When Are 2014 Fcat Scores Released:

The Power of Story Joan Wink Ph.D., 2017-11-07 Through this book readers will discover that stories can move the human heart and head in ways that research cannot. Stories bring together readers, writers, librarians, teachers, students, and families in the libraries of today and will continue to do so tomorrow. Written for all those lovers of literacy, this book links libraries and literacies through the power of stories. The book is not filled with data in the form of pie charts, graphs, and tables. Rather, the truth of the research is grounded in authentic stories that reflect not only the interpretation of data but also the transformative nature of literacies and libraries. The author's primary goal is that readers will come to value and use storytelling in their own professional and personal lives to explain and expand on complex concepts and to make information more accessible for all. The book begins by presenting anecdotes and the author's personal story to lay the foundation for what literacies are and what literacy is not. An activity, *Spiral of Literacy*, allows readers to reflect on their own literacies. Chapters that follow each begin with a story that sets the theoretical foundation. Each chapter concludes with an action section that demonstrates how to turn theory to practice, whether you are in a library, a classroom, or at home. A final chapter envisions what libraries might look like in 10 years through interviews with librarians, teachers, and others interested in literacy.

A Chronicle of Echoes Mercedes K. Schneider, 2014-04-01 Corporate reform is not reform at all. Instead, it is the systematic destruction of the foundational American institution of public education. The primary motivation behind this destruction is greed. Public education in America is worth almost a trillion dollars a year. Whereas American public education is a democratic institution, its destruction is being choreographed by a few wealthy, well-positioned individuals and organizations. This book investigates and exposes the handful of people and institutions that are often working together to become the driving force behind destroying the community public school.

Charter School Report Card Shawgi Tell, 2016-04-01 What is a charter school? Where do they come from? Who promotes them and why? What are they supposed to do? Are they the silver bullet to the ills plaguing the American public education system? This book provides a comprehensive and accessible overview and analysis of charter schools and their many dimensions. It shows that charter schools, as a whole, lower the quality of education through the privatization and marketization of education. The final chapter provides readers with a way toward rethinking and remaking education in a way that is consistent with modern requirements. Society and its members need a fully funded, high-quality public education system open to all and controlled by a public authority.

Misguided Education Reform Nancy E. Bailey, 2013-07-29 *Misguided Education Reform: Debating the Impact on Students* argues for reforms that will help, not hurt, America's public school students. Early childhood education, testing, reading, special education, discipline, loss of the arts, and school facilities are all areas experiencing reform in the wrong direction. This book says no to the reforms that fail and challenges Americans to address the real student needs that will fix public schools and make America strong.
