A Bibliography of Modern Arthuriana (1500-2000) Ann F. Howey, Stephen Ray Reimer, 2006. Annotated bibliography of the Arthurian legend in modern English language fiction not only in literary texts but in television, music, and art. The legend of Arthur has been a source of fascination for writers and artists in English since the fifteenth century when Thomas Malory drew together for the first time in English a variety of Arthurian stories from a number of sources to form the *Morte d'Arthur*. It increased in popularity during the Victorian era when after Tennyson's treatment of the legend not only authors and dramatists but painters, musicians, and film makers found a source of inspiration in the Arthurian material. This interdisciplinary annotated bibliography lists the Arthurian legend in modern English language fiction from 1500 to 2000 including literary texts, film, television, music, visual art, and games. It will prove an invaluable source of reference for students of literary and visual arts, general readers, collectors, librarians, and cultural historians indeed by anyone interested in the history of the ways in which Camelot has figured in post-medieval English speaking cultures. ANN F. HOWEY is Assistant Professor at Brock University, Canada. STEPHEN R. REIMER is Associate Professor at the University of Alberta, Canada.

Educate the Heart Jennifer Lee Quattrucci, 2019-08-21. In a world where children are rushed from place to place often on devices, teachers need to create an environment where they are given time and allowed to focus to think, to create, and to learn. This book provides over 100 screen-free ideas and activities to help teachers of students in pre-K to Grade 6 inspire authentic learning in their classroom. Teachers will learn how to promote peace all day by empowering students to handle conflict through kindness. They will see how effectively implementing collaborative work space can transform the classroom into a respectful learning community. There are literature-based lesson plans which cover a great variety of subjects and skills such as reading, writing, language arts, mathematical discourse, movement, and cooking. Teachers will find ways to engage students in collaborative work, critical thinking skills, and find out how to encourage innovative ways to solve problems through creativity with STEM challenges and meaningful curriculum-based art projects. Teachers will discover ways to build community with a growth mindset approach to classroom discipline. The ideas and activities in this book are designed with the whole child in mind, catering to providing the best possible environment and activities to allow students to feel valued and be nurtured in a way that inspires them to reach their true potential.
