and demonstrate findings and reflections on emerging trends pedagogical innovations and research informed practices on ICT integration in STEM education Offering cutting edge research on STEM and digital education in Africa the book will appeal to researchers postgraduate students and scholars in the fields of STEM education ICT education digital education and pedagogy

The African Mother Tongue and Mathematical Ideas Abdul Karim Bangura, 2020-06-02 This book by renowned scholar Dr Abdul Karim Bangura combines linguistics and mathematics to show how and why African centred mathematical ideas can be a driving force in Africa's development efforts Bangura explores the concept that Africa has been the centre of the History of Mathematics for thousands of years as the civilizations that emerged across the continent developed contributions which would enrich both ancient and modern understanding of nature through mathematics However scholars and other professionals working in the field of mathematics education in Africa have identified a plethora of issues in carrying out their tasks This is highlighted by one of the most compelling arguments in the book which is that a major reason for these problems is the fact that the African mother tongues has been greatly neglected in the teaching of mathematics in the continent Bangura asserts that a change has to be made in order for Africa to benefit from the exceptional opportunities mathematics offer showing that even if there is a great body of work connecting linguistics and mathematics few analyses have been performed on the link between African languages and mathematics and the ones that have been made are not theoretically grounded on linguistics Thus the book begins by identifying the objects of study of linguistics and mathematics and delineates which ones they have in common Next since the object of study of linguistics is language the nine design features of language are employed to examine each of the objects as it pertains to African languages After that mathematical ideas of sustainability and those of tipping points are suggested as means to help Africa's development efforts

Social Computing, Behavioral-Cultural Modeling and Prediction William G. Kennedy, Nitin Agarwal, Shanchieh Jay Yang, 2014-03-14 This book constitutes the refereed proceedings of the 7th International Conference on Social Computing Behavioral Cultural Modeling and Prediction SBP 2014 held in Washington DC USA in April 2014 The 51 full papers presented were carefully reviewed and selected from 101 submissions The SBP conference provides a forum for researchers and practitioners from academia industry and government agencies to exchange ideas on current challenges in social computing behavioral cultural modeling and prediction and on state of the art methods and best practices being adopted to tackle these challenges The topical areas addressed by the papers are social and behavioral sciences health sciences military science and information science

Handbook of Research on Politics in the Computer Age Solo, Ashu M. G., 2019-08-30 Technology and particularly the Internet have caused many changes in the realm of politics Aspects of engineering computer science mathematics or natural science can be applied to politics Politicians and candidates use their own websites and social network profiles to get their message out Revolutions in many countries in the Middle East and North Africa have started in large part due to social networking websites such as Facebook and Twitter Social networking

has also played a role in protests and riots in numerous countries The mainstream media no longer has a monopoly on political commentary as anybody can set up a blog or post a video online Now political activists can network together online The Handbook of Research on Politics in the Computer Age is a pivotal reference source that serves to increase the understanding of methods for politics in the computer age the effectiveness of these methods and tools for analyzing these methods The book includes research chapters on different aspects of politics with information technology engineering computer science or math from 27 researchers at 20 universities and research organizations in Belgium Brazil Cape Verde Egypt Finland France Hungary Italy Mexico Nigeria Norway Portugal and the United States of America Highlighting topics such as online campaigning and fake news the prospective audience includes but is not limited to researchers political and public policy analysts political scientists engineers computer scientists political campaign managers and staff politicians and their staff political operatives professors students and individuals working in the fields of politics e politics e government new media and communication studies and Internet marketing

Research Anthology on Inclusive Practices for Educators and Administrators in Special Education Management Association, Information Resources, 2021-09-24 Inclusion in the classroom is a growing phenomenon that covers a range of areas and subjects with prominent discussions about race gender sexual orientation and age today s world is increasingly focused on making sure education is designed so everyone can succeed Inclusivity in special education is particularly important as special education covers a wide range of students including those with physical intellectual and behavioral disabilities As more research and information surrounding best practices new technologies and teacher education for special education is considered it is imperative that teachers and administrators remain up to date on these innovative techniques The Research Anthology on Inclusive Practices for Educators and Administrators in Special Education is a critical reference source that includes abundant research on all aspects of inclusion in special education as well as the latest trends research and studies to provide a comprehensive look at the current state of special education Covering topics such as accessibility educational models teacher training and assistive technologies it is ideal for special education teachers academicians in service teachers pre service teachers professors students researchers professionals administrators curriculum developers instructional designers and policymakers

Education Sector Plans and their Implementation in Developing Countries Roy Carr-Hill, 2023-03-09 This book examines the factors affecting the successful implementation of Education Sector Plans in developing countries It provides a detailed comparison that draws on data from 27 countries to offer careful research conclusions and policy recommendations Offering a detailed comparison of the schooling situation e g availability of potable water and toilets provision for the disabled as well as educational outcomes both test scores and percentages out of school from the 27 countries using empirical evidence the book examines the resources that have been invested in different education sectors investigating the development and success of each plan The volume uses correlation analysis to compare factors including the availability of

government funding national characteristics ministerial decisions influences of country and donor stakeholders as well as district and school level issues Thorough comparative analysis of the data is then demonstrated with two measures of achievements to identify which factors can be considered as the most important in order to reach realistic policy and research conclusions Timely and engaging this book will be of great interest to researchers scholars and postgraduate students in the field of education and international development comparative education and international education more broadly ICT-Supported Innovations in Small Countries and Developing Regions Ian A. Lubin, 2017-10-11 This timely analysis brings greater clarity to the question of how ICT supported innovations are experienced in small low to middle income countries and developing regions with implications for international education and development By bringing together a group of international technologists researchers and scholars this book explores the building of local capacity for educational technology policy and application in such regions and ably links theory to practice to illuminate how the issues at hand play out in professional practice The volume offers itself as an invaluable resource by offering a salient assessment of the existent methodological and ecological challenges and constraints in developing implementing and evaluating technology and technology research while simultaneously providing recommendations and strategy for future policy and implementation Among the topics covered The research agenda for technology education and development ICT curriculum planning and development policy and implementation lessons from small developing states New challenges for ICT in education policies in developing countries Playful partnerships for game based learning in international contexts Addressing persistent ICT in education challenges in small developing countries ICT Supported Innovations in Small Countries and Developing Regions is of significant interest to educational technology researchers policymakers and officials with influence over resource allocation and implementation of technology innovations It is also relevant to administrators teachers instructional designers and technology evaluators interested in advancing educational communications and technology in public and private settings
