**Changing Attitudes and Behavior** John Jensen,2012-07-20 Changing Attitudes and Behavior Practice Makes Permanent the second of the Practice Makes Permanent series argues that school performance is directly correlated to student motivation If school administrators and teachers adopt Jensen s easy direct and effective ways to help students manage their feelings and focus their attention the results will be two fold schools will foster a cooperative and high performing learning community and students will succeed academically while also mastering important social skills To do so both schools and students must make permanent learning their first priority rather than temporary superficial knowledge so that students can take pride in and ownership of their achievements in the classroom Maintaining this standard will require educators to build learning activities systematically they must understand record organize and deepen knowledge It will also require that they know simple and direct ways to change and improve the thinking that drives students behavior in addition to the points of leverage available to teachers when redirecting even the most distracted or distracting students Although identifying and modifying behavior patterns can be
