Zimsec O Level Geography Paper :

Education and Development in Zimbabwe Edward Shizha, Michael T. Kariwo, 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe. It challenges scholars to think about the role of education, its funding, and the egalitarian approach to widening access to education. The nexus between education, democracy, and policy change is a complex one. The book provides an illuminating account of the constantly evolving notions of national identity, language, and citizenship from the Zimbabwean experience. The book discusses educational successes and challenges by examining the ideological effects of social, political, and economic considerations on Zimbabwe's colonial and postcolonial education. Currently, literature on current educational challenges in Zimbabwe is lacking, and there is very little published material on these ideological effects on educational development in Zimbabwe. This book is likely to be one of the first on the impact of social, political, and economic meltdown on education. The book is targeted at local and international academics and scholars of history of education and comparative education, scholars of international education and development, undergraduate and graduate students, and professors who are interested in educational development in Africa, particularly Zimbabwe. Notwithstanding, the book is a valuable resource to policy makers, educational administrators, and researchers, and the wider community. Shizha and Kariwo's book is an important and illuminating addition on the effects of social, political, and economic trajectories on education and development in Zimbabwe. It critically analyses the crucial specifics of the Zimbabwean situation by providing an in-depth discourse on education at this historical juncture. The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries. Rosemary Gordon, Senior Lecturer in Educational Foundations, University of Zimbabwe. Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis, covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching, this text provides a comprehensive, wide-ranging and yet carefully detailed account of education in Zimbabwe. This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe's education specifically but more widely to all who are interested in how the sociopolitical shapes education, how ideology, policy, international pressures, economic factors, and shifts in values collectively forge the historical and contemporary character of a country's education. Handel Kashope Wright, Professor of Education, University of British Columbia.

Introduction to Zimbabwe Gilad James, PhD, Zimbabwe is a landlocked country in southern Africa, bordered by South Africa to the south, Botswana to the west, Zambia to the north, and Mozambique to the east. The country has a population of approximately 14.4 million people, with the majority living in rural areas. Zimbabwe gained its independence from British colonial rule in 1980 and has been governed by the Zimbabwe African National Union Patriotic Front (ZANU PF) since then.

Zimbabwe's economy has faced many challenges in recent years including hyperinflation a shortage of foreign currency and political instability Agriculture is the largest sector of the economy with the majority of the population engaged in subsistence farming The country is also rich in minerals such as gold platinum and diamonds Despite its economic struggles Zimbabwe remains a popular tourist destination known for its wildlife natural beauty and historical landmarks such as Great Zimbabwe a 15th century stone city that is now a UNESCO World Heritage site *Zimbabwe Books in Print* ,1993

Geographical Education in a Changing World John Lidstone,Michael Williams,2006-07-19 This book results from the work of the Commission on Geographical Education of the International Geographical Union Part 1 focuses on the distinctive traditions of school geography Part 2 reviews the state of school geography on a broad continental basis including national case studies by local experts The final chapters extrapolate from the present and point to likely future developments in the subject again with examples drawn from various countries *Geographical Education Magazine* ,1996 **The Rough**

Guide to Zimbabwe Barbara McCrea,Tony Pinchuck,2000 This revised guide to Zimbabwe covers the game reserves national parks and wilderness areas There is coverage of the rock art literature history and music and a colour wildlife supplement In Botswana only the Okavanga Delta and Chobe National Park are covered *Teacher in Zimbabwe* ,2014

security and dispute resolution laws *Handbook Of Disaster Risk Reduction & Management: Climate Change And Natural Disasters* Christian N Madu,2017-07-25 Climate change is increasingly of great concern to the world community The earth has witnessed the buildup of greenhouse gases GHG in the atmosphere changes in biodiversity and more occurrences of natural disasters Recently scientists have begun to shift their emphasis away from curbing carbon dioxide emission to adapting to carbon dioxide emission The increase in natural disasters around the world is unprecedented in earth s history and these disasters are often associated to climate changes Many nations along the coastal lines are threatened by massive floods and tsunamis Earthquakes are increasing in intensity and erosion and droughts are problems in many parts of the developing countries This book is therefore to investigate ways to prepare and effectively manage these disasters and possibly reduce their impacts The focus is on mitigation strategies and policies that will help to reduce the impacts of natural disasters The book takes an in depth look at climate change and its association to socio economic development and cultures especially in vulnerable communities and investigates how communities can develop resilience to disasters A balanced and a multiple perspective approach to manage the risks associated with natural disasters is offered by engaging authors from the entire globe to proffer solutions *Handbook of Drought and Water Scarcity* Saeid Eslamian,Faezeh A. Eslamian,2017-09-01 This volume includes over 30 chapters written by experts from around the world It examines numerous management strategies for dealing with drought and scarcity These strategies include management approaches for different regions such as coastal urban rural and agricultural areas It offers multiple strategies for monitoring assessing and forecasting drought through the use of remote sensing and GIS tools It also presents drought mitigation management strategies such as groundwater management rainwater harvesting conservations practices and more **Bibliography on Land-Locked States** Martin Ira Glassner,2025-02-10 **Urban Food Systems Governance and Poverty in African Cities** Jane Battersby,Vanessa Watson,2018-08-22 As Africa urbanises and the focus of poverty shifts to urban centres there is an imperative to address poverty in African cities This is particularly the case in smaller cities which are often the most rapidly urbanising but the least able to cope with this growth This book argues that an examination of the food system and food security provides a valuable lens to interrogate urban poverty Chapters examine the linkages between poverty urban food systems and local governance with a focus on case studies from three smaller or secondary cities in Africa Kisumu Kenya Kitwe Zambia and Epworth Zimbabwe The book makes a wider contribution to debates on urban studies and urban governance in Africa through analysis of the causes and consequences of the paucity of urban scale data for decision makers and by presenting potential methodological innovations to address this paucity As the global development agenda is increasingly focusing on urban issues most notably the urban goal of the new Sustainable Development Goals and the New Urban Agenda the work is timely The Open Access version of this book available at <http://www.tandfebooks.com/doi/view/10.4324/9781315191195> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0
