sight of either the science or the student The first introductory text to present biological concepts through the research that revealed them Life covers the full range of topics with an integrated experimental focus that flows naturally from the narrative This approach helps to bring the drama of classic and cutting edge research to the classroom but always in the context of reinforcing core ideas and the innovative scientific thinking behind them Students will experience biology not just as a litany of facts or a highlight reel of experiments but as a rich coherent discipline

The Social Life of a Herstory Textbook Massilia Ourabah,2020-05-22 This book studies the possibility for feminist educational change by examining a case study on the social life of a French gender and women history textbook Massilia Ourabah opens a unique and timely dialogue between two antagonistic sociological trends institutionalism and actor network theory ANT and more specifically the inhabited institution approach and the sociology of translation The structure of the book is dual it offers one version of the case study grounded in the institutionalist approach and another version grounded in the translational approach The goal is to show that through the introduction of institutional elements and the rejection of some of ANT s strongest assumptions the critical value of ANT can be restored and prove a useful framework for studying sociomaterial networks in education The book also engages with feminist pedagogy and discusses the implications of the case study for the prospect of a more gender balanced educational curriculum *The Book of Life* Newton Marshall Hall,Irving Francis Wood,1925
