2014: The Year of Action Bepty Antoine,2018-05-24 2014 The Year of Action By Bepty Antoine 2014 The Year of Action is a broad ranging compendium of the events conflicts and progress recently seen throughout the world Written from the perspective of an immigrant with a particular heart for the poor this unique tome focuses on the influential work of two world leaders United States President Barack Obama and Pope Francis Bepty Antoine utilizes historical and cultural knowledge to frame events within a larger context presenting the actions both men have taken to further social justice issues often connecting these concerns to environmental crises Drawing on the tenants of their Christian faith both the President and the Pope have sought to defend immigrants refugees and the global poor and their efforts often in the face of extreme opposition are carefully detailed and celebrated 2014 The Year of Action focuses on the impressive achievements of two modern heroes and places their struggles for progress within the wider context of current events and popular culture **Future Histories**

Lizzie O'Shea,2019-05-14 The key to understanding technology lies not in the future but in the past That s the contention of Lizzie O Shea s Future Histories a grand tour through past and present to explore the practical and sometimes revolutionary possibilities of our digital age Searching for new ways to think about our networked world O Shea asks what the Paris Commune can tell us about the ethics of the Internet and finds inspiration in the revolutionary works of Thomas Paine and Frantz Fanon She examines Elon Musk s futuristic visions only to find them mired in a musty Victorian era utopianism Instead of current day capitalist visionaries O Shea returns us to the Romantic age of wonder when art and science were as yet undivided narrating the collaboration between Ada Lovelace the brilliant daughter of Lord and Lady Byron and polymath Charles Babbage who together designed the world s first computer In our brave new world of increased surveillance biased algorithms and fears of job automation O Shea weaves a usable past we can employ in the service of emancipating our digital tomorrows **Remnant Christianity in a Post-Christian World**

W. Paul Jones,2021-11-03 The contemporary Christian church is in critical decline both in membership and finances All attempts at reversal are failing primarily because of the consuming socioeconomic secular dynamic in which society is immersed in its self destructive course Consequently Christian imagery is losing its conceivability and credibility and past motivations that once encouraged belief have lost their appeal Without these as points of contact the demise of the institutional church will be relentless despite all efforts to halt it Yet as at other crisis points in history the divine promise has been to raise a faithful remnant with sufficient promise to outlast whatever the societal demise After carefully analyzing the ingredients of our societal crisis the author develops the contours of a Remnant Church to be set in place now within the present institutional churches This necessitates distilling a vital spirituality and discerning the heart of a preservable tradition sufficient to claim both personal and communal commitment Thereby prepared for the long haul the Remnant Church can emerge as a prophetic alternative **Computer Security -**

MacLeod, 2019-04-24 *Propaganda in the Information Age* is a collaborative volume which updates Herman and Chomsky's propaganda model for the twenty first century media landscape and makes the case for the continuing relevance of their original ideas It includes an exclusive interview with Noam Chomsky himself 2018 marks 30 years since the publication of Edward Herman and Noam Chomsky's ground breaking book *Manufacturing Consent* which lifted the veil over how the mass media operate The book's model presented five filters which all potentially newsworthy events must pass through before they reach our TV screens smartphones or newspapers In *Propaganda in the Information Age* many of the world's leading media scholars analysts and journalists use this model to explore the modern media world covering some of the most pressing contemporary topics such as fake news Cambridge Analytica the Syrian Civil War and Russiagate The collection also acknowledges that in an increasingly globalized world our media is increasingly globalized as well with chapters exploring both Indian and African media For students of Media Studies Journalism Communication and Sociology *Propaganda in the Information Age* offers a fascinating introduction to the propaganda model and how it can be applied to our understanding not only of how media functions in corporate America but across the world in the twenty first century *The Private is Political* Alice E. Marwick, 2023-01-01 A compelling firsthand investigation of how social media and big data have amplified the close relationship between privacy and inequality Online privacy is under constant attack by social media and big data technologies But we cannot rely on individual actions to remedy this it is a matter of social justice Alice E Marwick offers a new way of understanding how privacy is jeopardized particularly for marginalized and disadvantaged communities including immigrants the poor people of color LGBTQ populations and victims of online harassment Marwick shows that there are few resources or regulations for preventing personal information from spreading on the internet Through a new theory of networked privacy she reveals how current legal and technological frameworks are woefully inadequate in addressing issues of privacy often by design Drawing from interviews and focus groups encompassing a diverse group of Americans Marwick shows that even heavy social media users care deeply about privacy and engage in extensive privacy work to protect it But people are up against the violation machine of the modern internet Safeguarding privacy must happen at the collective level
