them out of the academy Similar to trends in P 12 settings educators of color in postsecondary contexts represent less than 10% of the profession In essence we are an anomaly and the implications of this are clear and dire as evidenced by persistent achievement access and expectation gaps within the academy Scholars of color SOC at all stages but particularly during doctoral training frequently struggle to not just survive but to thrive in the academy Too many fail to earn their doctoral degree with many wearing the All But Dissertation ABD as a badge of honor Although ABD is not a degree many scholars of color receive inadequate mentoring often substandard in comparison to the hand holding White students receive which leaves far too many doctoral students of color lost bewildered angry indignant and defeated This righteous indignation is justified but excused away using the myth of meritocracy and colorblind notions of success followed by a myriad of problems steeped with victim blaming as noted in the classic Presumed Incompetent The Intersections of Race and Class for Women in Academia Gutierrez y Muhs Niemann Gonzalez Harris 2012 The aforementioned work was not the first treatise on higher education and how the non status quo along with those grappling with oppression and double standards experience the profession called higher education Moreover The Chilly Climate Sandler Silverberg Hall 1996 report which focused on females was also telling but not enough was addressed and disclosed about females of color until version two But these issues do not stop with females of color but instead extend to all faculty of color R A C E Mentoring a social media Facebook group with several subgroups see Figures 1 and 2 was created by Donna Y Ford Michelle Trotman Scott and Malik S Henfield in 2013 to tackle the numerous thorny and contentious issues and challenges in higher education We began by intentionally attending to the needs of students enrolled at mostly White universities as well as those who attended historically Black colleges and universities while keeping the unique nuances and challenges of each setting in mind We wanted scholars of color to thrive in both Fondly and affectionately called RM our charge and challenge is to affirm the dignity and worth of scholars of color Additionally we recognize that there are scholars outside of academe and their contributions as well to impact and affect change for Black and Brown people inside and outside of academe need to be acknowledged These scholars are community organizers activists P 12 teachers and families It truly takes a village
