Kracauer Jörg Später, 2020-06-11 Siegfried Kracauer was one of the most important German thinkers of the twentieth century His writings on Weimar culture mass society photography and film were groundbreaking and they anticipated many of the themes later developed members of the Frankfurt School and other cultural theorists No less remarkable were the circumstances under which he made these contributions After his early years as a journalist in Germany the rise of the Nazis forced Kracauer into exile first in Paris and then after a protracted flight via Marseilles and Lisbon to the United States The existential challenges personal losses and unrelenting hardship Kracauer faced during these years of exile formed the backdrop against which he offered his acute observations of modern life Jörg Später provides the first comprehensive biography of this extraordinary man Based on extensive archival research Später's biography expertly traces the key influences on Kracauer's intellectual development and presents his most important works and ideas with great clarity At the same time Später ably documents the intensity of Kracauer's personal relationships the trauma of his flight and exile and his embrace of his new homeland where finally the groundlessness of refugee existence gave way to a more stable life and with it some of the intellectually most fruitful years of Kracauer's career The result is a vivid portrait of a man driven both by an urge to capture reality to attend to the things that are overlooked or misjudged that still lack a name as he put it and by a need to find his place in a hostile threatening world

Dada Culture, 2016-08-01 How Dada is to break its cultural accommodation and containment today necessitates thinking the historical instances through revised application of critical and theoretical models The volume *Dada Culture Critical Texts on the Avant Garde* moves precisely by this motive bringing together writings which insist upon the continuity of the early twentieth century moment now at the start of the twenty first Engaging the complex and contradictory nature of Dada strategies instanced in the linguistic gaming and performativity of the movement's initial formation and subsequently isolating the specific from the general with essays focusing on Ball Tzara Serner Hausmann Dix Heartfield Schwitters Baader Cravan and the exemplary Duchamp the political philosophy of the avant garde is brought to bear upon our own contemporary struggle through critical theory to comprehend the cultural usefulness relevance validity and effective or otherwise oppositionality of Dada's infamous anti stance The volume is presented in sections that progressively point towards the expanding complexity of the contemporary engagement with Dada as what is often exhaustive historical data is forced to rethink realign and reconfigure

itself in response to the analytical rigour and exercise of later twentieth century animal anarchic thought the testing and cultural placement of thoughts upon the virtual and the eventual implications for the once blissfully unproblematic idea of expression From the opening provocative proposition that historically Dada may have been the falsest of all false paths the volume rounds to dispute such condemnation as demarcation continues not only of Dada's embeddedness in western culture but more precisely of the location of Dada culture Ten critical essays by Cornelius Partsch John Wall T J Demos Anna Schaffner Martin I Gaughan Curt Germundson Stephen C Foster Dafydd Jones Joel Freeman and David Cunningham are supplemented by the critical bibliography prepared by Timothy Shipe which documents the past decade of Dada scholarship and in so doing provides a valuable resource for all those engaged in Dada studies today
